KULTERMANN, 1967 **New Directions in Japanese Architecture** Robin Boyd, 1968 Japan has managed to build up one of the most consistent and instantly recognizable styles of modern architecture and has done this in hardly more than a decade The full impact of the international modern movement did not strike Japanese architects until well after World War II and then their vision was concentrated on the work of one master Le Corbusier Yet in a remarkably short time after that they turned from copying to creating subtly flavoring the international movement with the essence of their own country Today Japan is one of the growth points of world architecture Why this sudden surge of sophistication How could so many Japanese architects step up so quickly and with such unison into command of the modern building arts and technologies How genuine is their style The question of its validity and the reasons for its rapid maturation provide the theme underlying this study of the new direction which Japanese architecture is now forcefully taking Robin Boyd finds some reasons in the inescapable if indirect influences of Japan's great architectural traditions some in the social background of today and some in the special kind of insularity which colors the Japanese experience poised as they see it between East and West The new work of a number of Japanese architects is illustrated and analyzed Some of these architects are world famous all are working in the forefront of national development and share responsibility for the vigor and promise that cannot fail to excite a visitor from

deceptively simple blending of architecture landscape and design Zen temples the famous tea ceremony formal gardens the use of wood paper and other materials in the form of screens and floors all have evolved over the years to create a varied yet indisputably unique style Japan Style showcases 40 contemporary homes many never photographed before and explores the unique Japanese design in all its manifestations The book is divided into four chapters Reworking Tradition Managing Space Experimenting with Materials Personal Statements Each home is representative in its own way of the changing face of Japanese interior design and architecture and will be sure to inspire some new design ideas for your own home **New Japanese Architecture** Udo Kultermann,1960 For other editions see Author Catalog [The Constructed Other: Japanese Architecture in the Western Mind](#) Kevin Nute,2021-09-30 The Constructed Other argues that the assumed otherness of Japanese architecture has made it both a testbed for Western architectural theories and a source of inspiration for Western designers The book traces three recurring themes in Western accounts of Japanese architecture from the reopening of Japan in the mid nineteenth century to the present day a wish to see Western architectural theories reflected in Japanese buildings efforts to integrate elements of Japanese architecture into Western buildings and a desire to connect contemporary Japanese architecture with Japanese tradition It is suggested that together these narratives have had the effect of creating what amounts to a mythical version of Japanese architecture often at odds with historical fact but which has exercised a powerful influence on the development of building design internationally **The New Japanese Architecture** Botond Bogner,1991-04-29 **The New Japanese House** Chris Fawcett,1980 **Japan Houses** Marcia Iwatate,2012-05-01 This Japanese architecture and design book is a wonderful source of new styles and ideas for those looking to add a distinctively Zen flair to their home Limited spaces unlimited technology a tradition of innovation and sheer Japanese panache have combined to inspire the 26 stunning homes featured in Japan Houses Conceived by 24 of Japan s leading architects and designers each of the houses forecasts and defines a new trend in residential architecture reinventing the meaning and use of space material and function Traditional lifestyles are challenged domestic functions such as cooking and entertaining are moved out of the house into the public domain while laptops bring work back in Zen minimalist is juxtaposed with comfortable opulence Time honored workmanship is coupled with exciting new materials resulting in a recognizable style that belongs to Japan reflecting its culture and craftsmanship while at the same time being avant garde and international The spirit of each of these astonishing houses is captured in beautiful photographs plans and commentary **Amazing Architecture from Japan** Hiroshi Watanabe,1991 Examines 19 examples of modern Japanese architecture In the last decade a new generation of Japanese architects have begun to create architecture using a combination of the imagination of the modern architect s atelier and Japan s ancient traditions of handcrafted design
