Worker Cooperatives in India Timothy Kerswell, Surendra Pratap, 2018-07-09 This book discusses the experiences of cooperative enterprises in India that have been operated by or influenced to a significant extent by trade unions It describes the origins of these movements in India presenting a political strategic view of their development and in some cases their decline The book also presents case studies of groundbreaking social experiments conducted in India in which trade unions have formed cooperatives for production and service provision for the working class movement It also offers lessons learned from previous social experiments and explains how to use them for future strategies in the working class movement by using primary research undertaken on trade union cooperatives in India With globalization often given as a reason for the decline of trade unions and transformative social movements this book demonstrates that where movements declined it was due to their own internal weaknesses while presenting successful case studies of movements which have shown resilience in the face of globalization The book also gives an extensive criticism of India's Self Employed Women's Association as a model of a depoliticized trade union cooperative The main lesson of this book is that cooperatives represent a viable strategy to build working class power in the 21st century in India and elsewhere

Quinine's Remains Townsend Middleton, 2024-05-21 A free ebook version of this title is available through Luminos University of California Press's Open Access publishing program Visit www.luminosoa.org to learn more What happens after colonial industries have run their course after the factory closes and the fields go fallow Set in the cinchona plantations of India's Darjeeling Hills Quinine's

Remains chronicles the history and aftermaths of quinine Harvested from cinchona bark quinine was malaria's only remedy until the twentieth century advent of synthetic drugs and it was vital to the British Empire Today the cinchona plantations and the roughly fifty thousand people who call them home remain Their futures however are unclear The Indian government has threatened to privatize or shut down this seemingly obsolete and crumbling industry but the plantation community led by strident trade unions has successfully resisted Overgrown cinchona fields and shuttered quinine factories may appear the stuff of postcolonial and postindustrial ruination but quinine's remains are not dead Rather they have become the site of urgent efforts to redefine land and life for the twenty first century Quinine's Remains offers a vivid historical and ethnographic portrait of what it means to forge life after empire

Designing Hollywood Christian Esquevin,2023-08-29 Since the 1920s fashion has played a central role in Hollywood As the movie going population consisted largely of women studios made a concerted effort to attract a female audience by foregrounding fashion Magazines featured actresses like Jean Harlow and Joan Crawford bedecked in luxurious gowns selling

their glamour as enthusiastically as the film itself Whereas actors and actresses previously wore their own clothing major studios hired costume designers and wardrobe staff to fabricate bespoke costumes for their film stars Designers from a variety of backgrounds including haute couture and art design were offered long term contracts to work on multiple movies Though their work typically went uncredited they were charged with creating an image for each star that would help define an actor both on and off screen The practice of working long term with a single studio disappeared when the studio system began unraveling in the 1950s By the 1970s studios had disbanded their wardrobe departments and auctioned off their costumes and props In *Designing Hollywood Studio Wardrobe in the Golden Age* Christian Esquevin showcases the designers who dressed Hollywood's stars from the late 1910s through the 1960s and the unique symbiosis they developed with their studios in creating iconic looks Studio by studio Esquevin details the careers of designers like Vera West who worked on Universal productions such as *Phantom of the Opera* 1925 *Dracula* 1931 and *Bride of Frankenstein* 1931 William Travilla the talent behind Marilyn Monroe's dresses in *Gentleman Prefer Blondes* 1953 and *The Seven Year Itch* 1955 and Walter Plunkett the Oscar winning designer for film classics like *Gone with the Wind* 1939 and *An American in Paris* 1951 Featuring black and white photographs of leading ladies in their iconic looks as well as captivating original color sketches *Designing Hollywood* takes the reader on a journey from drawing board to silver screen

Artistry in Clay: Terracotta Goddesses Depicted on Temples of West Bengal Surya Shekhar Das, 2024-08-07 The Indian state of West Bengal is

bestowed with a rich cultural heritage and great diversity of art forms Arguably the most remarkable and unique of these art forms is housed on the surface of the so called terracotta temples constructed mostly during 16th to 19th century CE Intricate terracotta panels on the walls of these temples weave sacred tales from mythology folklore as well as profane narratives of everyday life of both affluent and humble people Probably nowhere in the world has this art form been more artistically displayed But unfortunately this magnificent art form of Bengal has been eclipsed by other contemporary mediaeval monuments better placed in the limelight of history and probably of destiny too Considering the quality of terracotta treasure of West Bengal one can affirm without any fear of contradiction that only in a few places in India art lovers would find their souls better rewarded In the beginning the book contains brief discussion on the earliest Hindu goddesses origin of figurative icons of goddesses art of terracotta theory of rasa history of adornment of temple exterior using terracotta artwork in West Bengal unique external forms of terracotta temples and diversity of themes in terracotta depictions Then the origin and course of history of around forty goddesses depicted on terracotta temples have been presented along with literary and archaeological evidence It is undeniable that such a strong presence of the feminine voice as we find in Hindu tradition is wanting in the entire panorama of world religion from ancient to modern times But the real highlight of this book is the photographs of pertinent terracotta panels clicked by the author from a plethora of temples in different districts of West Bengal Moreover these photographs are supplemented with relevant specimens in medium other than terracotta It includes stone metal wood painting both mural and miniature etc Overall this book is embellished with around 260 illustrations many of which are being published for the first time
