**Global Regulatory Standards in Environmental and Health Disputes** Caroline E. Foster, 2021-06-24 Global regulatory standards are emerging from the environmental and health jurisprudence of the International Court of Justice the World Trade Organization under the United Nations Convention on the Law of the Sea and investor state dispute settlement Most prominent are the three standards of regulatory coherence due regard for the rights of others and due diligence in the prevention of harm These global regulatory standards are a phenomenon of our times representing a new contribution to the ordering of the relationship between domestic and international law and a revised conception of sovereignty in an increasingly pluralistic global legal era However the legitimacy of the resulting standards enriched international law remains open to question International courts and tribunals should not be the only fora in which these standards are elaborated and many challenges and opportunities lie ahead in the ongoing development of global regulatory standards Debate over whether regulatory coherence should go beyond reasonableness and rationality requirements and require proportionality *stricto sensu* in the relationship between regulatory measures and their objectives is central Due regard the most novel of the emerging standards may help protect international law's legitimacy claims in the interim Meanwhile all actors should attend to the integration rather than the fragmentation of international law and to changes in the status of private actors

**Reconstructing Judicial Review** Sarah Nason, 2016-12-01 This book offers a new interpretation of judicial review in England and Wales as being concerned with the advancement of justice and good governance as opposed to being concerned primarily with *ultra vires* or common law constitutionalism It is developed both from examining the functions and values that ought to be served by judicial review and from analysis of empirical social facts about judicial review primarily as experienced in the Administrative Court Based on ground up case law analysis it constructs a new taxonomy on the grounds of judicial review mistake procedural impropriety ordinary common law statutory interpretation discretionary impropriety relevant irrelevant considerations breach of an ECHR protected right or equality duty and constitutional allocation of powers constitutional rights or other complex constitutional principles It explains each of these grounds what academic and judicial support there might be for them outside case law analysis and their similarities and differences when viewed against popular existing taxonomies It concludes that Administrative Court judges are engaged in ordinary common law statutory interpretation in approximately half of all cases and that where discretionary judgement is involved on the part of the initial decision maker judges do indeed consider their task to be one of

determining whether the challenged decision was justified by reasoning of adequate quality It finds that judges apply ordinary common law principles of statutory interpretation with historical pedigrees including assessing the initial decision maker's reasoning with reference to statutory purpose and sifting relevant from irrelevant considerations including moral considerations The result is a ground breaking reassessment of the grounds of judicial review in England and Wales and the practice of the Administrative Court

**Human Rights in the UK and the Influence of Foreign Jurisprudence** Hélène Tyrrell, 2018-09-20 Longlisted for the 2022 Inner Temple Main Book Prize Human Rights in the UK and the Influence of Foreign Jurisprudence represents the first major empirical study of the use of foreign jurisprudence at the UK Supreme Court This book focuses on the patterns of use and non use of rulings from foreign domestic courts in human rights cases before the UK Supreme Court Results are drawn from quantitative and qualitative research presenting data from the first eight years of Supreme Court activity The evidence includes interviews with active and former members of the senior judiciary as well as a focus group including some of the Supreme Court Judicial Assistants It is argued that foreign jurisprudence is more intimately woven into the fabric of judicial reasoning and serves a wider range of functions than the term persuasive authority might imply Foreign jurisprudence is used mainly as a heuristic device providing judges with a fresh analytical lens Foreign jurisprudence is also important when interpreting a common legislative scheme supporting dialogue between the Supreme Court and supranational courts such as the European Court of Human Rights The perspectives offered by foreign jurisprudence can also support a stronger conception of domestic human rights In these ways this book addresses a broader political question about the source of human rights in the UK
