Medicine, Rationality and Experience Byron J. Good, 1994 Biomedicine is often thought to provide a scientific account of the human body and of illness In this view non Western and folk medical systems are regarded as systems of belief and subtly discounted This is an impoverished perspective for understanding illness and healing across cultures one that neglects many facets of Western medical practice and obscures its kinship with healing in other traditions Drawing on his research in several American and Middle Eastern medical settings in this 1993 book Professor Good develops a critical anthropological account of medical knowledge and practice He shows how physicians and healers enter and inhabit distinctive worlds of meaning and experience He explores how stories or illness narratives are joined with bodily experience in shaping and responding to human suffering and argues that moral and aesthetic considerations are present in routine medical practice as in other forms of healing

Love & Light Clayton Tylor, 2017-05-20 This book examines Swedenborg s spiritual experiences of Heaven and Hell from an esoteric perspective as a feeling the language of angels and spirits To perceive this spiritual feeling begins the regeneration process that develops an inner perception of celestial love as spiritual light When we can perceive love and light as a feeling as it expresses through our physical senses we can start to affect our own psycho spiritual development to evolve from a sensual to a spiritual feeling of conjugal love As we examine love and light as a spiritual feeling through heaven and hell we too begin to experience a deeper spiritual awareness which can initiate a personal communication with the Divine as a Conjugal Love experience With creative self expression as our goal we can take regeneration into our own hands to speed up our own evolution while we transmute the forces that block the spiritual feeling of the Brotherhood of Mankind and thereby together manifest the feeling of Heaven on Earth
