New French Feminisms An Anthology:

New French Feminisms Elaine Marks, Isabelle De Courtivron, 1981 This important anthology provides us with translations of texts from women's liberation movement in France an excellent starting place Signs **New French Feminisms** Elaine Marks, Isabelle De Courtivron, 1980 New French Feminism Isabelle De Courtivron, 1984 **New French Feminism** Elaine Marks, 1984 **Beyond French Feminisms** R. Célestin, E. DalMolin, I. Courtivron, 2016-04-30 This volume a collection of essays by a number of high profile personalities working in philosophy literature sociology cinema theatre journalism and politics covers a number of recent and crucial developments in the field of French Feminisms that have made a reassessment necessary Beyond French Feminisms proposes to answer the question what is new in French Feminism at the beginning of the twenty first century The essays reflect the shift from the theoretical and philosophical approaches that characterized feminism twenty years ago to the more social and political questions of today Topics include the parit and PACS debates the France USA dialogue the multicultural issues and the new trends in literature and film by women New French Feminism Isabelle de Courtivron, Elaine Marks, 1986 **French Feminism in the 19th Century** Claire Goldberg Moses, 1984-01-01 Histories of France have erased the feminist presence from nineteenth century political life and the feminist impact from the changes that affected the lives of the French Now French Feminism in the Nineteenth Century completes the history books by restoring this missing and vital chapter of French history The book recounts the turbulent story of nineteenth century French feminism placing it in the context of the general political events that influenced its development It also examines feminist thought and activities using the very words of the women themselves in books newspapers pamphlets memoirs diaries speeches and letters Featured is a wealth of previously unpublished personal letters written by Saint Simonian women These engrossing documents reveal the nuances of changing consciousness and show how it led to an autonomous women's movement Also explored are the relationships between feminist ideology and women's actual status legal social and economic during the century Both bourgeois and working class women are surveyed Beginning with a general survey of feminism in France the book provides historical context and clarifies the later vicissitudes of the condition feminine **The Feminist Encyclopedia of French Literature** Eva M. Sartori, 1999-07-30 The earliest known literary productions by women living in Europe were probably written by French writers As early as the 12th century women troubadours in the south of France were writing poems French women continued writing through the ages their number increasing as education became more available to women of all classes And yet of the great number of works by women writers who preceded the current feminist movement very few have survived A few writers such as Marie de France George Sand and Simone de Beauvoir became part of the canon But critics mostly male had judged the works of only a few women writers worthy of recognition As part of the feminist move to reclaim women writers and to rethink literary history scholars in French literature began to take a new look at women writers who had been popular during their lifetimes but who had not

been admitted into the canon This reference book provides extensive information about French women writers and the world in which they lived Included are several hundred alphabetically arranged entries for authors literary genres such as the novel poetry and the short story literary movements such as classicism realism and surrealism life cycle events particular to women such as menstruation and menopause events and institutions which affected women differently than men such as revolutions wars and laws on marriage divorce and education The volume spans French literature from the Middle Ages to the present and covers those writers who lived and worked mainly in France The entries are written by expert contributors and each includes bibliographical information The entries focus on each writer s awareness of how her gender shaped her outlook and opportunities on how categorizations structures and terms used to describe literary works have been defined for women and the ways in which women writers have responded to these definitions The volume begins with a feminist history of French literature and concludes with a selected general bibliography and a chronology of women writers

Sexuality, Eroticism, and Gender in French and Francophone Literature Aaron Emmitte, Melanie Hackney, 2011-07-12 This study explores the diverse representations of sexuality eroticism and gender as expressed in French and Francophone literary thought both past and present From Fran oise de Graffigny s epistolary refusal of eroticism to the challenge of nineteenth century notions of rape in the novels of Emile Zola Victor Hugo and Eug ne Sue to desire and eroticism as social taboo in the surrealist works of Georges Bataille and Luis Bu uel its historical focus demonstrates that issues of sexuality eroticism and gender existed at the heart of France s literary tradition long before they became a staple in its universities Taking a more contemporary view it examines the notion of critique f minine in such authors as Monique Wittig Anne F Garr ta Nina Bouraoui Assia Djebar and Luce Irigaray and also challenges accusations of misogyny in the works of Michel Houellebecq While glimpsing the evolution of challenges to and conceptions regarding sexuality eroticism and gender each chapter s author focuses on language as both the obstacle and catalyst for change For example feminist strategies to avoid linguistic gender markers that subvert the phallogocentric paradigm literary portrayals of rape as a means to affect French penal code and use of the female body as language demonstrate that these notions are not only shaped by language but that language represents the key to deconstructing and redefining them Whether picking this up to read about familiar authors such as Hugo and Djebar or discovering Graffigny and Houellebecq for the first time each chapter promises to shed new light on its subject matter in regards to sexuality eroticism and or gender

Transfigurations C.W. Maggie Kim, Susan M. St. Ville, Susan M. Simonaitis, 2002-04-15 This volume explores the impact and import of the provocative and challenging work in this generation s most notable French feminists Despite the growing influence of the French feminists in the humanities especially in literary criticism poststructuralism and psychoanalysis American religionists have only recently begun to utilize their approaches and theories The volume introduces the characteristic concerns and themes of the leading French feminists particularly Helene Cixous Luce Irigaray and Julia Kristeva assesses their work against the very different orientations and

impulses of North American feminism and gauges the potential of their ideas for both hermeneutical explorations and for feminist theologies. In the process contributors shed important light on such issues as the normativity of women's experience, the character of subjectivity and structural dimensions of oppression. For those who would join this critical conversation, *Transfigurations* will be the indispensable entree. Contributors include Ellen T. Armour, Rebecca S. Chopp, Elizabeth Grosz, Amy Hollywood, Serene Jones, Cleo McNelly Kearns, Francoise Meltzer, Sharon D. Welch.

Theories on the Move Şebnem Susam-Sarajeva, 2006. Within translation studies, books on translating conceptually dense texts such as philosophical or theoretical writings are remarkably few. Although the translation of literature has been a favourite topic for many decades, the translation of theories on literature has been neglected. The phrase 'theories of translation' is everywhere, but translation of theories is a rare sight. On the other hand, the term 'translation' has become a commonplace in literary and cultural studies, yet usually as a rhetorical figure describing the fate of those who struggle between two worlds and two languages, such as migrants or women. Not much attention has been paid to the role of translation proper in contemporary circulation of ideas. The book addresses these gaps in translation studies and in literary studies for the first time by examining two specific cases where translation strategies and patterns crucially influenced the reception of imported schools of thought. By examining the importation of structuralism and semiotics into Turkish and of French feminism into English, it invites the readers to think about the impact of translation on the transmission of ideas across linguistic, cultural borders and power differentials. It is therefore of particular interest to the scholars working in translation studies, in literary and cultural theory, and in gender studies.

Women and Civil Society in Turkey Ömer Çaha, 2016-02-24. Focusing on three important interrelated issues, *Women and Civil Society in Turkey* challenges the classical definition developed in the West of civil society as an equivalent of the public sphere in which women are excluded. First, it shows how feminist movements have developed a new definition of civil society to include women. Second, it draws attention to the role of women in the modernization of Turkey, with special reference to the debate on the possibility of an indigenous feminist movement. Finally, it underlines the contribution of feminist Islamic and Kurdish women's movements in the transition from an ideologically constructed uniform public sphere to a multi-public domain. Giving attention to the influence of diverse women's movements over Turkish political values, this book sheds light into the issue of how a feminine civil society has been constructed as part of a plural public space in Turkey. meraha argues that this new public realm is the product of values and institutions which have been developed by diverse women's groups who have succeeded in eliminating the traditional barricades between public and domestic spheres and in steering women into public life without sacrificing their own values.

Out of Eden Beverly J. Stratton, 1995-12-01. *Out of Eden* contributes towards conversations about interpreting scripture. Rather than adopting traditional views of creation and fall or growth, this study integrates literary critical theories and feminist scholarship to read the Genesis narrative in relation to concerns of contemporary communities. The question of how we might engage the interpretative process and the rhetorical

power of texts as we live our lives out of Eden is addressed Stratton argues that the interpretation of Genesis 2-3 matters that there are consequences for the actions we take on the basis of our interpretations and that we should enter the interpretative process only with care
