The Leader on the Couch Manfred F. R. Kets de Vries, 2011-01-31 Despite the proven benefits of emotional intelligence organizational life has typically been hostile to the inner world of feeling Rationality is deemed superior to feeling which can contaminate judgment But without feeling there is no passion and no action This book sets out to change people and organizations for the better by revealing the dark side of leadership behaviour and its impact on performance Tapping into the startling parallels between the journey to emotional intelligence the process of psychoanalysis the practice of leadership coaching and the Zen journey to enlightenment renowned thinker Manfred Kets de Vries helps executives consultants and coaches to peel back the layers of self deception and reveal how inner personality largely hard wired since early childhood affects the way they lead and manage others

Canada Roger L. Martin, James Milway, 2012-01-01 Canada What It Is What It Can Be provides an incisive examination of this country's increasing prosperity gap the difference in value between what we do create and what we could create if we performed at our full potential As Roger Martin and James Milway demonstrate although we are proud of our trading prowess we do not participate as aggressively in world markets

with innovative products and services as we could While we want to take risks to achieve success our business strategies and economic policies need to set the bar higher to achieve the success we want for Canada

A History of Global Health

Randall M. Packard, 2016-09-15 A sweeping history explores why people living in resource poor areas lack access to basic health care after billions of dollars have been invested in international health assistance Over the past century hundreds of billions of dollars have been invested in programs aimed at improving health on a global scale Given the enormous scale and complexity of these lifesaving operations why do millions of people in low income countries continue to live without access to basic health services sanitation or clean water And why are deadly diseases like Ebola able to spread so quickly among populations In A History of Global Health Randall M Packard argues that global health initiatives have saved millions of lives but have had limited impact on the overall health of people living in underdeveloped areas where health care workers are poorly paid infrastructure and basic supplies such as disposable gloves syringes and bandages are lacking and little effort has been made to address the underlying social and economic determinants of ill health Global health campaigns have relied on the application of biomedical technologies vaccines insecticide treated nets vitamin A capsules to attack specific health problems but have failed to invest in building lasting infrastructure for managing the ongoing health problems of local populations Designed to be read and taught the book offers a critical historical view providing historians policy makers researchers program managers and students with an essential new perspective on the formation and implementation of global health policies and practices
