**New Hampshire State Constitution** Susan E. Marshall, 2011-03-18 Prepared in 1776 the constitution of New Hampshire is the nation's first written state constitution. The 1776 constitution was a brief 15 sentences but it laid out a form of government dedicated to popular control and limited government powers that have remained a central theme of New Hampshire constitutional law to this day. The detail of the framing of the original state constitution, the first in the nation, provides a context for understanding and appreciating the traditions which have marked the state's political and constitutional history even after 144 amendments and over 200 years. The New Hampshire State Constitution includes the full text of each article of the constitution and an analysis of each article's development. Susan E. Marshall includes a description of amendments to the text and references to cases decided by the New Hampshire Supreme Court. She offers a historical overview of the development and application of the New Hampshire constitution and provides a general constitutional history and an article by article commentary including a discussion of important cases. Also included are a bibliographical essay, a table of cases, tables relating to constitutional conventions and amendments, and a general index offering significant sources for further study. Previously published by Greenwood, this title has been brought back in to circulation by Oxford University Press with new verve.
