## **New Israel Peacemaking And Liberalization:**

The New Israel Gershon Shafir, 2018-02-13 The New Israel Peacemaking and Liberalization argues that the ongoing Israeli Palestinian peace process will be expedited by increased economic liberalization Israel has undergone dramatic economic change in the 1990s shifting from a strongly protectionist state centered economy to a more international neoliberal one The book maintains that these fundamental changes have in turn transformed Israeli society as a whole resulting in a significant moderation of attitudes toward the Palestinian people and Palestinian nationalism The New Israel contains contributions from both established Israeli sociologists and promising young scholars The New Israel Peacemaking and Liberalization is an insightful commentary on one of the most crucial international issues of our time *Neoliberalism as a State Project* Asa Maron, Michael Shalev, 2017-04-14 This book explores the politics institutional dynamics and outcomes of neoliberal restructuring in Israel It puts forward a bold proposition that the very creation of a neoliberal political economy may be largely a state project Correspondingly it argues that key political conflicts surrounding the realization of this project may occur within the state Neoliberal restructuring and the institutionalization of permanent austerity are dependent on reconfigured power relations between state actors and are manifested in a new institutional architecture of the state This architecture in turn is the context in which efforts to change social and employment policies play themselves out The volume frames the coming of neoliberalism in Israel as a set of concrete and far reaching changes in the power and modes of operation of the key players in the political economy These changes undermined and neutralized veto players and enabled the ascendance of two state agencies the Ministry of Finance and the Central Bank which gained greatly augmented authority and autonomy These reconfigurations were set in motion by state initiatives that combined punctuated and incremental change The volume comprises case studies of changes in specific social and labor market policies revealing a close elective affinity between programmatic neoliberal changes on the one hand and on the other the proactive drive of the Ministry of Finance to enhance its control over public spending and policy design The book explores successful neoliberal reforms but also reforms that were blocked undermined or overturned by opposition emphasizing the importance of reformers capacity to translate temporary achievements into entrenched strategic advantages *Labor in Israel* Jonathan Preminger, 2018-04-15 Using a comprehensive analysis of the wave of organizing that swept the country starting in 2007 Labor in Israel investigates the changing political status of organized labor in the context of changes to Israel's political economy including liberalization the rise of non union labor organizations the influx of migrant labor and Israel's complex relations with the Palestinians Through his discussion of organized labor's relationship to the political community and its nationalist political role Preminger demonstrates that organized labor has lost the powerful status it enjoyed for much of Israel's history Despite the weakening of trade unions and the Histadrut however he shows the ways in which the fragmentation of labor representation has created opportunities for those previously excluded from the labor movement

regime Organized labor is now trying to renegotiate its place in contemporary Israel a society that no longer accepts labor's longstanding claim to be the representative of the people As such Preminger concludes that organized labor in Israel is in a transitional and unsettled phase in which new marginal initiatives new organizations and new alliances that have blurred the boundaries of the sphere of labor have not yet consolidated into clear structures of representation or accepted patterns of political interaction

*The Privatization of Israel* Amir Paz-Fuchs, Ronen Mandelkern, Itzhak Galnoor, 2018-05-03 The book is the first to cover all areas of privatization in Israel and one of the first to do so in general including state infrastructure immigration policy land health education welfare regulation and policy design As such it offers a comprehensive volume for students policy makers and scholars interested in the economic sociological political and legal perspectives of a major policy trend that has changed the face and character of the modern state In addition it is a vital contribution to those who have an interest in changes in Israeli society politics and economy

**Political Power and Social Theory** Diane E. Davis, Christina Proenza-Coles, 2008-09-07 Deals with the comparative and historical social science This title focuses on a variety of questions relating to states citizenship and power common themes examined with divergent analytical entry points and through deep knowledge of country cases as diverse as Russia the United States El Salvador South Africa and Israel

*The Crooked Timber of Democracy in Israel* Dahlia Scheindlin, 2023-09-18 A narrative chronicle of Israeli democracy that defines historic phases and follows thematic challenges to democracy including competition between religion and the rule of law the statist society and chaotic minoritocracy modern illiberal populism and the Israeli Palestinian conflict The comprehensive portrait exposes endemic flaws of democracy in Israel but also shows that Israel has considerable capacity and responsibility to fulfill the promise of democracy

**Neoliberal Apartheid** Andy Clarno, 2017-03-07 In recent years as peace between Israelis and Palestinians has remained cruelly elusive scholars and activists have increasingly turned to South African history and politics to make sense of the situation In the early 1990s both South Africa and Israel began negotiating with their colonized populations South Africans saw results the state was democratized and black South Africans gained formal legal equality Palestinians on the other hand won neither freedom nor equality and today Israel remains a settler colonial state Despite these different outcomes the transitions of the last twenty years have produced surprisingly similar socioeconomic changes in both regions growing inequality racialized poverty and advanced strategies for securing the powerful and policing the racialized poor Neoliberal Apartheid explores this paradox through an analysis of de colonization and neoliberal racial capitalism After a decade of research in the Johannesburg and Jerusalem regions Andy Clarno presents here a detailed ethnographic study of the precariousness of the poor in Alexandra township the dynamics of colonization and enclosure in Bethlehem the growth of fortress suburbs and private security in Johannesburg and the regime of security coordination between the Israeli military and the Palestinian Authority in the West Bank The first comparative study of the changes in these two areas since the early 1990s the book addresses the limitations of liberation in South Africa highlights the impact of

neoliberal restructuring in Palestine and argues that a new form of neoliberal apartheid has emerged in both contexts

Israel's Materialist Militarism Yagil Levy, 2007-01-01 Israel's Materialist Militarism explains the fluctuations in Israel's military policies during the 1990s 2000s from the Oslo Accords to the al Aqsa Intifada and the Second Lebanon War A conceptual framework is offered that relies on materialist militarism the relations of exchange between the state and social groups by which the groups exchange their military sacrifice for social rewards that in turn nurtures militarism The dynamic balancing of the sacrifice reward equation explains the dynamics of war versus de escalation

**Social Justice, Legitimacy and the Welfare State** Benjamin Veghte, 2016-12-05 Drawing together leading international experts such as Knut Halvorsen Robert Y Shapiro Stefan Svallfors and Wim van Oorschot this volume addresses issues of justice and legitimacy in the context of welfare state transformation The contributors demonstrate that the Western welfare state is not at risk of losing support or encountering fundamental opposition but does face serious challenges including growing social and ethnic diversity new social risks fiscal constraints and contested notions of justice The volume focuses on four main aspects attitude formation in cross national perspective the just distribution of burdens and benefits political factors mediating the effects of social attitudes on public policy and challenges to the welfare state stemming from immigration and ethnic diversity Providing a comparative perspective on the issue Social Justice Legitimacy and the Welfare State makes a significant contribution to the literature on the public standing of the welfare state

**Making Israel** Benny Morris, 2010-04-23 Benny Morris is the founding father of the New Historians a group of Israeli scholars who have challenged long established perceptions about the origins of the Israeli Palestinian conflict Their research rigorously documented crimes and atrocities committed by the Israeli armed forces including rape torture and ethnic cleansing With Making Israel Morris brings together the first collection of translated articles on the New History by leading Zionist and revisionist Israeli historians providing Americans with a firsthand view of this important debate and enabling a better understanding of how the New Historians have influenced Israelis awareness of their own past The study of Israeli history society politics and economics over the past two decades has been marked by a fierce and sometimes highly personal debate between traditionalists scholars who generally interpreted Israeli history and society within the Zionist ethos and revisionists scholars who challenged conventional Zionist narratives of Israeli history and society Making Israel brings together traditionalists and revisionists who openly and directly lay out their key insights about Israel's origins It also introduces multidisciplinary perspectives on Israel by historians and sociologists each bringing into the debate its own jargon its own epistemology and methodology and its own array of substantive issues This is essential reading for anybody who wants to understand the different interpretations of Israeli society and perhaps the central debate among students of modern Israel Zeev Maoz Professor of Political Science at the University of California Davis and Distinguished Fellow at the Interdisciplinary Center Herzliya Israel's new historians have done a great service to their country and to all who care about the Arab Israeli conflict By challenging myths reexamining evidence and asking truly

important questions about the past they help to confront the present with honesty and realism This book provides a sampling of the best of what these courageous voices have to offer William B Quandt University of Virginia Benny Morris is Professor of Middle East history at Ben Gurion University in Beersheba Israel and is the author of *Righteous Victims A History of the Zionist Arab Conflict 1881 1999* State, Power and Politics in the Making of the Modern Middle East Roger Owen,2013-01-11 Roger Owen has fully revised and updated his authoritative text to take into account the latest developments in the Middle East This book continues to serve as an excellent introduction for newcomers to the modern history and politics of this fascinating region This third edition continues to explore the emergence of individual Middle Eastern states since the fall of the Ottoman Empire at the end of the First World War and the key themes that have characterized the region since then **Understanding the Middle East Peace Process** Asima Ghazi-Bouillon,2009-01-30 Asima Ghazi Bouillon examines the Middle East peace process since Oslo and how Israel s sense of national identity has changed and been interpreted In particular the book analyzes the highly contentious academic debates between the New Historians post Zionists and neo Zionists *The Challenge of Post-Zionism* Ephraim Nimni,2003 This volume presents the emerging debate known as Post Zionism about the future and characteristics of Israel Its contributors include some of its main protagonists Israeli citizens of Jewish and Palestinian background They explore Post Zionism s meanings ambiguities and prospects and place it in its political context as Israeli society seems to be reaching an ideological crossroads They also put forward criticisms of post Zionism and explore its implications for out groups including Palestinians Israeli women and Jewish people living outside Israel **Peaceworks** ,2006 Advances in Military Sociology Giuseppe Caforio,2009-12-01 A selection of the papers presented at RC01 s international conference in Seoul July 2008 It offers an overview of the panorama of social studies on armed forces and conflict resolution in a context of fast moving change It presents studies that move beyond the very concept of globalization Being Israeli Gershon Shafir,Yoav Peled,2002-02-14 A timely study by two well known scholars offers a theoretically informed account of the political sociology of Israel The analysis is set within its historical context as the authors trace Israel s development from Zionist settlement in the 1880s through the establishment of the state in 1948 to the present day Against this background the authors speculate on the relationship between identity and citizenship in Israeli society and consider the differential rights duties and privileges that are accorded different social strata In this way they demonstrate that despite ongoing tensions the pressure of globalization and economic liberalization has gradually transformed Israel from a frontier society to one more oriented towards peace and private profit This unexpected conclusion offers some encouragement for the future of this troubled region However Israel s position towards the peace process is still subject to a tug of war between two conceptions of citizenship liberal citizenship on the one hand and a combination of the remnants of republican citizenship associated with the colonial settlement with an ever more religiously defined ethno nationalist citizenship on the other Facing Barriers Vered Kraus,Yuval P. Yonay,2018-03-22

Analyzes the labor experience of Israeli Palestinian women arguing that state policies and widespread discrimination hinder their labor force participation and success

**Economic Citizenship** Amalia Sa'ar, 2016-07-01 With the spread of neoliberal projects responsibility for the welfare of minority and poor citizens has shifted from states to local communities Businesses municipalities grassroots activists and state functionaries share in projects meant to help vulnerable populations become self supportive Ironically such projects produce odd discursive blends of justice solidarity and wellbeing and place the languages of feminist and minority rights side by side with the language of apolitical consumerism Using theoretical concepts of economic citizenship and emotional capitalism Economic Citizenship exposes the paradoxes that are deep within neoliberal interpretations of citizenship and analyzes the unexpected consequences of applying globally circulating notions to concrete local contexts

**Democratic Citizenship and War** Yoav Peled, Noah Lewin-Epstein, Guy Mundlak, Jean Cohen, 2014-06-03 This edited volume explores the theoretical and practical implications of war and terror situations for citizenship in democratic states Citizenship is a key concept in Western political thought for defining the individual's relations with society The specific nature of these rights duties and contributions as well the relations between them are determined by the citizenship discourses that prevail in each society In wartime including low intensity wars democratic societies face different challenges than the ones facing them during peacetime in areas such as human rights the status of minorities the state's obligations to its citizens and the meaning of social solidarity War situations can affect not only the scope of citizenship as an institution but also the relations between the prevailing discourses of citizenship and between different groups of citizens Since 9 11 and the declaration of the war on terror many democracies have been grappling with issues rising out of the interface between citizenship and war This volume examines the effects of war on various aspects of citizenship practice including immigration and naturalization the welfare state individual liberties gender relations multiculturalism social solidarity and state civil society relations This book will be of great interest to students of military studies political science IR and security studies in general

**The Elections In Israel** Alan Arian, Michal Shamir, The Elections in Israel 2003 brings together leading Israeli and North American social scientists and their state of the art in depth analysis of the 2003 Israeli national elections These elections returned Ariel Sharon and the Likud to power amid one of the bloodiest rounds of conflict between Israel and the Palestinians and a severe economic downturn in Israel Contributors analyze the electoral behavior of the voters as a whole and various subgroups highlighting social cleavages and identity as well as issues and other strategic considerations Three chapters analyze in detail the Arab the national religious and the Russian vote The 2003 elections saw Israel's return to the family of parliamentary nations after it experimented with the direct election of the prime minister from 1996 through 2001 The impact of the adoption and repeal of this unique Israeli system of government is another major topic covered in this volume and several contributions explore the impact of these changes upon the electorate the party system and party financing Other unusual features of the 2003 elections were the low turnout levels among Jewish and Arab voters

political moves to disqualify Arab candidates and lists from running for office which were overruled by the Supreme Court of Israel the collapse of the left the spectacular showing of the centrist Shinui party and the dominant status of the Likud in the Knesset and in Israeli politics Through its focus on the 2003 elections this volume also illuminates developments and changes in Israeli society and politics Many of these developments multiculturalism changes in social stratification the growing role of the judiciary and of the media and political reforms characterize other Western democracies as well and these are discussed from a comparative perspective The Elections in Israel 2003 will be of particular interest to those concerned with politics in Israel as well as those concerned with comparative politics and elections in general Asher Arian is Distinguished Professor of Political Science at the Graduate Center of the City University of New York a senior research fellow at the Israel Democracy Institute and professor of political science at the University of Haifa Michal Shamir is professor of political science at Tel Aviv University
