Nurses Story Life Death And In Between In An Intensive Care Unit:

A Nurse's Story Tilda Shalof, 2010-02-05 The team of nurses that Tilda Shalof found herself working with in the intensive care unit ICU of a big city hospital was known as Laura's Line They were a bit wild smart funny disrespectful of authority but also caring and incredibly committed to their jobs Laura set the tone with her quick remarks Frances from Newfoundland was famous for her improvised recipes Justine the union rep wore t-shirts emblazoned with defiant slogans like Nurses Care But It's Not in the Budget Shalof was the one who had been to university The others accused her of being sooo sensitive They depended upon one another Working in the ICU was both emotionally grueling and physically exhausting Many patients quite simply were dying and the staff strove mightily to prolong their lives With their skill dedication and the resources of modern science they sometimes were almost too successful Doctors and nurses alike wondered if what they did for terminally ill patients was not in some cases too extreme A number of patients were admitted when it was too late even for heroic measures A boy struck down by a cerebral aneurysm in the middle of a little league hockey game A woman rescued too late from a burning house It all took its toll on the staff And yet on good days they thrived on what they did Shalof describes a colleague who is managing a crashing patient I looked at her Nicky was flushed with excitement She was doing five different things at the same time planning ahead for another five She was totally focused in her element in control completely at home with the chaos There was a huge smile on her face Nurses like to fix things If they can Shalof a veteran ICU nurse reveals what it is really like to work behind the closed hospital curtains The drama the sardonic humour the grinding workload the cheerful camaraderie the big issues and the small all are brought vividly to life in this remarkable book

Nurses as Leaders William Rosa, 2016-06-13 Integrates the perspectives of contemporary nurse leaders to foster an innovative collaborative future Encompassing the wisdom of both established and emerging nurse leaders this expansive book demonstrates proof of theory in action and the influence of our great nursing legacy on today's luminaries as they carve out new terrain to benefit current and future health care needs With a far reaching ambitious perspective it is the first text to link the ideas of nurse leaders from very diverse specialty areas including holism advanced practice education policy global health journalism and spiritual communities The book examines the professional and scholarly accomplishments of these nurse leaders within an historical context and facilitates succession planning for the next generation through of combination of outcomes based writing storytelling and personal reflection Dozens of expert contributors from practice and theory arenas describe how to develop leadership skills and tactics through the implementation of local national and international initiatives With an eye to creative evolution in education research and clinical settings they discuss how emerging nurse leaders can be agents of change beyond the confines of traditional practice and curricula through innovation and collaboration Contributors also relate the circumstances and experiences that sparked their nursing passions the moral ethical foundation from which they practice and inspired messages toward communal societal and global impact within
