 Seidel,2021-01-25 From the sixteenth through to the eighteenth century printed disputations were the main academic output
 of universities This genre is especially attractive as it deals with the most significant cultural and scientific innovations of the
 early modern period such as the printing revolution and the development of new methods in philosophy education and
 scholarly exchange via personal networks Until recently academic disputations have attracted comparatively little scholarly
 attention This volume provides for the first time a comprehensive study of the early modern disputation culture both through
 theoretical discussions and overviews and numerous case studies that analyze particular features of disputations in various
 European regions **Jesus as the Son of 1-2 Samuel's David** Marc Grønbech-Dam,2024-05-21 Although the Gospel of
 Matthew emphasizes Jesus as the son of David no one has systematically investigated how 1 2 Samuel influence Matthew s
 portrayal of Jesus as the son of David This work addresses that lacuna and shows how the sustained use of 1 2 Samuel in
 Matthew evokes the themes of mercy and righteousness as the hallmarks of a proper Davidic shepherd The book s systematic
 intertextual and narrative approach offers another way to understand Matthew s Christology and portrayal of the kingdom of
 heaven It helps the reader appreciate the justice focused nature of Jesus rule and its religious and political implications
