Zysk,2002-04-01 Life imprisonment is a complex and drastic penal sanction It gives the State the power to curtail the liberty of offenders for

the rest of their lives In many jurisdictions life imprisonment is the ultimate sanction for the most serious crimes It is frequently touted as an alternative to the death penalty At the same time life imprisonment is often imposed as a preventive measure where the offence alone does not justify using the ultimate sanction in the penal arsenal The complexity of life imprisonment is frequently overlooked Often it is assumed that it is not as drastic as it sounds as it will not be enforced for the whole life of the offender There may also be a reluctance to subject life imprisonment to close scrutiny lest its perceived suitability as an alternative to the death penalty be undermined This book tackles the complexity of life imprisonment head on by describing how various forms of it are imposed and implemented in the United States of America in England and Wales and in Germany as well as in the emerging international system of criminal justice From this basis it examines the justifications advanced for life imprisonment and the modifications that have resulted in individual jurisdictions in response to criticisms of its imposition and implementation At the same time the book develops a more general critique of life imprisonment It evaluates it against constitutional human rights standards that have been developed in many jurisdictions to judge the acceptability of punishment generally It concludes that some current practices in both the imposition and implementation of life imprisonment clearly are fundamentally unacceptable but that questions remain even about carefully implemented life sentences imposed for the most serious crimes The jurisprudential analysis provides the basis for a major re evaluation of life imprisonment and raises doubts about the unquestioning acceptance of this ultimate penalty

*The Criminal Brain, Second Edition* Nicole Rafter, Chad Posick, Michael Rocque, 2016-08-30 A lively up to date overview of the newest research in biosocial criminology What is the relationship between criminality and biology Nineteenth century phrenologists insisted that criminality was innate inherent in the offender's brain matter While they were eventually repudiated as pseudo scientists today the pendulum has swung back Both criminologists and biologists have begun to speak of a tantalizing but disturbing possibility that criminality may be inherited as a set of genetic deficits that place one at risk to commit theft violence or acts of sexual deviance But what do these new theories really assert Are they as dangerous as their forerunners which the Nazis and other eugenicists used to sterilize incarcerate and even execute thousands of supposed born criminals How can we prepare for a future in which leaders may propose crime control programs based on biology In this second edition of *The Criminal Brain* Nicole Rafter Chad Posick and Michael Rocque describe early biological theories of crime and provide a lively up to date overview of the newest research in

biosocial criminology New chapters introduce the theories of the latter part of the 20th century apply and critically assess current biosocial and evolutionary theories the developments in neuro imaging and recent progressions in fields such as epigenetics and finally provide a vision for the future of criminology and crime policy from a biosocial perspective The book is a careful critical examination of each research approach and conclusion Both compiling and analyzing the body of scholarship devoted to understanding the criminal brain this volume serves as a condensed accessible and contemporary exploration of biological theories of crime and their everyday relevance     The Rise and Fall of the Rehabilitative Ideal, 1895-1970 Victor Bailey, 2019-04-09 Spanning almost a century of penal policy and practice in England and Wales this book is a study of the long arc of the rehabilitative ideal beginning in 1895 the year of the Gladstone Committee on Prisons and ending in 1970 when the policy of treating and training criminals was very much on the defensive Drawing on a plethora of source material such as the official papers of mandarins ministers and magistrates measures of public opinion prisoner memoirs publications of penal reform groups and prison officers the reports of Royal Commissions and Departmental Committees political opinion in both Houses of Parliament and the research of the first cadre of criminologists this book comprehensively examines a number of aspects of the British penal system including judicial sentencing law making and the administration of legal penalties In doing so Victor Bailey expertly weaves a complex and nuanced picture of punishment in twentieth century England and Wales one that incorporates the enduring influence of the death penalty and will force historians to revise their interpretation of twentieth century social and penal policy This detailed and ground breaking account of the rise and fall of the rehabilitative ideal will be essential reading for scholars and students of the history of crime and justice and historical criminology as well as those interested in social and legal history     Labor Arbitration Awards, 2004     Colorado Revised Statutes Colorado, 2001     *Supervising Offenders in the Community* Maurice Vanstone, 2017-09-29 In this work Maurice Vanstone provides an authoritative and original account of the history of probation This invaluable reference tool offers readers a new way of reading probation history and presents an original context for thinking about current policy and practice While the study is essentially UK focused it also provides a comparative perspective by exploring the history of probation in the USA The author s research has produced the only history of probation practice that does justice to the mixture of influences on the early probation service and paves the way for today s more evidence based approach The work is based in part upon original documents and interviews with retired and serving officers *Supervising Offenders in the Community* will greatly interest criminologists and criminal justice social policy social history and social work academics and postgraduate students     **Democracy in America (Abridged)** Alexis de Tocqueville, Stephen D.
