Reckoning with History K.J. Kesselring, Matthew Neufeld, 2024-09-03 Bringing together essays on uses of history as both a practical activity and an approach to thinking about the present, this collection explores ways in which people have reckoned with history in pasts both distant and near. *Reckoning with History* begins by examining uses of the past in early modern Britain, a period in which print, religious reformation and political conflict transformed historical culture. Later essays offer insights into personal, popular, professional and sometimes deeply political uses of the past in other times and places, helping to contextualize our own moments in historical writing and to link the early and post modern periods. Throughout, contributors respond to the writings of Daniel Woolf whose scholarship illuminates the history of the historical discipline and the social circulation of the past. Covering subjects such as early archival practices, memories of historic plagues and the type of commemorations needed to revitalize liberal democracies, *Reckoning with History* contextualizes the uses of the past today

Unruly Penelopes and the Ghosts Eva Darias-Beautell, 2012-08-06 This collection of essays studies the cultural and literary contexts of narrative texts produced in English Canada over the last forty years. It takes as its starting point the nationalist movement of the 1960s and 70s when the supposed absence or weakness of a national sense became the touchstone for official discourses on the cultural identity of the country. That type of metaphor provided the nation with the distinctive elements it was looking for and contributed to the creation of a sense of tradition that has survived to the present. In the decades following the 1970s, however, critics, artists and writers have repeatedly questioned such a model of national identity, still fragile and in need of articulation by reading the nation from alternative perspectives such as multiculturalism, environmentalism, neo-regionalism, feminism or postcolonialism. These contributors suggest that the artistic and cultural flowering Canada is experiencing at the beginning of the twenty-first century is to a great extent based on the dismantlement of the images constructed to represent the nation only forty years ago. Through their readings of representative primary texts, their contextual analysis and their selected methodological tools, the authors offer a tapestry of alternative approaches to that process of dismantlement. Together they read as an unruly Penelopiad, their unravelling readings self-consciously interrogating Canada's lack of ghosts

A Penelopean Poetics Barbara Clayton, 2004-01-29 A Penelopean Poetics looks at the relationship between gender ideology and the self-referential poetics of the Odyssey through the figure of Penelope. She is a cunning story teller, her repeated reweavings of Laertes shroud a figurative replication of the process of oral poetic composition itself. Penelope's web is thus a discourse and it can be

construed specifically as feminine Her gendered poetics celebrates process multiplicity and ambiguity and it resists phallogocentric discourse by undermining stable and fixed meanings Penelope's poetics become a discursive thread through which different feminine voices can realize their resistant capacities Author Barbara Clayton's work contributes to discussions in the classics as well as literary criticism sex and gender studies and women's studies *Women's Education in Early Modern Europe* Barbara Whitehead, 2012-10-12 This book chronicles 300 years of women's education during this time Barabara Whitehead examines this history from a feminist perspective pointing to the subversive actions of the women of this period that led to the formation of academia as we know it *Dancing around the Well* Eric M. MacPhail, 2014-08-28 This study examines the transmission and transformation of commonplace wisdom in Renaissance humanism by tracing a series of filiations between classical sayings anecdotes and examples and Renaissance poems essays and fictions The circulation of commonplaces can be understood either as a process of reanimation and revitalization where frozen sayings thaw out and come to life or conversely as a process of immobilization and incrustation that petrifies tradition The paradigmatic figure for this process is the proverbial dance around the well which expresses both the danger and the compulsion of borrowed speech

Kinney, 2017-05-15 The last twenty five years have seen exciting new developments in scholarly work on Lady Mary Wroth whose *Urania* and *Pamphilia to Amphilanthus* constitute the first romance and the first sonnet sequence to be published by an Englishwoman Wroth's writings enter into a suggestive and gendered dialogue with the lyric and narrative works of her uncle Sir Philip Sidney even as they carve out a place for her own literary experiments This volume gathers together some of the most striking recent

criticism addressing Wroth's oeuvre many of its essays also discuss the intellectual and cultural contexts in which she wrote. The collection is prefaced by an extended editorial overview of scholarship in the field. *The Midwives Book, Or, The Whole Art of Midwifry Discovered* Mrs. Jane Sharp, 1999 When Jane Sharp wrote *The Midwives Book* in 1671 she became the first British woman to publish a midwifery manual. Drawing on works by her male contemporaries and combining medical information with anecdotes she produced an instructive work. Romance for Sale in Early Modern England Steve Mentz, 2017-09-29 The major claim made by this study is that early modern English prose fiction self-consciously invented a new form of literary culture in which professional writers created books to be printed and sold to anonymous readers. It further claims that this period's narrative innovations emerged not solely from changes in early modern culture like print and the book market but also from the rediscovery of a forgotten late classical text from North Africa: Heliodorus's *Aethiopian History*. In making these claims Steve Mentz provides a comprehensive historicist and formalist account of prose romance, the most important genre of Elizabethan fiction. He explores how authors and publishers of prose fiction in late sixteenth-century England produced books that combined traditional narrative forms with a dynamic new understanding of the relationship between text and audience. Though prose fiction would not dominate English literary culture until the eighteenth century, Mentz demonstrates that the form began to invent itself as a distinct literary kind in England nearly two centuries earlier. Examining the divergent but interlocking careers of Robert Greene, Sir Philip Sidney, Thomas Lodge, and Thomas Nashe, Mentz traces how, through differing commitments to print culture and their respective engagements with Heliodoran romance, these authors helped make the genre of prose fiction culturally and economically viable in England. Mentz explores how the advent of print and the book market changed literary discourse, influencing new conceptions of what he calls middlebrow narrative and new habits of reading and writing. This study draws together three important strains of current scholarly inquiry: the history of the book and print culture, the study of popular fiction, and the re-examination of genre and influence. It also connects early modern fiction with longer histories of prose fiction and the rise of the modern novel. A Comprehensive Dictionary of the World, **Steps to Success** Angus S.
