**A Study of Personal and Cultural Values** R. D'Andrade, 2008-04-14 This study analyzes American Vietnamese and Japanese personal values attempting to understand how it can be ethnographers find large differences in values between cultures yet empirical surveys find relatively small almost trivial differences in personal values between cultures **People of Rimrock** Evon Zartman Vogt, Ethel M. Albert, 1966 No detailed description available for People of Rimrock **Native American Language Ideologies** Paul V. Kroskrity, Margaret C. Field, 2009-04-15 Beliefs and feelings about language vary dramatically within and across Native American cultural groups and are an acknowledged part of the processes of language shift and language death This volume samples the language ideologies of a wide range of Native American communities from the Canadian Yukon to Guatemala to show their role in sociocultural transformation These studies take up such active issues as insiderness in Cherokee language ideologies contradictions of space time for the Northern Arapaho language socialization and Paiute identity and orthography choices and language renewal among the Kiowa The authors including members of indigenous speech communities who participate in language renewal efforts discuss not only Native Americans conscious language ideologies but also the often revealing relationship between these beliefs and other more implicit realizations of language use as embedded in community practice The chapters discuss the impact of contemporary language issues related to grammar language use the relation between language and social identity and emergent language ideologies themselves in Native American speech communities And although they portray obvious variation in attitudes toward language across communities they also reveal commonalities notably the emergent ideological process of iconization between a language and various national ethnic and tribal identities As fewer Native Americans continue to speak their own language this timely volume provides valuable grounded studies of language ideologies in action those indigenous to Native communities as well as those imposed by outside institutions or language researchers It considers the emergent interaction of indigenous and imported ideologies and the resulting effect on language beliefs practices and struggles in today's Indian Country as it demonstrates the practical implications of recognizing a multiplicity of indigenous language ideologies and their impact on heritage language maintenance and renewal **Historical Dictionary of the Latter-day Saints** Thomas G. Alexander, Davis Bitton, 2019-10-08 The Church of Jesus Christ of Latter-day Saints is a Christian church that was organized by six men in western New York in 1830 under the leadership of Joseph Smith the church has grown to more than 16 million members today A restoration of the primitive church organized by Jesus Christ in the first century C E the church's membership was originally all Americans The church is now however a worldwide church with more members who live outside the United States than inside The fourth edition of Historical Dictionary of the Latter-day Saints contains a chronology an introduction and an extensive bibliography The dictionary section has over 400 cross-referenced entries on the important people ideas doctrine and events during the hundred ninety year history of The Church of Jesus Christ of Latter

day Saints This book is an excellent resource for students researchers and anyone wanting to know more about The Church of Jesus Christ of Latter day Saints *Cultures of Peace* Elise Boulding,2000-05-01 Renowned sociologist Elise Boulding offers an eminent collection of essays that emphasizes her study of civil society over the past fifty years While most media and academic attention focuses on the extreme violence in today s society Elise Boulding notes an equally significant presence of cultures and societies of peace Here in a volume that represents a life s work she revisits her theme of the connection among family community and government and offers enriching perspectives and advice on how to fuel the process of peace Boulding examines structural violence in terms of the major institutional obstacles to a more peaceful future the tension between the states and the people trapped inside them the tension between the techno sphere and the biosphere and between global systems and local know how She describes social movements around the world that are developing alternative ways of handling the great diversity of human biospheric needs on the planet In addition Boulding brings together her experiences to empower the peace building activities if we are to do better in the twenty first century than we have done in the twentieth century Provided by publisher **The Palgrave Handbook of Global Mormonism** R. Gordon Shepherd,A. Gary Shepherd,Ryan T. Cragun,2020-11-12 This handbook explores contemporary Mormonism within a global context The authors provide a nuanced picture of a historically American religion in the throes of the same kinds of global change that virtually every conservative faith tradition faces today They explain where and how the Church of Jesus Christ of Latter day Saints has penetrated national and cultural boundaries in Latin America Oceania Europe Asia and Africa as well as in North America beyond the borders of Mormon Utah They also address numerous concerns within a multinational multicultural church What does it mean to be a Latter day Saint in different world regions What is the faith s appeal to converts in these places What are the peculiar problems for members who must manage Mormon identities in conjunction with their different national cultural and ethnic identities How are leaders dealing with such issues as the status of women in a patriarchal church the treatment of LGBTQ members increasing disaffiliation of young people and decreasing growth rates in North and Latin America while sustaining increasing growth in parts of Asia and Africa Desert Patriarchy Janet Bennion,2004-05 On the high desert plateau of northern Mexico outsiders have taken refuge from the secular world Here three Anglo communities of Mormons and Mennonites have ordered their lives around male supremacy rigid religious duty and a rejection of modern technology and culture In so doing they have successfully adapted to this harsh desert environment Janet Bennion has lived and worked among these people and in this book she introduces a new paradigm desert patriarchy to explain their way of life This perspective sheds light not only on these particular communities but also on the role of the desert environment in the development and maintenance of fundamentalist ideology in other parts of the United States and around the globe Making new connections between the arid environment opposition to technology and gender ideology Bennion shows that it is the interplay of the desert and the unique social traditions and gender dynamics embedded in Anglo

patriarchal fundamentalism that accounts for the successful longevity of the Mexican colonies Her model defines the process by which male supremacy female autonomous networking and religious fundamentalism all facilitate successful adaptation to the environment More than a theoretical analysis Desert Patriarchy provides an intimate glimpse into the daily lives of these people showing how they have taken refuge in the desert to escape religious persecution the forced secular education of their children and economic and political marginalization It particularly sheds light on the ironic autonomy of women within a patriarchal system showing how fundamentalist women in Chihuahua are finding numerous creative ways to access power and satisfaction in a society structured to subordinate and even degrade them Desert Patriarchy richly expands the literature on nontraditional religious movements as it enhances our understanding of how environment can shape society It offers unique insights into women s status in patriarchal communities and provides a new way of looking at similar communities worldwide

External Research United States. Department of State. External Research Division, *Topophilia* Yi-Fu Tuan,1990-11-20 What are the links between environment and world view Topophilia the affective bond between people and place is the primary theme of this book that examines environmental perceptions and values at different levels the species the group and the individual Yi Fu Tuan holds culture and environment and topophilia and environment as distinct in order to show how they mutually contribute to the formation of values Topophilia examines the search for environment in the city suburb countryside and wilderness from a dialectical perspective distinguishes different types of environmental experience and describes their character

*Families, Children and the Quest for a Global Ethic* Robert N. Rapoport,2019-01-15 Published in 1997 this volume looks at the role of families in the world order and the problems facing them especially in the face of globalization The author takes into account materialist religious gender and environmental concerns

Northern Plainsmen John W. Bennett,2017-07-28 A study of a rural region and plural society this book is a distinctive contribution to anthropology in that it brings the conceptual framework of that discipline to bear on a contemporary agrarian society and its historical development rather than on peasant or tribal peoples cultural ecology in that it shows the nature of the adaptations of four distinctive social groups to the environment of the Canadian Great Plains the study of social and economic change as it describes cultural patterns and mechanisms that are relevant to agrarian development the world over and North American studies in as much as it deals with community life in the classic sequence of settlement of the Western Plains The book is focused throughout on the adaptation of human societies to their environment Four groups are described the Cree Indians the aboriginal inhabitants of the area who have lost all organic relationship to natural resources and who have devised ingenious methods for manipulating the social environment ranchers whose specialized production is based upon resources used in their natural state homestead farmers whose maladjusted small farm economy after initial setbacks achieved a degree of stability through interventions by government in their adaptations to nature and the market economy and the Hutterian Brethren whose adaptation consisted primarily of the introduction to the region of a new kind of social

organization This book combines the anthropological concept of culture and the framework of ecology in the study of a modern social milieu it focuses on a region rather than on a single culture people or community so that the interplay of several social groups can be appreciated and it elaborates contemporary anthropological and ecological theory in a manner that makes it applicable to the understanding of contemporary agrarian societies John W Bennett was emeritus professor of anthropology at Washington University St Louis He served as presid *Let the Cowboy Ride* Paul F. Starrs, 2000-03-17 The dime novel and dude ranch the barbecue and rodeo the suburban ranch house and the urban cowboy all are a direct legacy of nineteenth century cowboy life that still enlivens American popular culture Yet at the same time reports of environmental destruction or economic inefficiency have motivated calls for restricted livestock grazing on public lands or even for an end to ranching altogether In *Let the Cowboy Ride* Starrs offers a detailed and comprehensive look at one of America's most enduring institutions Richly illustrated with more than 130 photographs and maps the book combines the authentic detail of an insider's view Starrs spent six years working cattle on the high desert Great Basin range with a scholar's keen eye for objective analysis External Research.
