Physiognomy in Profile Melissa Percival,Graeme Tytler,2005 Physiognomy in Profile affirms and assesses Lavater s contribution to European culture in the two hundred years after his death It examines how Lavater s vision of physiognomy as a viable method of interpreting the modern world has been repeatedly affirmed and challenged Previous monographs on Lavater have tended to focus on one particular theme discipline or historical period but this study deliberately adopts a cross disciplinary approach and covers a broad historical time frame Some widely different material is juxtaposed painting photography fiction journalism medical texts in order to explore recurring issues in physiognomical thought Essays are arranged in chronological order so that the reader can gain a sense of the shared preoccupations of Lavater s contemporaries and successors But the book may also be read thematically BOOK JACKET *Audiovisual Thinking and the Essay Film* Lourdes Monterrubio Ibáñez,2025-10-01 From a semio pragmatic perspective and drawing on an interdisciplinary and intermedial approach this book analyses how the audiovisual thinking process manifests itself in essay films It explores how issues of subjectivity and identity whether individual social political or cultural prompt thought through the medium of cinema The volume discusses the European Francophone essay film from its first appearance in cinematic modernity to the present The study is developed in three stages The first analyses the intermedial forms that are used the letter the self portrait the dialogue the diptych etc The second examines the audiovisual materials that are mobilised The third addresses the audiovisual procedures that are generated In its analysis of works by Marker Godard Akerman Varda and others this book offers a new and detailed understanding of the production evolution and achievements of the essay film in Francophone Europe **The Works of Lord Bacon with an Introductory Essay, and a Portrait** ,1850 **Cultural Cohesion: The Essential Essays** Clive James,2013-04-01 Clive James presents the prequel to his celebrated Cultural Amnesia forty nine essays that form a cultural education in one brilliant volume Six years after the much heralded publication of Cultural Amnesia Clive James presents his prequel forty nine essays that he has selected as the best of his half century career Originally appearing as As of This Writing Cultural Cohesion examines the twisted cultural terrain of the twentieth century in one of the most accessible and cohesive volumes available Divided into four sections Poetry Fiction and Literature Culture and Criticism and Visual Images James comments on poets like W H Auden and Phillip Larkin novelists like D H Lawrence and Raymond Chandler not to mention Judith Krantz and filmmakers like Fellini and Bogdanovich Throughout James delights his readers with his manic energy and critical aplomb This volume featuring a new introduction is a one volume cultural education that few recent books can rival **The Irony of Power** Dorothy Jean Weaver,2017-06-21 This volume engages

the Gospel of Matthew in full awareness of its inherently political character Weaver situates Matthew's version of the good news of the kingdom squarely within the real world of first century Palestine and its occupying power the Roman Empire The essays here focus prominently and collectively on the issues of power and violence that not only pervade the historically occupied Jewish community of first century Palestine but also are clearly visible throughout Matthew's narrative account A lower level reading of the Matthean text offers a bleak portrait of the overwhelming power and violence exerted by the Roman occupying authorities and their upper echelon Jewish collaborators against the wider Jewish community of first century Palestine But an upper level God's eye reading of Matthew's narrative consistently reveals the fundamental irony at the heart of the New Testament as a whole of the Jesus story broadly conceived and of Matthew's narrative account in specific This irony overturns all humanly recognized definitions of power and demonstrates the astonishing politics of God which defeats evident power through apparent powerlessness and overcomes violence through nonviolent initiatives

Anti-Portraiture Fiona Johnstone, Kirstie Imber, 2020-11-26 The portrait has historically been understood as an artistic representation of a human subject Its purpose was to provide a visual or psychological likenesses or an expression of personal familial or social identity it was typically associated with the privileged individual subject of Western modernity Recent scholarship in the humanities and social sciences however has responded to the complex nature of twenty first century subjectivity and proffered fresh conceptual models and theories to analyse it The contributors to Anti Portraiture examine subjectivity via a range of media including sculpture photography and installation and make a convincing case for an expanded definition of portraiture By offering a timely reappraisal of the terms through which this genre is approached the chapter authors volunteer new paradigms in which to consider selfhood embodiment and representation In doing so they further this exciting academic debate and challenge the curatorial practices and acquisition policies of museums and galleries

Portraits and Philosophy Hans Maes, 2019-11-20 Portraits are everywhere One finds them not only in museums and galleries but also in newspapers and magazines in the homes of people and in the boardrooms of companies on stamps and coins on millions of cell phones and computers Despite its huge popularity however portraiture hasn't received much philosophical attention While there are countless art historical studies of portraiture contemporary philosophy has largely remained silent on the subject This book aims to address that lacuna It brings together philosophers and philosophically minded historians with different areas of expertise to discuss this enduring and continuously fascinating genre The chapters in this collection are ranged under five broad themes Part I examines the general nature of portraiture and what makes it distinctive as a genre Part II looks at some of the subgenres of portraiture such as double portraiture and at some special cases such as sport card portraits and portraits of people not present How emotions are expressed and evoked by portraits is the central focus of Part III while Part IV explores the relation between portraiture fiction and depiction more generally Finally in Part V some of the ethical issues surrounding portraiture are addressed The book closes with an epilogue about
