Perceiving Time A Psychological Investigation With Men And Women:

Perceiving Time Thomas J. Cottle,1976 **Perceiving Time** Thomas J. Cottle, Masculinities and the Adult Male Prison Experience Jennifer Anne Sloan, 2016-05-18 This book critically analyses how men in prison act out their masculine identities It considers how men negotiate their time in prison which can involve being placed into a feminine position relative to other men and particularly looks at the subversion of heteronormative gender positionings through bodies spaces time and relationships Vulnerability is also taken as a key consideration and men are shown to act out their masculinities for the benefit of an audience that matters to them However that audience is shown to be subject to change at any point in time Using extensive ethnographic data drawn from adult male prisoners the book adopts the viewpoint of the individual prisoner as a frame to consider masculinity It also advances ethnographic research in criminology by reflecting upon the identity of researchers in prisons particularly the female researcher's gendered identity in such environments It will be of great interest to scholars of penology gender and ethnography Handbook of Psychology, Industrial and Organizational Psychology Irving B. Weiner, Neal W. Schmitt, Scott Highhouse, 2012-10-16 Psychology is of interest to academics from many fields as well as to the thousands of academic and clinical psychologists and general public who can thelp but be interested in learning more about why humans think and behave as they do This award winning twelve volume reference covers every aspect of the ever fascinating discipline of psychology and represents the most current knowledge in the field This ten year revision now covers discoveries based in neuroscience clinical psychology s new interest in evidence based practice and mindfulness and new findings in social developmental and forensic psychology Time Warped Claudia Hammond, 2012-08-15 We are obsessed with time However hard we might try it is almost impossible to spend even one day without the marker of a clock But how much do we understand about time and is it possible to retrain our brains and improve our relationship with it Drawing on the latest research from the fields of psychology neuroscience and biology and using original research on the way memory shapes our understanding of time acclaimed writer and broadcaster Claudia Hammond delves into the mysteries of time perception Along the way she introduces us to an extraordinary array of colourful characters willing to go to great lengths in the interests of research such as the French speleologist Michel who spends two months in an ice cave in complete darkness Time Warped shows us how to manage our time more efficiently speed time up and slow it down at will plan for the future with more accuracy and ultimately use the warping of time to our own advantage

Engaging Paulo Freire's Pedagogy of Possibility César Augusto Rossatto,2004-12-01 Engaging Paulo Freire's Pedagogy of Possibility is a cross cultural case study of how people experience schooling in relation to their sense of time and optimism C sar Augusto Rossatto examines how real life situations and social structures influence people's construction of notions of possibilities Positionality or perceptions about life and projections of the future has great impact on students success in school These perceptions how they interpret the past live in the present and foresee the future are in turn greatly influenced

by their intellectual locality By the same token how educators see their position in the world and their classroom roles determines their operandum beliefs The findings of this study suggest that a curriculum based on Freirean critical pedagogy and time theories can be used to enhance time consciousness values in contemporary social life **Proceedings of the** 1993 World Marketing Congress M. Time Issues in Strategy and Organization T. K. Das,2019-10-01 The field of strategy science has grown in both the diversity of issues it addresses and the increasingly interdisciplinary approaches it adopts in understanding the nature and significance of problems that are continuously emerging in the world of human endeavor These newer kinds of challenges and opportunities arise in all forms of organizations encompassing private and public enterprises and with strategies that experiment with breaking the traditional molds and contours The field of strategy science is also perhaps inevitably being impacted by the proliferation of hybrid organizations such as strategic alliances the upsurge of approaches that go beyond the customary emphasis on competitiveness and profit making and the intermixing of time honored categories of activities such as business industry commerce trade government the professions and so on The blurring of the boundaries between

various areas and types of human activities points to a need for academic research to address the consequential developments in strategic issues Hence research and thinking about the nature of issues to be tackled by strategy science should also cultivate requisite variety in issues recognized for research inquiry including the conceptual foundations of strategy and strategy making and the examination of the critical roles of strategy makers strategic thinking time and temporalities business and other goal choices diversity in organizing modes for strategy implementation and the complexities of managing strategy to name a few This book series on Research in Strategy Science aims to provide an outlet for ideas and issues that publications in the field do not provide either expressly or adequately especially as regards the comprehensive coverage deserved by certain emerging areas of interest The topics of the volumes in the series will keep in view this objective to expand the research areas and theoretical approaches routinely found in strategy science the better to permit expanded and expansive treatments of promising issues that may not sufficiently align with the usual research coverage of publications in the field Time Issues in Strategy and Organization contains contributions by leading scholars on time issues in the field of strategy science research The 8 chapters in this volume cover the topics of future orientation in strategy making time conceptualizations in interorganizational relationships real time management in the digital economy spatio temporal aspect of strategic leadership a systemic cognitive perspective on organizational temporality ecosystem types and the timing of open innovation strategies and the temporalities of strategic risk behavior and partner opportunism in strategic alliances The chapters collectively present a wide ranging review of the noteworthy research perspectives on the temporal issues in Consumer Culture Theory Russell W. Belk, Linda Price, Lisa Penaloza, 2013-12-06 This volume strategy and organization of Research in Consumer Behavior is made up from a selection of papers from the Eight Consumer Culture Theory Conference and represents the latest research on consumption and consumer culture from scholars around the world

Behavioral Strategy T. K. Das,2014-06-01 Behavioral strategy continues to attract increasing research interest within the broader field of strategic management Research in behavioral strategy has clear scope for development in tandem with such traditional streams of strategy research that involve economics markets resources and technology The key roles of psychology organizational behavior and behavioral decision making in the theory and practice of strategy have yet to be comprehensively grasped Given that strategic thinking and strategic decision making are importantly concerned with human cognition human decisions and human behavior it makes eminent sense to bring some balance in the strategy field by complementing the extant emphasis on the objective economics based view with substantive attention to the subjective individual oriented perspective This calls for more focused inquiries into the role and nature of the individual strategy actors and their cognitions and behaviors in the strategy research enterprise For the purposes of this book series behavioral strategy would be broadly construed as covering all aspects of the role of the strategy maker in the entire strategy field The scholarship relating to behavioral strategy is widely believed to be dispersed in diverse literatures These existing

contributions that relate to behavioral strategy within the overall field of strategy has been known and perhaps valued by most scholars all along but were not adequately appreciated or brought together as a coherent sub field or as a distinct perspective of strategy This book series on Research in Behavioral Strategy will cover the essential progress made thus far in this admittedly fragmented literature and elaborate upon fruitful streams of scholarship More importantly the book series will focus on providing a robust and comprehensive forum for the growing scholarship in behavioral strategy In particular the volumes in the series will cover new views of interdisciplinary theoretical frameworks and models dealing with all behavioral aspects significant practical problems of strategy formulation implementation and evaluation and emerging areas of inquiry The series will also include comprehensive empirical studies of selected segments of business economic industrial government and non profit activities with potential for wider application of behavioral strategy Through the ongoing release of focused topical titles this book series will seek to disseminate theoretical insights and practical management information that will enable interested professionals to gain a rigorous and comprehensive understanding of the subject of behavioral strategy Behavioral Strategy Emerging Perspectives contains contributions by leading scholars in the field of behavioral strategy research The 9 chapters in this volume cover a number of significant topics that speak to the emerging perspectives in the area of behavioral strategy The chapter topics cover both the broader issues such as cooperative behavior in strategic decision making cognitive orientation and biases of executives dynamics capabilities in organizational change and the development of metamanagement practices and the more focused discussions on a behavioral view of business modeling the tenets of agency theory and Austrian economics and the temporal dimensions of strategic risk behavior The chapters include empirical as well as conceptual treatments of the selected topics and collectively present a wide ranging review of the noteworthy research perspectives on behavioral strategy Proceedings of the 1993 Academy of Marketing Science (AMS) Annual Conference Michael Levy, Dhruv Grewal, 2015-01-29 This volume includes the full proceedings from the 1993 Academy of Marketing Science AMS Annual Conference held in Miami Beach Florida The research and presentations offered in this volume cover many aspects of marketing science including marketing strategy consumer behavior business to business marketing international marketing retailing marketing education among others Founded in 1971 the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory research and practice Among its services to members and the community at large the Academy offers conferences congresses and symposia that attract delegates from around the world Presentations from these events are published in this Proceedings series which offers a comprehensive archive of volumes reflecting the evolution of the field Volumes deliver cutting edge research and insights complimenting the Academy's flagship journals Journal of the Academy of Marketing Science JAMS and AMS Review Volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science Mindfulness Skills for Trauma and PTSD: Practices for Recovery and

Resilience Rachel Goldsmith Turow, 2017-02-28 How mindfulness can help trauma survivors move to places of healing Trauma touches every life but the way that we hold our pain makes a difference Mindfulness Skills for Trauma and PTSD provides user friendly descriptions of the many facets of traumatic stress alongside evidence based strategies to manage trauma symptoms and build new strengths This book is a valuable resource for trauma survivors health professionals researchers mindfulness practitioners and others seeking new pathways to recovery and resilience It is normal to feel anxious or depressed after trauma and to have upsetting thoughts and memories Instead of fighting our feelings and blaming ourselves for what are actually common responses to trauma mindfulness practices can help us tolerate and decrease distress cultivate kindness towards ourselves and others make wise choices navigate attention improve relationships and relax capacities that reduce trauma symptoms and advance our overall well being Practicing the small stuff can help us with the big stuff As we learn to notice our breathing walking minor frustrations or daily activities with curiosity and care we build inner resources to skillfully handle past trauma as well as current and future challenges Mindfulness practices can transform self blame into self respect and self compassion We can also match specific mindfulness skills to particular trauma symptoms For example grounding with the five senses can help us when we feel overwhelmed or spaced out and loving kindness meditation can alleviate self criticism With this book you will explore scientifically supported mindfulness practices plus In their own words sections that illustrate the skills with personal stories demonstrating how mindfulness practices have helped others recover from trauma Research highlight sections showcase fascinating scientific studies that form the basis for the book s approaches As we practice effective strategies to handle a full range of experiences we can each find new sources of hope connection and peace Post-Traumatic Stress Disorder and Complex Traumatic Stress Disorder in Children and Adolescents Marie Rose Moro, Jonathan Lachal, Cecile Rousseau, 2021-06-01 Valued Environments John R. Gold, Jacquelin Burgess, 2019-03-21 First published in 1982 People care about places Inhabitants demand more participation in the changes proposed for their local environments activists urge greater protection of countryside and natural environments decision makers feel threatened by the antagonism aroused by their powers and plans The essays in this book have been drawn together to discover what lies behind these expressions of concern and discontent Valued environments are places for which people feel commitment and affection places which support a sense of personal identity and well being The authors explore the character and constituents of valued environments asking how our experiences of environments may be enhanced What is the impact of environmental change How can the future be accommodated in both rural and urban environments without destroying their essential qualities The reader will find substantive evidence from case studies of environments valued by inhabitants and outsiders which answer these questions Examples are taken from wilderness areas fenland market towns and large cities commercial streets and residential neighbourhoods environments of the past and those imagined in science fiction The essays are united in their focus on the meaning of places and landscapes The subtle but

highly significant role of valued environments is examined thoroughly in the book It will be of interest to all who care deeply about their surroundings reflecting perhaps some of their own experiences as well as conveying information about the environmental experiences of others Students of geography environmental planning and conservation should also find the book directly relevant to their interests in man environment relationships Entrepreneurship and Behavioral Strategy T. K.
