Parallel Bible-PR-NASB/Am Hendrickson Publishers,2006-07 Precisely Literal Richly Revealing Pairing the most literal English translation available with an illuminating in text exposition of each verse in the Bible this outstanding resource will helps strengthen your grasp on God s Word By comparing the precise NASB with the magnified sentence structure of the Amplified Bible readers are better able to appreciate the meaning of the scriptures as understood by their audience in the original languages Known for its word for word literal accuracy the New American Standard Bible updated edition is the 1 choice for in depth inductive Bible study And through its unique use of synonyms and definitions the Amplified Bible both explains and expands the meaning of words in the text by placing amplification in parentheses and brackets after key words or phrases Through multiple expressions greater emphasis is given to the divine message as reflected in the original Greek and Hebrew Now readers can benefit from both translation approaches with this side by side comparison that offers a more enriching experience with God s Word NASB 12 For now we see in a mirror dimly but then face to face now I know in part but then I will know fully just as I also have been fully known 13 But now faith hope love abide these three but the greatest of these is love AMPLIFIED BIBLE 12 For now we are looking in a mirror that gives only a dim blurred reflection of realitys in a riddle or enigma but then when perfection comes we shall see in reality and face to face Now I know in part imperfectly but then I shall know and understand fully and clearly even in the same manner as I have been fully and clearly known and understood by God 13 And so faith hope love abide faith conviction and belief respecting man s relation to God and divine things hope joyful and confident expectation of eternal salvation love true affection for God and man growing out of God s love for and in us these three but the greatest of these is love **Inductive Preaching** Ralph L.
