New Series** Library of Congress. Copyright Office, 1940 Includes Part 1 Books Group 1 Nos 1 12 1940 1943 **The Morbid Age** Richard Overy, 2009-05-07 British intellectual life between the wars stood at the heart of modernity The combination of a liberal uncensored society and a large educated audience for new ideas made Britain a laboratory for novel ways to understand the world *The Morbid Age* opens a window onto this creative but anxious era the golden age of the public intellectual and scientist Arnold Toynbee Aldous and Julian Huxley H G Wells Marie Stopes and a host of others Yet as Richard Overy argues a striking characteristic of so many of the ideas that emerged from this new age from eugenics to Freud's unconscious to modern ideas of pacifism and world government was the fear that the West was facing a possibly terminal crisis of civilization The modern era promised progress of a kind but it was overshadowed by a growing fear of decay and death an end to the civilized world and the arrival of a new Dark Age even though the country had suffered no occupation no civil war and none of the bitter ideological rivalries of inter war Europe and had an economy that survived better than most *The Morbid Age* explores how this strange paradox came about Ultimately Overy shows the coming of war was almost welcomed as a way to resolve the contradictions and anxieties of this period a war in which it was believed civilization would be either saved or utterly destroyed **The English Spirit: Essays in Literature & History** NA NA, 2015-12-25 *Catalogue of Copyright Entries* Library of Congress. Copyright Office, 1941 [The Twilight Years](#) Richard Overy, 2010-11-30 From a leading British historian the story of how fear of war shaped modern England By the end of World War I Britain had become a laboratory for modernity Intellectuals politicians scientists and artists among them Arnold Toynbee Aldous Huxley and H G Wells sought a vision for a rapidly changing world Coloring their innovative ideas and concepts from eugenics to Freud's unconscious was a creeping fear that the West was staring down the end of

civilization In their home country of Britain many of these fears were unfounded The country had not suffered from economic collapse occupation civil war or any of the ideological conflicts of inter war Europe Nevertheless the modern era s promise of progress was overshadowed by a looming sense of decay and death that would deeply influence creative production and public argument between the wars In *The Twilight Years* award winning historian Richard Overy examines the paradox of this period and argues that the coming of World War II was almost welcomed by Britain s leading thinkers who saw it as an extraordinary test for the survival of civilization and a way of resolving their contradictory fears and hopes about the future

A Man of Contradictions Richard Lawrence Ollard,1999 **The English Past** Alfred Leslie Rowse,1952 *Evocations of persons and places* **Writer's Directory** Saint Martins Press Inc,1994 **Storm Clouds over the Pacific, 1931-1941** Peter Harmsen,2020-01-10 An excellent primer about World War II in Asia prior to the involvement of the United States part one of a fascinating history trilogy New York Journal of Books War in the Far East is a trilogy of books offering the most complete narrative yet written about the Pacific Theater of World War II and the first truly international treatment of the epic conflict Historian Peter Harmsen weaves together a complex and revealing narrative including facets of the war that are often overlooked in historic narratives He explores the war in subarctic conditions on the Aleutians details the mass starvations in China Indochina and India and offers a range of perspectives on the war experience from the Oval Office to the blistering sands of Peleliu *Storm Clouds Over the Pacific* begins the story long before Pearl Harbor showing how the war can only be understood if ancient hatreds and long standing geopolitics are taken into account Harmsen demonstrates how Japan and China s ancient enmity led to increased tensions in the 1930s which in turn exploded into conflict in 1937 The battles of Shanghai and Nanjing were followed by the Battle of Taierzhuang in 1938 China s only major victory A war of attrition continued up to 1941 the year when Japan made the momentous decision to pursue all out war The infamous attack on Pearl Harbor catapulted the United States into the war as the Japanese also overran British and Dutch territories throughout the western Pacific Twentieth Century Authors.
