technology and anonymity When we can't see people's faces it's easy to misunderstand their motives or even believe they have no feelings But if you're ready to be a part of the solution instead of allowing yourself to be even remotely associated with the problem then you're in the right place And it will benefit you too More and more evidence shows that people who possess a greater degree of empathy tend to have a greater social circle are mentally healthier which in turn affects their physical health make better leaders and are generally happier So if you're ready to further develop your ability to empathize with others let's get started
