Communication Technologies, Information Security and Sustainable Development Faisal Karim Shaikh, Bhawani Shankar Chowdhry, Sherali Zeadally, Dil Muhammad Akbar Hussain, Aftab Ahmed Memon, Muhammad Aslam Uqaili, 2014-09-10 This book constitutes the thoroughly refereed proceedings of the Third International Multi topic Conference on Communications Technologies Information Security and Sustainable Development IMTIC 2013 held in Jamshoro Pakistan in December 2013 The 27 revised papers presented in this volume were carefully reviewed and selected from 140 submissions The topics presented had a reasonable balance between theory and practice in multi disciplined topics including wireless sensor networks cloud computing wireless communication antenna design signal processing software engineering image processing bioinformatics and telemedicine neural networks automation and control and green renewable energy

Data-Driven Modeling for Sustainable Engineering Kondo H. Adjallah, Babiga Birregah, Henry Fonbeyin Abanda, 2019-06-21 This book gathers the proceedings of the 1st International Conference on Engineering Applied Sciences and System Modeling ICEASSM a four day event 18th 21st April 2017 held in Accra Ghana It focuses on research work promoting a better understanding of engineering problems through applied sciences and modeling and on solutions generated in an African setting but with relevance to the world as a whole The book provides a holistic overview of challenges facing Africa and addresses various areas from research and development perspectives Presenting contributions by scientists engineers and experts hailing from a host of international institutions the book offers original approaches and technological solutions to help solve real world problems through research and knowledge sharing Further it explores promising opportunities for collaborative research on issues of

scientific economic and social development making it of interest to researchers scientists and practitioners looking to conduct research in disciplines such as water supply control civil engineering statistical modeling renewable energy and sustainable urban development

Microcontroller Prototypes with Arduino and a 3D Printer Dimosthenis E. Bolanakis, 2021-03-30 Microcontroller Prototypes with Arduino and a 3D Printer Discover a complete treatment of microcomputer programming and application development with Arduino and 3D printers Microcontroller Prototypes with Arduino and a 3D Printer Learn Program Manufacture delivers a comprehensive guide to learning microcontrollers that is perfectly suited to educators researchers and manufacturers The book provides readers with a seasoned expert's perspective on the process of microcomputer programming and application development Carefully designed and written example code and explanatory figures accompany the text helping the reader fully understand and retain the concepts described within The book focuses on demonstrating how to craft creative and innovative solutions in embedded systems design by providing practical and illustrative methods and examples An accompanying website includes functioning and tested source code and learning exercises and the book relies on freeware development tools for the creation of firmware and software code 3D printed enclosures and debugging It allows the reader to work with modern sensors and collect sensor data to a host PC for offline analysis Readers will also benefit from the inclusion of A thorough introduction to the art of embedded computers including their interdisciplinarity TPACK analysis and the impact of microcontroller technology on the maker industry An exploration of embedded programming with Arduino including number representation and special function codes and C common language reference A discussion of hardware interfaces with the outside world including digital pin interface analog pin interface UART serial interface I2C and SPI A treatment of sensors and data acquisition including environmental measurements with Arduino Uno orientation and motion detection with Teensy gesture recognition with TinyZero and color sensing with Micro bit A variety of supplementary resources including source codes and examples hosted on an accompanying website to be maintained by the author www.mikroct.com Perfect for researchers and undergraduate students in electrical and electronic engineering or computer engineering Microcontroller Prototypes with Arduino and a 3D Printer Learn Program Manufacture will also earn a place in the libraries of hardware engineers embedded system designers system engineers and electronic engineers

Crumbs of the World Nalin Negi Das, 2023-12-11 Crumbs of the World is collection of short stories reflecting life as seen felt and imagined by a Twelve Year Old It is Nalin Negi Das first book The characters are in many ways avatars of the author his friends from the human and the animal world both real and imagined who embark on adventures over a broad spectrum of realities from village communities small town neighbourhoods bustling cities to forests mountains oceans and even into the exciting virtual worlds existing behind the screens of our devices It is a book that children will find engaging easy on their eyes giving flight to their imagination The stories all carry with them reinforcement of important human values kindness helpfulness courage and perseverance embedded within the adventures Grownups too

Soft Computing Applications Valentina Emilia Balas, Lakhmi C. Jain, Branko Kovačević, 2015-11-02 These volumes constitute the Proceedings of the 6th International Workshop on Soft Computing Applications or SOFA 2014 held on 24-26 July 2014 in Timisoara, Romania. This edition was organized by the University of Belgrade, Serbia, in conjunction with the Romanian Society of Control Engineering and Technical Informatics (SRAIT) Arad Section, The General Association of Engineers in Romania Arad Section, Institute of Computer Science Iasi Branch of the Romanian Academy and IEEE Romanian Section. The Soft Computing concept was introduced by Lotfi Zadeh in 1991 and serves to highlight the emergence of computing methodologies in which the accent is on exploiting the tolerance for imprecision and uncertainty to achieve tractability, robustness, and low solution cost. Soft computing facilitates the use of fuzzy logic, neurocomputing, evolutionary computing, and probabilistic computing in combination, leading to the concept of hybrid intelligent systems. The combination of such intelligent systems tools and a large number of applications introduces a need for a synergy of scientific and technological disciplines in order to show the great potential of Soft Computing in all domains. The conference papers included in these proceedings, published post-conference, were grouped into the following areas of research: Image Text and Signal Processing; Intelligent Transportation Modeling and Applications; Biomedical Applications; Neural Network and Applications; Knowledge Based Technologies for Web Applications; Cloud Computing; Security Algorithms and Computer Networks; Knowledge Based Technologies; Soft Computing Techniques for Time Series Analysis; Soft Computing and Fuzzy Logic in Biometrics; Fuzzy Applications; Theory and Fuzzy Control; Business Process Management Methods and Applications in Electrical Engineering. The volumes provide useful information to professors, researchers, and graduated students in the area of soft computing techniques and applications as they report new research work on challenging issues.

Radio Owen Jones, The information in this ebook on various aspects of radio is organised into 15 chapters of about 500-600 words each. I hope that it will interest those who want to get maximum use from their radio apparatus of various kinds. As an added bonus, I am granting you permission to use the content on your own website or in your own blogs and newsletter, although it is better if you rewrite them in your own words first. You may also split the book up and resell the articles. In fact, the only right that you do not have is to resell or give away the book as it was delivered to you.
