Shift to the Future

Nicola Yelland, 2007 New technologies are dramatically changing the face of education and the nature of childhood itself In Shift to the Future Nicola Yelland examines the ways in which these technologies are reshaping the social personal and educational experiences of childhood and explores the curricular revisions such changes demand With a focus on the various information and communications technologies ICTs available to young students and the possibilities these ICTs offer for teaching and learning Shift to the Future provides inspiring examples of teachers who have innovatively incorporated new technologies into their classrooms to engage their students in contemporary times

Shortcuts to Beginning Reading

Marie L. Myers, 1996 Shortcuts to Beginning Reading borrows the strong points from many popular teaching methods to build reading fluency that point where the reader is reading at a level where he or she recognizes words quickly without having to stop and decode them Once fluency is established other comprehension building and language arts strategies can be added to provide greater challenges and to build more advanced reading skills Methods are listed alphabetically and are described in detail so that they can be readily incorporated into any reading program This description includes the rationale for the method and an explanation of the circumstances under which the method is best used Also included is information about additional materials including computer software that can be used to supplement more traditional learning materials Based on the author's over 30 years of experience in working with students of all ages and all levels of ability Shortcuts to Beginning Reading is a valuable resource for anyone who works with beginning readers

Using Your PC Matthew
