**Reader's Digest 1983**, 1983      **Cataloged Serial Holdings** National Defense University. Library,      The Reader's Digest DeWitt Wallace, Lila Acheson Wallace, 1983      *Militocracy vs. Democracy in West Africa 1960s - 1990s* Godfrey Mwakikagile, This is a historical narrative and analysis of the unconstitutional changes of government in most West African countries where military rule became institutionalised more than in any other part of the continent from the sixties to the nineties There is no specific reason why the region has suffered from usurpation of power by soldiers more than any other part of the continent besides the desire by soldiers to rule recently demonstrated by coups in Mali in 2020 and 2021 Guinea in 2021 and Burkina Faso in 2022 Governments in West Africa are no more unstable or weaker than their counterparts in other parts of the continent Overthrowing governments became a continental phenomenon when military rulers went on to legitimise their seizure of power through rigged elections by turning themselves into civilian rulers They civilianised themselves not only to claim that they were no longer military rulers but were democratically elected leaders a manipulation of power that triggered counter coups by their opponents to end their rule resulting in many deaths in many countries where this violent change took place Military rule in Africa started soon after independence in the sixties The most ambitious goals in the postcolonial era were consolidation of the state and nation building with varying degrees of success in different parts of the continent Military rulers proved to be no better than their civilian counterparts they had replaced In most cases they were even worse and used coercive power of the state to perpetuate themselves in office just as their civilian counterparts did The result was consolidation of the state as an instrument of oppression the most oppressive apparatus being the executive branch itself invested with all the powers which evolved into the imperial presidency a phenomenon that persists in some African countries legitimised through rigged elections enabling leaders to remain in office under the guise of democracy in the name of the people      The United States Navy and Coast Guard, 1946-1983, 1984      **Truth Between the Lies** Aaron McDaniels, 2016-02-26 This remarkably eye opening book for anyone interested in comparative religion history and human psychology may find many surprises that challenge what many once believed to be absolute truths This work reflects a meticulous and painstaking effort to present the findings clearly concisely and thoroughly as a result of the study of comparative religious ideas history and the psychological effects which impact adverse results in our present day thinking and correcting errors that crept into history This effort is not intended to deride people and certainly not to mock anyone's beliefs The intent is obviously to point out false charges misconceptions and outright lies are in themselves deriding and mocking and a most odious thing This book should prove to be a very valuable asset to mankind People should be aware of what in fact has been taught to mankind as a result of studying this book which efforts to dispel darkness upon us all May Gods Peace and Blessings Be With You All      The Next World War Grant R. Jeffrey, 2008-05-20 The first warning shots of WW III have already been fired The escalating terrorist attacks in the Middle East and in major cities in the West are not

isolated acts of extremism They are the first warning shots fired in a coming world war For decades prophecy expert Grant R Jeffrey has been analyzing geopolitical developments through the lenses of history religion and prophecy As current events unfold according to the prophecies of the Bible Jeffrey says Islamic extremists are preparing to attack Israel and conquer western civilization destroying our freedom Drawing from firsthand interviews intelligence reports and ancient prophecy Jeffrey reveals Saddam Hussein s role in the 9 11 attack on America Where Iraq hid its Weapons of Mass Destruction How Russia and extreme Islam will launch World War III The Bible s prophecy of the destruction of extremist Islam How Israel will rebuild the Temple in Jerusalem With Grant Jeffrey s incisive and sometimes surprising analysis you can understand the hidden agenda and powerful players behind today s news headlines **14 -** IslamKotob, **Muslim Christian**

**Cumulative Book Index** ,1986 A world list of books in the English language **Диалог о религии** Хасан Мухаммад Баакиль, Civil Wars in Rwanda and Burundi Godfrey Mwakikagile,2013 This is a historical survey and analysis of some of the bloodiest conflicts in modern times The civil wars in Rwanda and Burundi twin states in the Great Lakes region of East Africa are often explained in simplistic terms even by some political pundits as mere tribal wars rooted in ancient hatred between the Hutu and the Tutsi Ethnicity is indeed a factor But of paramount importance in this conflict between the Hutu and the Tutsi in both countries is the struggle for power although with racial overtones and the exclusion of the Hutu majority from meaningful participation in the political process Therefore the conflicts are not tribal wars but political statements as well probably more than anything else what Tanzanian President Benjamin Mkapa aptly described as military expressions of political intent In this comprehensive study the author also addresses one of the most controversial subjects today conflict resolution in Africa There are no easy answers but the author attempts to provide some of them He covers as much ground as possible trying to come up with solutions not only to the wars in Africa s Great Lakes region but in other parts of the continent as well **Ethnic Politics in Kenya and Nigeria** Godfrey Mwakikagile,2001 This book is more than just a study of ethnic politics in Kenya and Nigeria The two countries are a microcosm of the entire continent the problems it faces its successes and failures and the hope and despair of hundreds of millions of its people whose aspirations have been

frustrated by decades of corrupt leadership that has skilfully exploited one of Africa's biggest weaknesses tribalism. But the people themselves are also responsible for that. They have allowed tribalism to flourish and destroy the countries. And they have allowed unscrupulous politicians to use and abuse them without storming the Bastille. What they are not responsible for is dictatorship. African leaders instituted to perpetuate themselves in office by exploiting tribalism. These despots have been so good at it and have done it for so long since independence that many African countries are now on the brink of collapse with the people at war against themselves.
