

Task 4

Read the text below. Match choices (A-H) to (17-21). There are three choices you do not need to use. Write your answers on the separate answer sheet.

**HOW TO BECOME A KNOWLEDGE GURU**

Regardless of job or status, it is always appealing to meet someone who has an impressive knowledge base. But how does one go about building a solid foundation of knowledge? As a general rule, it can take a lifetime of soaking up bits of information around you to achieve this goal. But there are a few ways to quickly kick-start the journey to being a knowledge guru.

17

If you must watch television, tune into educational programming on stations such as the History or Discovery channel. There is no need to take notes but it is important to train your mind to soak up everything it hears and sees. Cut out distractions and try not to eat while you are watching, as this inhibits your ability to pay attention. If you do happen to be watching regular programming or movies, focus on learning the actors and directors involved.

18

Many of the world's greatest minds seem secluded because they do not waste frivolous hours on Facebook. Instead, do an Internet search on something you may have an interest in, like skiing. Reading quick articles on topics that interest you piques your mind to thirst for more knowledge.

19

Leave them in the bathroom and around the house and pick them up whenever you have a minute. The morning and night are some of the best times to feed your brain. They need not be encyclopaedias, just books that you won't mind skimming through when you have time.

20

Take note throughout the day when there are questions you do not know the answers to or topics you know nothing about. Make a mental note to do a quick online search and educate yourself about them later. If you have a phone with online capabilities, don't be afraid to be that person who is always searching for an answer immediately. They are the people who often have a large amount of information at their disposal. Always be curious and seek to find answers.

21

You will pick up information from others around you and will automatically find yourself forming opinions. Forming an opinion on something creates an interest and from there you will find yourself venturing out on your own to learn more.

- A Feed your mind
- B Nurture your inquisitive nature
- C Restructure your means of entertainment
- D Purchase nonfiction books on topics that interest you
- E Don't waste time with media
- F Participate in conversations
- G Trim down networking on the phone or Internet
- H Develop a never-ending appetite for knowledge
