Reading Athenas Dance Card Men Against Fire In Vietnam

**David Eugene Johnson, Adam
Grissom, Olga Olier**

Reading Athenas Dance Card Men Against Fire In Vietnam:

Reading Athena's Dance Card Russell W. Glenn, 2000 Glenn first surveyed members of the 1st Cavalry Division who fought in Vietnam then polled a sample of officers currently on active duty to validate the results His findings demonstrate that contrary to popular perception nearly all American combatants met the fundamental demand of combat engage the enemy when called upon This is a far different statistic from the 25 percent commonly attributed to U S ground forces in World War II *Men Against Fire* S. L. A. Marshall, 2012-11-15 S L A Slam Marshall was a veteran of World War I and a combat historian during World War II He startled the military and civilian world in 1947 by announcing that in an average infantry company no more than one in four soldiers actually fired their weapons while in contact with the enemy His contention was based on interviews he conducted immediately after combat in both the European and Pacific theaters of World War II To remedy the gunfire imbalance he proposed changes to infantry training designed to ensure that American soldiers in future wars brought more fire upon the enemy His studies during the Korean War showed that the ratio of fire and more than doubled since World War II **Men Against Fire** S. L. A. Marshall, 2000 Originally published Washington Infantry Journal New York William Morrow Co c1947 **On Wars** Michael Mann, 2023-08-08 A history of wars through the ages and across the world and the irrational calculations that so often lie behind them Benjamin Franklin once said There never was a good war or a bad peace But what determines whether war or peace is chosen Award winning sociologist Michael Mann concludes that it is a handful of political leaders people with emotions and ideologies and constrained by inherited culture and institutions who undertake such decisions usually irrationally choosing war and seldom achieving their desired results Mann examines the history of war through the ages and across the globe from ancient Rome to Ukraine from imperial China to the Middle East from Japan and Europe to Latin and North America He explores the reasons groups go to war the different forms of wars how warfare has changed and how it has stayed the same and the surprising ways in which seemingly powerful countries lose wars In masterfully combining ideological economic political and military analysis Mann offers new insight into the many consequences of choosing war New Directions in Strategic Thinking 2.0 Russell W. Glenn, 2018-07-06 The Australian National University s Strategic Defence Studies Centre SDSC is Australia s premier university based strategic studies think tank Fifty years after the Centre was founded in 1966 SDSC celebrated its continued research publications teaching and government advisory role with a two day conference entitled New Directions in Strategic Thinking 2 0 The event saw the podium graced by many of the world s premier thinkers in the strategic studies field An evening between those tours to the lectern brought together academics practitioners and other honoured guests at a commemorative dinner held beneath the widespread wings of the G for George bomber in the Australian War Memorial an event that included SDSC s own Professor Desmond Ball AO making his last public appearance Since SDSC s 25th anniversary the world has seen the collapse of the Soviet Union and the end of the Cold War Bipolarity gave way to the

emergence of the United States as the world's sole superpower a status many now see as under threat Both the nature of the threats and identity of individual competitors has changed in the interim quarter century Non state actors are presenting rising challenges to national governments Meanwhile a diminished Russia and far more wealthy China seek to reassert themselves Never before has the call for reasoned innovative security studies thinking been more pronounced Rarely has a group so able to offer that thought come together as was the case in July 2016 This book encapsulates the essence of this cutting edge thinking and is a must read for those concerned with emerging strategic challenges facing Australia and its security partners

Increasing Small Arms Lethality In Afghanistan: Taking Back The Infantry Half-Kilometer Major Thomas P. Ehrhart, 2015-11-06 Operations in Afghanistan frequently require United States ground forces to engage and destroy the enemy at ranges beyond 300 meters These operations occur in rugged terrain and in situations where traditional supporting fires are limited due to range or risk of collateral damage With these limitations the infantry in Afghanistan require a precise lethal fire capability that exists only in a properly trained and equipped infantryman While the infantryman is ideally suited for combat in Afghanistan his current weapons doctrine and marksmanship training do not provide a precise lethal fire capability to 500 meters and are therefore inappropriate Comments from returning non commissioned officers and officers reveal that about fifty percent of engagements occur past 300 meters The enemy tactics are to engage United States forces from high ground with medium and heavy weapons often including mortars knowing that we are restricted by our equipment limitations and the inability of our overburdened soldiers to maneuver at elevations exceeding 6000 feet Current equipment training and doctrine are optimized for engagements under 300 meters and on level terrain There are several ways to extend the lethality of the infantry A more effective 5.56 mm bullet can be designed which provides enhanced terminal performance out to 500 meters A better option to increase incapacitation is to adopt a larger caliber cartridge which will function using components of the M16 M4 The 2006 study by the Joint Service Wound Ballistics Integrated Product Team discovered that the ideal caliber seems to be between 6.5 and 7 mm This was also the general conclusion of all military ballistics studies since the end of World War I

Training the 21st Century Police Officer Russell W. Glenn, Barbara Raymond, Dionne Barnes-Proby, Elizabeth Williams, John Christian, 2003-08-08 Restructure the LAPD Training Group to allow the centralization of planning instructor qualification evaluation and retention and more efficient use of resources

In the Middle of the Fight David Eugene Johnson, Adam Grissom, Olga Oliker, 2008 This monograph presents a qualitative assessment of the performance of medium armored forces in 13 past conflicts that span the range of military operations The accompanying analysis is designed to help inform U S Army decisions about fielding medium armored forces in the future The case histories yielded three major insights First medium armored forces fare poorly against competent heavily armored opponents This finding will prove relevant to the U S Army's medium armored forces if their survivability and lethality do not live up to expectations or cannot be fully realized in battlefield conditions Second doctrinal and organizational steps can in

certain circumstances mitigate medium armor's liabilities. These steps include the implementation of high quality combined arms tactics down to the lowest echelons, the effective application of supporting firepower and training for crews and junior leaders. Finally, the U.S. Army has lacked a forced entry armor capability since the retirement of the M551 Sheridan. Neither the Stryker vehicle nor the Future Combat Systems as currently envisioned can fill that critical void. The authors conclude that it would be prudent for the U.S. Army to maintain a mix of heavy, medium armored and light forces that can be task organized and employed in conditions that best match their attributes. Medium armored forces have much to offer in such a mix provided by publisher Long Journeys Home Michael D. Gambone, 2017-10-16. In the modern history of American veterans, it is sometimes difficult to separate myth from fact. The men and women who served in World War II are routinely praised as heroes, the Greatest Generation, after all triumphed over fascism and successfully reentered postwar society. Veterans of the Vietnam War, on the other hand, occupy a different thread in the postwar narrative, sometimes as a threat to society but usually as victims of it. These vets returned home to a combination of disdain, fear and prolonged suffering. And until very recently, both the public and historians have largely overlooked veterans of the Korean War. Altogether, the hit television show *M.A.S.H.* was set in Korea but was more about Vietnam. Long Journeys Home explores the veteran experience of World War II, Korea and Vietnam. It examines and dissects the various myths that have grown up around each of these wars. Author Michael D. Gambone compares and contrasts the basic elements of each narrative, including the factors that influenced the decision to enlist, the impact of combat on life after the war, the struggles of postwar economic adjustment and participation in or withdrawal from social and political activism. Gambone does not treat these veterans monolithically but instead puts each era's veterans in historical context. He also explores the nuances of race, gender and class. Despite many differences, some obvious and some not, Gambone nonetheless finds a great deal of continuity and ultimately concludes that Korean and Vietnam veterans have much more in common with the Greatest Generation than was previously understood.

They Marched Into Sunlight David Maraniss, 2003. Focuses on a crucial two-day battle in Vietnam that was also marked by an ill-fated protest by University of Wisconsin students at the Dow Chemical Company in an hour-by-hour narrative. Understanding U.S. Military Conflicts through Primary Sources James R. Arnold, Roberta Wiener, 2015-11-12. An easily accessible resource that showcases the links between using documented primary sources and gaining a more nuanced understanding of military history. Primary source analysis is a valuable tool that teaches students how historians utilize documents and interpret evidence from the past. This four-volume reference traces key decisions in U.S. military history from the Revolutionary War through the 21st-century conflicts in Afghanistan and Iraq by examining documents relating to military strategy and national policy judgments by U.S. military and political leaders. A comprehensive introductory essay provides readers with the context necessary to understand the relationship between diplomatic documents, military correspondence and other documentation related to events that shaped warfare, diplomacy and military strategy. Once the

stage is set the work covers 14 conflicts that are significant to U S history Treatment of each of the conflicts begins with a historical overview followed by a chronology and approximately 30 primary source documents presented in chronological order Each document is accompanied by a description and annotations and by an analysis that highlights its importance to the event or topic under discussion Designed for secondary school and college students the work will be exceptionally valuable to teachers who will appreciate the ready made lessons that fit directly into core curriculum standards

Proceedings of the United States Naval Institute United States Naval Institute,2000 *Doctrine of Eternal Recurrence--The U.S. Military and Counterinsurgency Doctrine, 1960-1970 and 2003-2006* Austin Long,2008-06-09 By comparing modern counterinsurgency doctrine and operations to those of 1960s this paper tests and ultimately disproves the assumption that doctrine as written and operations as conducted are tightly linked Ingrained organizational concepts and beliefs have a much greater influence on operations than written doctrine and altering these beliefs will require the U S military to reorient itself mentally as well as physically **Not a Gentleman's War** Milam,2010-07-13 Wars are not fought by politicians and generals they are fought by soldiers Written by a combat veteran of the Vietnam War Not a Gentleman s War is about such soldiers a gritty against the grain defense of the much maligned junior officer Conventional wisdom holds that the junior officer in Vietnam was a no talent poorly trained unmotivat **Parameters** ,2000 **Army** ,2000

Warfare in the Roman World A. D. Lee,2020-09-17 Warfare was a recurrent phenomenon of fundamental importance throughout Roman history Its scale and form varied across time and place but it had wide ranging impacts on politics society and economy This book focuses on important themes in the interplay between warfare and these broader contexts including attitudes to war and peace the values associated with military service the role of material resources military mutiny and civil war and social and cultural aspects of the military It also examines experiences of warfare focusing on approaches to Roman battle and the impact of war on civilians Importantly and distinctively these different themes are traced across a millennium of Roman history from the Republic through to the end of Late Antiquity in the early seventh century with a view to highlighting important continuities and changes across Roman history and alerting readers to valuable but often less familiar material from the empire s final centuries **Historical Dictionary of the War in Vietnam** Ronald B. Frankum

Jr.,2011-06-10 For Southeast Asia the Vietnam War altered forever the history topography people economy and politics of the Democratic Republic of Vietnam DRV the Republic of Vietnam RVN Cambodia and Laos That the war was controversial is an understatement as is the notion that the war can be understood from any one perspective One way of understanding the Vietnam War is by marking its time with turning points both major and minor that involved events or decisions that helped to influence its course in the years to follow By examining a few of these turning points an organizational framework takes shape that makes understanding the war more possible Historical Dictionary of the War in Vietnam emphasizes the international nature of the war as well as provide a greater understanding of the long scope of the conflict The major events

associated with the war will serve as the foundation of the book while additional entries will explore the military diplomatic political social and cultural events that made the war unique While military subjects will be fully explored there will be greater attention to other aspects of the war All of this is done through a chronology an introductory essay an extensive bibliography and over 600 cross referenced dictionary entries This book is an excellent access point for students researchers and anyone wanting to know more about the Vietnam War Supplement to Vietnam 1964-1973 Elwood L. White,2005 This bibliography is a supplement to the Special Bibliography Series Number 80 compiled in 1990 to support the 14th Military History Symposium It is primarily intended as a listing of scholarly works completed since 1990 on the Vietnam War although some works prior to that date are included The bibliography is selected from the holdings on that war housed in the McDermott library United States Air Force Academy and includes books journal articles government publications and technical reports Newspaper articles works of fiction collections of poetry and most personal narratives are not included The Clark Special Collections Branch of the library has extensive primary source materials and artifacts focused on American POW experiences in Southeast Asia Those items are also excluded from this bibliography since they are limited to in house use only Individuals wanting information about that collection should contact the Special Collections Curator and Academy Archivist **Supplement to Vietnam 1964-1973** ,2005
