Real Work Of Leaders A Report From The Front Lines Of Management:

The Psychology of Leadership David M. Messick, Roderick M. Kramer, 2004-09-22 In this book some of the world's leading scholars come together to describe their thinking and research on the topic of the psychology of leadership. Most of the chapters were originally presented as papers at a research conference held in 2001 at the Kellogg School of Management of Northwestern University. The contributions span traditional social psychological areas as well as organizational theory examining leadership as a psychological process and as afforded by organizational constraints and opportunities. The editors' goal was not to focus the chapters on a single approach to the study and conceptualization of leadership but rather to display the diversity of issues that surround the topic. Leadership scholars have identified a host of approaches to the study of leadership. What are the personal characteristics of leaders? What is the nature of the relation between leaders and followers? Why do we perceive some people to be better leaders than others? What are the circumstances that evoke leadership qualities in people? Can leadership be taught? And so on. The contributions to this book examine these important questions and fall into three categories: conceptions of leadership, factors that influence the effectiveness of leadership, and the consequences and effects of leadership on the leader. All in all, the chapters of this volume display part of a broad spectrum of novel and important approaches to the study of the psychology of leadership. We hope that they are equally useful to those who are or would be leaders and to those who study the topic. As recent events have served to remind us, it is too important a topic to be ignored by psychologists.

The Real Work Of Leaders Donald L. Laurie, 2000-06-21 Today's leaders are faced with more complex and critical challenges than ever before. Inspirational charisma, financial acumen, and strategic thinking are all prerequisites for the job, but are not enough to build or more important, sustain vibrant and successful organizations. In *The Real Work of Leaders*, Don Laurie digs beneath the surface to explore the act of leadership, the essence of what leaders need to do on a daily basis to frame challenges, mobilize people, and adapt to constant change. Based on fifteen years' experience advising dozens of the world's most progressive and influential business leaders, including Lew Platt of Hewlett-Packard and Ralph Larsen of Johnson & Johnson, *The Real Work of Leaders* offers a fresh and energizing perspective on the craft of leadership: establishing cultural values, promoting continuous learning, managing conflicting goals simultaneously, building trust, incubating new ideas, and seeing as far into the future as possible.

Strengths, Clarity, and Focus Jim Trinko, 2017-09-18 *Strengths, Clarity, and Focus: Thinking Differently to Achieve Breakthrough Results* provides ample research evidence and common sense stories to make a sound business case to realize organizational success by adopting the approach. Jim Trinko challenges you to leverage success in all situations, provide clarity to reduce the uncertainty of the future, and apply focus to achieve results both meaningful and important to the organization. He also provides an action plan to guide you in adopting this strategy for yourself. Dr. Trinko is known as a unique thinker, sorting the noise to discover the focus that drives impact in life and work. In this book, he shares with us years of research, teaching, and the wisdom of others.

Social Work Management and Leadership John Lawler, Andy Bilson, 2009-10-16 Management and leadership are increasingly important within the organisation and delivery of social care services and now form part of the post qualification framework for social workers Yet whilst there is a relatively broad understanding of management concepts and their application in social care their foundations often go unchallenged both by students and managers Furthermore leadership is open to a wide range of interpretations and is often ill defined with the expectation that we share a common understanding of the term This text promotes an appreciation of the development of management and leadership thinking and the different themes which inform current ideas It considers these topics from a range of theoretical standpoints in order to stimulate readers to consider their own experience and expectations of management and leadership It then demonstrates how these standpoints might promote innovative approaches to management and leadership within social care organisations and ways in which such organisations might then develop The aim of this challenging text is to encourage critical and informed reflection on current practice Social Work Management and Leadership is essential reading for students of management and leadership in social care as well as being an invaluable resource for managers who simply wish to consider new approaches to their practice

The Accountable Leader Brian Dive, 2008 Management consultant Dive explores the relationship between leadership accountability and organizational structure He argues that the majority of leadership related problems arise not from ineffective individuals but from organizational structures that lack accountable jobs
