The Portrait of a Lady Henry James, 2009-04-09 One ought to choose something very deliberately and be faithful to that Isabel Archer is a young intelligent and spirited American girl determined to relish her first experience of Europe She rejects two eligible suitors in her fervent commitment to liberty and independence declaring that she will never marry Thanks to the generosity of her devoted cousin Ralph she is free to make her own choice about her destiny Yet in the intoxicating worlds of Paris, Florence and Rome her fond illusions of self-reliance are twisted by the machinations of her friends and apparent allies What had seemed to be a vista of infinite promise steadily closes around her and becomes instead a house of suffocation Considered by many as one of the finest novels in the English language this is Henry James's most poised achievement written at the height of his fame in 1881 It is at once a dramatic Victorian tale of betrayal and a wholly modern psychological study of a woman caught in a web of relations she only comes to understand too late This edition reproduces the revised New York Edition with James's own Preface

Representing Realists in Victorian Literature and Criticism Daniel Brown, 2016-12-15 This book is about the historical moment when writers and critics first used the term realism to describe representation in literature and painting While scholarship on realism tends to proceed from an assumption that the term has a long established meaning and history this book reveals that mid-nineteenth century critics and writers first used the term reluctantly with much confusion over what it might actually mean It did not acquire the ready meaning we now take for granted until the end of the nineteenth century In fact its first definitions came primarily by way of example and analogy through descriptions of current practitioners or through fictionalized representations of artists By investigating original

debates over the term realism this book shows how writers simultaneously engaged with broader concerns about the changing meanings of what was real and who had the authority to decide this Vicarious Narratives Jeanne M. Britton, 2019 Studies the experiences of sympathy that literary characters share with each other and argues that between 1750 and 1850 key works of British and French fiction generated a specific version of sympathy by manipulating traditional narrative forms and new publication practices in response to the Enlightenment The Nineteenth-Century English Novel J. Kilroy, 2007-04-02 Through analysis of eight English novels of the Nineteenth century this work explores the ways in which the novel contributes to the formation of ideology regarding the family and conversely the ways in which changing attitudes toward the family shape and reshape the novel
