The Ahmadiyya in the Gold Coast John H. Hanson,2017-10-16 The Ahmadiyya Muslim Community a global movement with more than half a million Ghanaian members runs an extensive network of English language schools and medical facilities in Ghana today Founded in South Asia in 1889 the Ahmadiyya arrived in Ghana when a small coastal community invited an Ahmadiyya missionary to visit in 1921 Why did this invitation arise and how did the Ahmadiyya become such a vibrant religious community John H Hanson places the early history of the Ahmadiyya into the religious and cultural transformations of the British Gold Coast colonial Ghana Beginning with accounts of the visions of the African Methodist Binyameen Sam Hanson reveals how Sam established a Muslim community in a coastal context dominated by indigenous expressions and Christian missions Hanson also illuminates the Islamic networks that connected this small Muslim community through London to British India African Ahmadi Muslims working with a few South Asian Ahmadiyya missionaries spread the Ahmadiyya s theological message and educational ethos with zeal and effectiveness This is a global story of religious engagement modernity and cultural transformations arising at the dawn of independence

*Missions and Empire* Norman Etherington,2005-07-14 The explosive expansion of Christianity in Africa and Asia during the last two centuries constitutes one of the most remarkable cultural transformations in the history of mankind Because it coincided with the spread of European economic and political hegemony it tends to be taken for granted that Christian missions went hand in hand with imperialism and colonial conquest In this book historians survey the relationship between Christian missions and the British Empire from the seventeenth century to the 1960s and treat the subject thematically rather than regionally or chronologically Many of these themes are treated at length for the first time relating the work of missions to language medicine anthropology and decolonization Other important chapters focus on the difficult relationship between missionaries and white settlers women and mission and the neglected role of the indigenous evangelists who did far more than European or North American missionaries to spread the Christian religion belying the

image of Christianity as the white man's religion      **Prophetic Identities** Justin Tolly Bradford, 2012 The spread of Christianity is often presented as a story of conquest of powerful European missionaries waging a cultural assault on hapless indigenous victims Yet the presence of indigenous men among missionary ranks in the nineteenth century complicates these narratives What compelled these individuals to embrace Christianity How did they reconcile being both Christian and indigenous in an age of empire Tolly Bradford finds answers to these questions in the lives and legacies of Henry Budd a Cree missionary from western Canada and Tiyo Soga a Xhosa missionary from southern Africa Inspired by both faith and family these men found in Christianity a way to construct a modern conception of indigeneity one informed by their ties to Britain and rooted in land and language rather than religion and lifestyle Although they shared a new sense of nativeness the men followed different paths Whereas Budd sought to create a modern Cree village to cope with the upheavals of the 1860s and 1870s Soga tried to foster among his people a politicized and Christianized sense of African nationalism In telling this story Bradford portrays indigenous missionaries not as victims of colonialism but as people who made conscious difficult choices about their spirituality identity and relationship with the British colonial world      **Empires of Religion** H. Carey, 2008-11-13 A sparkling new collection on religion and imperialism covering Ireland and Britain Australia Canada the Cape Colony and New Zealand Botswana and Madagascar Bursting with accounts of lively characters and incidents from around the British world this collection is essential reading for all students of religious and imperial history      Sorcery and Sovereignty Sean Redding, 2006 Publisher description      *Cassidy et al.: Women and Empire, 1750-1939, Vol. III* Elizabeth Dimock, 2021-12-24 First published in 2008 Women and Empire 1750 1939 functions to extend significantly the range of the History of Feminism series co published by Routledge and Edition Synapse bringing together the histories of British and American women's emancipation represented in earlier sets into juxtaposition with histories produced by different kinds of imperial and colonial governments The alignment of writings from a range of Anglo imperial contexts reveals the overlapping histories and problems while foregrounding cultural specificities and contextual inflections of imperialism The volumes focus on countries regions or continents formerly colonized in part by Britain Volume I Australia Volume II New Zealand Volume III Africa Volume IV India Volume V Canada Perhaps the most novel aspect of this collection is its capacity to highlight the common aspects of the functions of empire in their impact on women and their production of gender and conversely to demonstrate the actual specificity of particular regional manifestations Concerning questions of power gender class and race this new Routledge Edition Synapse Major Work will be of particular interest to scholars and students of imperialism colonization women's history and women's writing      *Beer, Sociability, and Masculinity in South Africa* Anne Kelk Mager, 2010 Beer connects commercial social and political history in this sobering look at the culture of drinking in South Africa Beginning where stories of colonial liquor control Mager looks at the current commerce of beer its valorizing of male sociability and sports and the corporate culture of South African Breweries      The Religious Traditions of Africa Elizabeth

Isichei,2004-11-23 This work is a first of its kind historical introduction to the major religions of Africa The vast majorities of Africa s peoples have been Muslim Christian or Traditionalist for a great deal of time making an inclusive study of these religions essential Isichei s work gives equal attention to all three religions and balances the elements of each to construct an easily accessible overview It is also the first book to provide a comprehensive look at the traditional religion in Africa filling the void in the literature on African religious history Written by a pioneering scholar in the African religious experience this volume blends in depth research and personnel accounts to explore the origins and effects of religion in Africa While primarily a work of history this book also incorporates the latest findings while engaging with current issues such as the interface of neo traditional religion and contemporary cultures This work includes four sections each dedicated to a separate religion detailed maps a glossary and a guide to further reading **Encyclopedia of African History 3-Volume Set** Kevin Shillington,2013-07-04 Covering the entire continent from Morocco Libya and Egypt in the north to the Cape of Good Hope in the south and the surrounding islands from Cape Verde in the west to Madagascar Mauritius and Seychelles in the east the Encyclopedia of African History is a new A Z reference resource on the history of the entire African continent With entries ranging from the earliest evolution of human beings in Africa to the beginning of the twenty first century this comprehensive three volume Encyclopedia is the first reference of this scale and scope Also includes 99 maps **Building God's Kingdom** Karina Hestad Skeie,2012-11-13 The author analyzes Malagasy influence on the 19th century Norwegian mission in highland Madagascar She reveals the complex dynamics of mission encounters **Public Health in the British Empire** Ryan Johnson,Amna Khalid,2012-03-12 Over the last several decades historians of public health in Britain s colonies have been primarily concerned with the process of policy making in the upper echelons of the medical and sanitary administrations Yet it was the lower level staff that formed the backbone of public health systems in the colonies Although they constituted the bases of many colonies public health machinery there is no consolidated study of these individuals to date Public Health in the British Empire addresses this gap by bringing together historians studying intermediary and subordinate staff across the British Empire Along with investigating the duties and responsibilities of medical and non medical intermediary and subordinate personnel the contributors to this volume show how the subjectivity of these agents influenced the manner in which they discharged their duties and how this in turn shaped policy Even those working as low level assistants and aids were able to affect policy design In this way Public Health in the British Empire brings into sharp relief the disaggregated nature of the empire thereby challenging the understanding of the imperial project as an enterprise conceived of and driven from the center **Blood Ground** Elizabeth Elbourne,2002-12-03 Blood Ground traces the transition from religion to race as the basis for policing the boundaries of the white community Elbourne suggests broader shifts in the relationship of missions to colonialism B as the British movement became less internationalist more respectable and more emblematic of the British imperial project B and shows that it is symptomatic that many Christian Khoekhoe ultimately rebelled against the

colony Missionaries across the white settler empire brokered bargains B rights in exchange for cultural change for example B that brought Aboriginal peoples within the aegis of empire but ultimately were only partially and ambiguously fulfilled
