Reason and Emotion John Macmurray, 1935 Healing the Reason-Emotion Split Daniel S. Levine, 2020-12-29 Healing the Reason Emotion Split draws on research from experimental psychology and neuroscience to dispel the myth that reason should be heralded above emotion Arguing that reason and emotion mutually benefit our decision making abilities the book explores the idea that understanding this relationship could have long term advantages for our management of society's biggest problems Levine reviews how reason and emotion operated in historical movements such as the Enlightenment Romanticism and 1960s counterculture to conclude that a successful society would restore human connection and foster compassion in economics and politics by equally utilizing reason and emotion Integrating discussion on classic and contemporary neurological studies and using allegory the book lays out the potential for societal change through compassion and would be of interest to psychologists concerned with social implications of their fields philosophy students social activists and religious leaders The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial CC BY NC 4.0 license

Ethics, Emotion, Education, and Empowerment Lisa Kretz,2020-10-14 Universities teach courses in ethics but do they teach students how to be ethical in practice Lisa Kretz s Ethics Emotion Education and Empowerment explores the ways that philosophical ethics are currently taught and argues that dominant approaches fail to adequately support ethical action in part because emotions are all too often ignored or repressed in university classrooms In isolation abstract theoretical content fails to motivate The ability to reason through an ethical dilemma does not by itself of necessity impact ethical action Empowered action requires intentional emotional engagement Kretz argues that part of the reason affective pedagogy fails to get sufficient uptake is due to the operations of oppression There is a long history of the reason emotion dualism undermining recognition of the necessary and valuable epistemic roles emotions play in moral life and serving as a political tactic to undermine the experience of oppressed groups This impoverishes ethical pedagogy because it is to the detriment of their ability to teach ethics in a comprehensive way and strips the potential of supporting students to enact their own reflectively held ethical beliefs and values Using the example of the environmental crisis Kretz makes a case for supporting students as engaged activists aware of their capacity to ethically

becomes the ground of a more resilient faith in life This remarkable book has taught me a whole new way of thinking Harold Kushner author of When Bad Things Happen to Good People A beautiful piece of work destined to become a perennial classic Martha Beck author of The Joy Diet **In Search of Just Families** Chhanda Gupta,2018-06-06 This book explores two contemporary combative views regarding the search for just families These views arise from the conundrum of the family being seen as a supportive nurturing haven versus a grievously unjust harmful institution that violates the rights and freedoms of any individual family member Triggered by anti family movements which have been inspired by the ideas of some theorists and writers the book addresses the question Is family destined to wither away It challenges the radical idea that the solution to the problem of unjust families is their complete replacement by purportedly just anti familial alternatives Chhanda Gupta advances a distinct reformist and reconciliatory view that the expulsion of either side of the family anti family binary is not the answer She seeks to syncretize the seemingly irreconcilable ideas propagated through that philosophical binary Furthermore she urges that the search for just families must find its answer in clarifying how the term just applies to the characters behaviors and attitudes of people who comprise actual families The search is not for a perfectly just society or polity or even for a perfectly just family Instead it is a search for ways to redress the remediable injustices that occur in families in order to benefit and uplift individuals and families and the societies in which they live Critical Conversations in Philosophy of Education Wendy Kohli,2013-09-13 Critical Conversations in Philosophy of Education presents a series of conversations expressing many of the multiple voices that currently constitute the field of philosophy of education Philosophy of education as a discipline has undergone several turns the once marginal perspectives of the various feminisms critical Marxism and poststructuralist postmodernist and cultural theory have gained ground alongside those of Anglo analytic and pragmatic thought Just as Western philosophers in general are coming to terms with the end of philosophy pronouncement implicit in postmodernism so too are philosophers of education faced with similar challenges challenges to long held moral political aesthetic and epistemological commitments The contributors take up these challenges through a dialogical structure expressing differing positions without engaging in destructive critique **Political Psychology** Mr. Rohit Manglik,2024-02-10 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels
