Salisbury, 2004      **The Emergence of American Occidentalism in Literature and Culture** Muthanna Al-Janabi, 2025-10-28 The book presents an innovative conceptualization of Western thought casting the discourse of black and white intellectuals and politicians as a treatise on Occidentalism It envisions American Occidentalism as an inner discourse where Critical Occidentalists interact textually and historically in response to the prevailing crosscurrents To capture this narrativity the first chapter establishes the book's new terminology rereads ancient Greek texts and critiques the works of key anthropologists like James G Carrier and Fernando Coronil as well as cultural theorists such as Hassan Hanafi Xiaomei Chen and Ian Buruma and Avishai Margalit The other three chapters analyze the Occidentalist tendency in the discursive official and intellectual practices of the Early Republic the twentieth century and the twenty first century Ideal for scholars and individuals interested in postcolonial theory African American literature and political sciences this book challenges readers to see the Occident not as a fixed entity but as a dynamic self critical tradition      Seeing Culture Everywhere Joana Breidenbach, Pál Nyíri, 2011-07-01 Today's world is shaped by an obsession with cultural difference that penetrates everyday life and matters of state in unprecedented ways Culture and cultural difference are commonly used to explain everything that's in the news from wars to economic development and consumer behavior This fuels the belief that our world is shaped by clashing cultures a view that is counterproductive when it assumes falsely that culture is a timeless container that traps nations and ethnic groups Seeing Culture Everywhere challenges the misguided and dangerous global obsession with cultural difference and directly critiques the popular notion that world affairs are determined by essential civilizations with immutable and conflicting cultures The book offers an alternative view of a world in which cultural mixing not isolation is the norm but where several historical trends have come together at the beginning of the twenty first century to produce the current wave of culture think Brimming with concrete examples that move from genocide in Rwanda to schools in Berlin from the Chrysler boardroom to the war in Iraq it contemplates how ethnic identity can be mobilized in the service of all kinds of goals violent or nonviolent laudable or despicable and the unintended effects such mobilization invariably produces The authors suggest ways to remain sensitive to the cultural impacts of policies and decisions without falling into the traps of determinism essentialism and misrepresentation Seeing Culture Everywhere will be useful in the fields of anthropology law intercultural communication and international relations as well as for general readers interested in ethnicity and travel      **A Companion to Russian History** Abbott Gleason, 2009-04-06 This companion comprises 28 essays by international scholars offering an analytical overview of the development of Russian history from the earliest Slavs through to the present day Includes essays by both

lead to social improvement Turning to Germany's Ruhr Valley a region that despite its ample open space was greened with the addition of official parks and gardens Angelo shows that greening is as much a social process as a physical one She examines three moments in the Ruhr Valley's urban history that inspired the creation of new green spaces industrialization in the late nineteenth century postwar democratic ideals of the 1960s and industrial decline and economic renewal in the early 1990s Across these distinct historical moments Angelo shows that the impulse to bring nature into urban life has persistently arisen as a response to a host of social changes and reveals an enduring conviction that green space will transform us into ideal inhabitants of ideal cities Ultimately however she finds that the creation of urban green space is more about how we imagine social life than about the good it imparts

and nationalism to traditional religious outlooks The author argues consistently against all forms of reductionism converses at length with the sources in order to pose questions to conventional views and invites the historical imagination to recover and understand a world submerged by the nationalist interpretation of the past This task involves the recovery of the geographical pluralism that made Orthodox culture a truly transnational phenomenon The collection accordingly brings into focus both the epicentres of Orthodox culture and symbolism such as Mt Athos and Constantinople but also its hinterlands in Asia Minor and the Balkans

**Hole in Our Soul** Martha Bayles,1996-05-15 From Queen Latifa to Count Basie Madonna to Monk Hole in Our Soul The Loss of Beauty and Meaning in American Popular Music traces popular music back to its roots in jazz blues country and gospel through the rise in rock n roll and the emergence of heavy metal punk and rap Yet despite the vigor and balance of these musical origins Martha Bayles argues something has gone seriously wrong both with the sound of popular music and the sensibility it expresses Bayles defends the tough affirmative spirit of Afro American music against the strain of artistic modernism she calls perverse She describes how perverse modernism was grafted onto popular music in the late 1960s and argues that the result has been a cult of brutality and obscenity that is profoundly anti musical Unlike other recent critics of popular music Bayles does not blame the problem on commerce She argues that culture shapes the market and not the other way around Finding censorship of popular music both a practical and a constitutional impossibility Bayles insists that an informed shift in public tastes may be our only hope of reversing the current malignant mood
