STEM Education in Underserved Schools Julia V. Clark, 2023-11-14 Offers a model for increasing equity in STEM education at the K 12 level in the United States In *STEM Education in Underserved Schools* editor Julia V Clark addresses an urgent national problem the need to provide all students with a quality STEM education Clark brings together a prestigious group of scholars to uncover the factors that impede equity and access in STEM education teaching and learning and provides research based strategies to address these inequities This contributed volume demonstrates that students of color and those from lower socioeconomic communities have less access to qualified science and mathematics teachers less access to strong STEM curriculum less access to resources and fewer classroom opportunities than their peers at other schools Identifying the challenges and best practices related to producing more equitable and inclusive routes to access STEM education and professions contributors explain how to positively impact the trajectory of individuals from underrepresented groups in K 12 and pre college programs and lay out a bold reenvisioning of STEM education These essays aim to build

knowledge and theory for how schools can promote coherent guidance for culturally responsive instruction by exploring the policies and practices of four nations Finland Singapore Korea and Australia that have made noteworthy strides toward more equitable achievement in science and mathematics Clark offers a powerful framework in STEM to capture the benefits of international collaborations that would embed American scientists and students in vibrant globally collaborative networks Through a deep analysis of successful programs elsewhere in the world and a uniquely international framework Clark and these contributors present an innovative road map to equalize access to STEM education in the United States

Re-envisioning Education & Democracy Ruthanne Kurth-Schai, Charles R. Green, 2016-04-01 The future of public education and democracy is at risk Powerful forces are eroding commitment to public schools and weakening democratic resolve Yet even in deeply troubling times it is possible to broaden social imagination and empower effective advocacy for systemic progressive reform Re envisioning Education and Democracy explores challenges and opportunities for restructuring public education to establish and sustain more broadly inclusive deeply democratic and effectively transforming approaches to social inquiry and civic participation Re envisioning Education and Democracy adopts a non traditional format to extend social awareness and imagination Within each chapter one episode of an evolving strategic narrative traces the life cycle of a systemic reform initiative This is followed by an exploratory essay that draws from theory research criticism and practice to prompt consideration of focal issues Woven through each chapter is a poetically framed meditative stream informed by varied historical and cultural conceptions of oracles A developmental sequence of social learning strategies exploratory democratic practices accompanied by thematic bibliographic references are included to model democratic teaching and learning applicable in classroom and community settings

Closing the Achievement Gap from an International Perspective Julia V. Clark, 2013-10-24 In a changing world that demands new skills a vital concern of public education is the gap in academic performance between low and high achieving students There is no excuse for the achievement gaps that persist among poor and minority students in schools today All students can succeed at high levels regardless of race ethnicity and economic background Several countries have successfully confronted inequities in achievement demonstrating that any school can close achievement gaps regardless of the community they serve and that all students can achieve at high levels when they are provided with the right opportunities This book is about understanding what factors selected countries have applied to promote progress and what factors contribute to progress in the closing of achievement gaps It is about creating opportunities for all students Closing the Achievement Gap from an International Perspective Transforming STEM for Effective Education is written in response to rising concern for the improvement of quality education especially in mathematics and science provided to all students The contributors take a systematic view of the subject beginning with a cross national analysis of teacher qualifications and the achievement gap that spans 50 countries The content of the book is organized in sections describing education around the globe North and South America

Europe Asia Africa and Australia Individual chapters offer close up analysis of efforts to close achievement gaps in the U S and Canada Mexico England Turkey China South Africa and Australia among many others The contributors provide information on the achievement gap in mathematics and science review current research and present strategies for fostering improvement and raising performance with a focus on school related variables that adversely affect educational outcomes among poor and minority students The authors of the various chapters looked at how students data correlated with classroom practices teacher instruction and academic programming as part of their efforts to measure student growth Qualitative and quantitative data are provided to provide evidence not only of the problem but also for the solution The book concludes with a chapter on promoting equality and equity to shrink the achievement gap worldwide US Black Engineer & IT ,2001-06 **Urban Anthropology and Studies of Cultural Systems and World Economic Development** ,1997
