Refiguring The Father New Feminist Readings Of Patriarchy

Nancy E. Dowd

Refiguring The Father New Feminist Readings Of Patriarchy:

Refiguring the Father Patricia Yaeger, Elizabeth Kowaleski-Wallace, 1989 An exciting investigation of the ways literary and cultural texts have not only shaped the difficult terms of the daughter father relationship but also prescribed a role for fathers that is paradoxical and contradictory These 15 essays seek to enter into a new dialogue with both the tenets of patriarchy and with the initiating symbolic gestures of feminist discourse that have helped to maintain the father's voracious and hierarchical position in western culture The problem is not simply to change the focus of feminist inquiry from father as center to mother as center but to reinvent the discourse of the father to unsettle an oedipal dialectic that insists on revealing the father as the gaze as bodilessness or as the symbolic and to develop a new dialectic that refuses to describe the father function as if it were univocal and ahistorical

Toni Morrison Jill Matus, 2024-07-30 An illuminating study of one of the best selling most widely studied black authors today Explains Morrison's relation to the American civil rights and Black Consciousness movements Places Morrison in a political and historical context

The Father-Daughter Plot Rebecca L. Copeland, Esperanza Ramirez-Christensen, 2001-07-31 This provocative collection of essays is a comprehensive study of the father daughter dynamic in Japanese female literary experience Its contributors examine the ways in which women have been placed politically ideologically and symbolically as daughters in a culture that venerates the father They weigh the impact that this daughterly position has had on both the performance and production of women's writing from the classical period to the present Conjoining the classical and the modern with a unified theme reveals an important continuum in female authorship a historical approach often ignored by scholars The essays devoted to the literature of the classical period discuss canonical texts in a new light offering important feminist readings that challenge existing scholarship while those dedicated to modern writers introduce readers to little known texts with translations and readings that are engaging and original Contributors Tomoko Aoyama Sonja Arntzen Janice Brown Rebecca L Copeland Midori McKeon Eileen Mikals Adachi Joshua S Mostow Sharalyn Orbaugh Esperanza Ramirez Christensen Edith Sarra Atsuko Sasaki Ann Sherif

Encyclopedia of Feminist Literary Theory Elizabeth Kowaleski-Wallace, 2009-03-23 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company

Evelina Frances Burney, 2000-09-14 The reputation of Frances Burney 1752 1840 was largely established with her first novel Evelina Published anonymously in 1778 it is an epistolary account of a sheltered young woman's entrance into society and her experience of family Its comedy ranges from the violent practical joking reminiscent of Smollett's fiction to witty repartee that influenced Austen The Broadview edition is based on the second edition of the novel 1779 which incorporates Burney's revisions and corrections Its appendices include contemporary reviews of Evelina as well as eighteenth century works on the family and on comedy

Unbecoming Women Susan Fraiman, 1993 *Unbecoming Women* unpacks the ideological baggage of the Bildungsroman and turns to conduct books and novels of development by women for a new poetics of growing up In subtle readings of works by Frances Burney Jane Austen Charlotte

Bronte and George Eliot Fraiman argues that a heroine's progress toward masterful selfhood is by no means assured. Focusing on counternarratives in which girls do not enter the world so much as flounder on its doorstep, Fraiman suggests that becoming a woman involves de-formation, disorientation, and the loss of authority. Written with grace and theoretical mastery, *Unbecoming Women* emphasises the dialectical as well as subversive aspects of a genre long considered homogeneous. The result is a compelling contribution to feminist genre criticism that charting female destiny in Georgian and Victorian texts also postmodernizes the novel of development.

What Else But Love? Philip M. Weinstein, 1996 Philip Weinstein examines questions of race and gender through the works of two major twentieth-century American novelists, William Faulkner and Toni Morrison. From publisher description.

Redefining Fatherhood Nancy E. Dowd, 2000-07-01 Most fathers parent less than most mothers. Those fathers who do parent equally or more so than mothers are poorly supported by our society. For children, this means a loss of adult care as well as an ongoing and sharply defined differentiation between fathers and mothers. Fathers are not present in children's lives to a significant degree if at all, or when they are present they are often rendered socially invisible. For many men, their parenthood is defined as biological or economic, while a minority of men struggle against the presumption that they are not caregivers. In *Redefining Fatherhood*, Nancy Dowd argues that this skewed social pattern is mirrored and supported by law. Dowd makes the case for reenvisioning fatherhood away from genes and dollars and toward nurture. Integrating economic, social, and legal aspects of fathering, she makes the case for focusing on social nurturing behavior as the core meaning of fatherhood. In this nuanced and complex analysis, she explores the barriers to redefinition, including concepts of masculinity, the interconnections between fathers and mothers, male violence, and homophobia. *Redefining Fatherhood* offers a progressive view on how men and society at large can change understandings and practices of fatherhood.

Incest and the English Novel, 1684-1814 Ellen Pollak, 2003-06-13 She argues that the historical realignment of the categories of class, kinship, and representation that took place with the shift from patriarchal to egalitarian models of familial order marked a transformative moment in the cultural construction of incest.

Turning the Pages of American Girlhood Emily Hamilton-Honey, 2013-02-26 Alternating chapters of historical background and literary analysis, this study argues that postbellum series books inspired young women by illustrating the ways in which girls could participate in social change, whether through church societies, benevolent organizations, educational institutions, or political groups. By 1900, however, the socialization of series heroines had shifted to the consumer marketplace, where girls could develop personality and taste through their purchases. Both models had benefits: Religious faith and political activism gave young women moral power within their communities; consuming gave them opportunities to indulge individual desires and often to socialize in public without adult oversight. This work adds to the existing scholarship on girls' culture not only by examining the beginnings of series fiction for girls and the models of womanhood it presented but also by tracing the shifting social ideologies of girlhood throughout the 19th and early 20th centuries.
