Reforming Human Services Change Through Participation:

Reforming Human Services Hans Toch, J. Douglas Grant, 1982-11 In this book the authors try hard not to downgrade the continuum of work related problems The authors stress this continuum by surveying the highlights of recent organizational reform including as reviews must the classics that have inspired reformers This book is in part a primer or a summary recapitulation of today's trends in organizational change theory and experimentation It is also a blueprint and as such contains a prescription or model of planned change The prescription is eclectic It combines elements of what are now the mainline work reform strategies job enrichment quality of work life and action research into a package that we hope is coherent and deployable In this book the authors contend that workers work best and most contentedly that they are most apt to exercise ingenuity and decency and helpfulness when they have a voice in shaping organizational goals and defining their own jobs This ideal condition which the authors call grass roots management is neither utopian nor revolutionary nor hard to create The authors shall outline how organizational democracy can be achieved and how it has to varying degrees been attained The authors shall suggest why the strategy works why in fact it must work In this connection the authors assume that strategies vested in classic management have been tried and found wanting Reasons for the shortfall are many some have to do with changing needs or expectations some with needs we have known but ignored The reason whichever it may be is academic because manifest needs of workers whether they are new or discovered are intense and irreversible If we ignore workers needs we violate human nature And nature as the commercial points out has a way of avenging itself when it is violated Preface

Organizational Change for the Human Services Thomas Packard, Thomas Roy Packard, 2021 Organizational Change for the Human Services is designed for managers and other leaders in human service organizations HSOs and students in graduate programs in social work nonprofit management public administration and human resource management It covers evidence based principles for planning and implementing organizational change initiatives in areas such as implementing evidence based practices new or improved information systems diversity equity and inclusion initiatives and organizational restructuring Details are provided on many change methods from team building employee surveys use of consultants intrapreneurship and continuous quality improvement to change processes specifically for HSOs such as capacity building implementation science staff initiated organizational change and cutback management

Reforming Human Services Hans Toch, J. Douglas Grant, 1982 The authors feel that management techniques adopted from industry have created bureaucratic demands that are not suited to agencies trying to provide responsive humane assistance They suggest an approach that draws from democratic management principles to involve front line human service workers in the decision making process They demonstrate using studies of industrial democracy including their own study of criminal justice agencies that such organizational structures encourage a more committed attitude by practitioners It provides a realistic analysis of the problems and successes that may confront researchers managers trainers and consultants

Handbook of Community Psychology Julian Rappaport,Edward Seidman,2012-12-06 As a field progresses people write about their own work in journals chapters and books but periodically the work needs to be collected and organized It needs to be brought together in a format that can both introduce new members to the field and reacquaint continuing members with the work of their colleagues Such a collection also affords an opportunity for the growing number of people with particular expertise to provide a reference for others whose work is related but differs in focus This is the first Handbook of Community Psychology It contains contributions from 106 different authors in addition to our editorial introductions Its thirty eight chapters including two that are divided into multiple individually authored parts are concerned with conceptual frameworks empirically grounded constructs intervention strategies and tactics social systems design assessment and analysis cross cutting professional issues and contemporary intersections with community psychology Although interrelated each chapter stands on its own as a statement about a particular part of the field and the volume can serve as a reference for those who may want to explore an area about which they are not yet familiar To some extent community psychologists eschew the distinction between researcher and practitioner and regardless of one's primary work environment university small college practice setting government or grassroots organization there is something of interest for anyone who wants to explore the community psychology approach Working with Sex Offenders in Prisons and Through Release to the

Democratizing the Police Abroad David H. Bayley,2001 *The Partnership Model in Human Services* Rosalyn Benjamin Darling,2005-12-11 This book provides students and practitioners with a theoretical and methodological foundation for implementing client and family centered partnership approaches in human services Unlike other texts in the field the author integrates the principles and practices of sociology with applied work in the helping professions and shows how key sociological concepts can be used to explain the nature of clients perspectives and expand client opportunities
