

"RIGHTS, NOT ROSES"

Unions and the Rise of
Working-Class Feminism, 1945-80

Dennis A. Deslippe

Rights Not Roses Unions And The Rise Of Working Class Feminism 1945 8

**David O'Donald Cullen, Kyle G.
Wilkison**

Rights Not Roses Unions And The Rise Of Working Class Feminism 1945 8:

Rights, Not Roses Dennis Deslippe, 2000 Although the most visible banners of feminism were carried by educated white collar professional women in fact working class women were a powerful force in the campaign for gender equality Rights Not Roses explores how unionized wage earning women led the struggle to place women s employment rights on the national agenda decisively influencing both the contemporary labor movement and second wave feminism Drawing on union records oral histories and legislative hearings and debates Dennis A Deslippe unravels a complex history of how labor leaders accommodated and resisted working women s demands for change Through case studies of unions representing packinghouse and electrical workers Deslippe explains why gender equality emerged as an issue in the 1960s and how the activities of wage earning women in and outside of their unions shaped the content of the debate He also traces the faultlines between working class women who sought gender equality within the parameters of unionist principles such as seniority and middle class women who sought an equal rights amendment that would guarantee an abstract equality for all women A thoughtful and thorough study of working class feminism Rights Not Roses raises important questions about the meaning of equality for working women the connections of women to their unions the gendered nature of equal rights and more

Women at Work David Gold, Jessica Enoch, 2019-08-21 Women at Work presents the field of rhetorical studies with fifteen chapters that center on gender rhetoric and work in the US in the nineteenth and twentieth centuries Feminist scholars explore women s labor evangelism in the textile industry the rhetorical constructions of leadership within women s trade unions the rhetorical branding of a twentieth century female athlete the labor activism of an African American blues singer and the romantic same sex collaborations that supported pedagogical labor Women at Work also introduces readers to rhetorical methods and approaches possible for the study of gender and work Contributors name and explore a specific rhetorical concern that animates their study and in so doing readers learn about such concepts as professional proof rhetorical failure epideictic embodiment rhetorics of care and cross racial coalition building *Women and the United*

States Constitution Sibyl A. Schwarzenbach, Patricia Smith, 2003 Divided into three parts History Interpretation and Practice this provocative volume incorporates law history political theory and philosophy to analyze the U S Constitution as a whole in relation to the rights and fate of women

The Texas Left David O'Donald Cullen, Kyle G. Wilkison, 2010-02-05 The Texas Left Some would say the phrase is an oxymoron For most of the twentieth century the popular perception of Texas politics has been that of dominant conservatism punctuated by images of cowboys oil barons and party bosses intent on preserving a decidedly capitalist status quo In fact poor farmers and laborers who were disenfranchised segregated and depending on their ethnicity and gender confronted with varying levels of hostility and discrimination have long composed the other political heritage of Texas In The Texas Left fourteen scholars examine this heritage Though largely ignored by historians of previous decades who focused instead on telling the stories of the Alamo the Civil War the cattle drives and the oilfield

wildcatters this parallel narrative of those who sought to resist repression reveals themes important to the unfolding history of Texas and the Southwest Volume editors David O Donald Cullen and Kyle G Wilkison have assembled a collection of pioneering studies that provide the broad outlines for future research on liberal and radical social and political causes in the state and region Among the topics explored in this book are early efforts of women blacks Tejanos labor organizers and political activists to claim rights of citizenship livelihood and recognition from the Reconstruction era until recent times

Power Among Them Karen Pastorello, 2008 The extraordinary life of labor activist immigrant and feminist Bessie Abramowitz Hillman

Tidal Wave Sara Evans, 2010-05-11 Forty years ago few women worked married women could not borrow money in their own names schools imposed strict quotas on female applicants and sexual harassment did not exist as a legal concept Yet despite the enormous changes for women in America since 1960 and despite a blizzard of books that continue to argue about women's proper place there has not been a serious definitive history of what happened until now Sara M Evans is one of our foremost historians of women in America Her book *Personal Politics* is a classic that captured the origins of the modern women's movement its successor *Born for Liberty* set the standard for sweeping histories of women In *Tidal Wave* Evans again sets the standard by drawing on an extraordinary range of interviews archives and published sources to tell the incredible story of the past forty years in women's history Encompassing both the so called Second Wave of feminism's initial explosion in the 1960s and 1970s and the Third Wave of the 1980s and 1990s she challenges traditional interpretations at every step She shows that the Second Wave was beset by fragmentation and infighting from the beginning its slogan the personal is political was both a rallying cry and the seed of its self destruction Yet the Third Wave has been surprisingly strong and almost all women today might be thought of as feminists in practice if not in name From national events and from leaders of institutions such as NOW and Emily's List to little known local stories of women who simply wanted more out of their lives only to discover that they were creating a movement *Tidal Wave* paints a vast canvas of a society in upheaval from politics to economics to popular culture to marriage and the family Today Evans argues the women's movement is as alive and vital as ever precisely because it has enjoyed such stunning success Though not all women are comfortable with the term feminist the vast majority hold jobs and enjoy previously unimaginable personal freedoms Never before in American or world history have women experienced full and equal citizenship and opportunity At last the extraordinary story can be told

Prescription for Heterosexuality Carolyn Herbst Lewis, 2010-10-18 In *Prescription for Heterosexuality* Carolyn Herbst Lewis explores how medical practitioners especially family physicians situated themselves as the guardians of Americans sexual well being during the early Cold War years She argues that many doctors believed that a satisfying sexual relationship with very specific attributes and boundaries was the foundation of a successful marriage a source of happiness in the American family and a crucial building block of a secure nation Drawing on hundreds of articles and editorials in both medical journals and popular and professional literature Lewis traces how medical professionals

affirmed certain heterosexual desires and acts while labeling others as unhealthy or deviant **We Were Still Ladies** Coreen Derifield, 2025 Following World War II women living in small towns and on farms across the Midwest woke every morning and headed out for a long day of work in a nearby factory This transition into industrial work caused tremendous change within families and with household roles These alterations in daily life rippled throughout midwestern culture and society changing the landscape of small towns into decentralized industrial centers *Rethinking the American Labor Movement* Elizabeth Faue, 2017-04-28 *Rethinking the American Labor Movement* tells the story of the various groups and incidents that make up what we think of as the labor movement While the efforts of the American labor force towards greater wealth parity have been rife with contention the struggle has embraced a broad vision of a more equitable distribution of the nation's wealth and a desire for workers to have greater control over their own lives In this succinct and authoritative volume Elizabeth Faue reconsiders the varied strains of the labor movement situating them within the context of rapidly transforming twentieth century American society to show how these efforts have formed a political and social movement that has shaped the trajectory of American life *Rethinking the American Labor Movement* is indispensable reading for scholars and students interested in American labor in the twentieth century and in the interplay between labor wealth and power

Freedom Is Not Enough Nancy MacLean, 2006 MacLean shows how African American and Mexican American civil rights activists and feminists concluded that freedom alone would not suffice access to jobs at all levels is a requisite of full citizenship This book chronicles the cultural and political advances that have irrevocably changed our nation over the past 50 years
