The Rise and Fall of Democracies in Third World Societies ,1986 **Afghan Resistance** Grant M.

Farr,2019-03-13 The people of Afghanistan stand at a crossroads with resistance to the Soviet occupation entering its eighth year The question of survival must be weighed against the difficult political choices of fighting or reaching an accommodation with the Soviet backed Kabul regime The vast majority choose to continue the struggle aided in part by covert arms shipments and to search for a uniquely Afghan nationalism despite rumors of an impending USSR U S deal whereby in return for Soviet troop withdrawal and cessation of arms aid to the Mujahideen Afghanistan and Pakistan would become neutral Muslim nations Drawing on Afghan cultural and historical background this collection of original essays provides fresh insights into the nature of the Afghan conflict the country s threatened national infrastructure the continuing decimation of its citizens and the prospects for their survival Showing that popular resistance is not limited to the Mujahideen or freedom fighters but encompasses the Afghan people as a whole the contributors examine the impact of the world s largest refugee population on the shape of the future Afghanistan Based on their extensive firsthand experience in the region the contributors provide an interdisciplinary analysis of a country a people and a war still too little known to the outside world

The Rise and Decline of Modern Democracy Damien Kingsbury,2023-04-07 The Rise and Decline of Modern Democracy assesses the rise of subsequent political challenges to and decline of contemporary liberal democratic processes in particular since the third wave of democratization from the 1990s Democracy is in global decline Fewer countries are democratic and fewer people globally live in substantive democracies Autocracy is now the dominant political form and the future looks at best challenging for the retention of such democracies that remain As they did a century ago nationalism and populism have again reared their ugly heads and more people are claiming that democracy no longer addresses their most compelling needs or interests This book examines what democracy is and the circumstances that allowed even encouraged it to arise Democracy has been a product of a need to find a political model that mediates between competing interests building on conducive conditions However there have since been fundamental changes to those conditions imbalances within democratic countries and between countries that have diminished the strength of the democratic proposition The question now arises as to whether democracy can continue as a matter of political will Challengers to democracy from the radical Right in developed countries to populist autocracy and state centred authoritarianism in developing countries have increasingly shown this may not be the case Democracy may survive as this book concludes but is likely to do so only with more substantial and conscious commitment to the democratic project with recognition of the need to replenish the fertility of the political soil in which democracy grows This wide ranging and empirically and theoretically rich book will be of interest to students scholars and researchers of political science international relations history and democracy **Resources in Education** ,1986

Conflict Society and Peacebuilding Raffaele Marchetti,Nathalie Tocci,2020-11-29 Civil society s role in conflict and peace

building is increasingly being recognized an integral element in conflict it can act within the conflict dynamic to fuel discord further or to entrench the status quo Alternatively it can bring about peaceful resolution and reconciliation The question at hand is not whether to engage civil society in contexts of conflict but rather how governmental actors can partner with civil society to induce conflict resolution and conflict transformation The collection of essays in this volume attempts to explore this nexus between civil society and peace building especially in the context of intra state and identity driven conflicts across different regions by focusing on case studies from Asia Africa Latin America and Europe *Anatolia's Loom* Paul J. The democratic opening presented by Nigeria's successful transition to civil rule June 1998 to May 1999 unleashed a host of hitherto repressed or dormant political forces. Unfortunately it has become increasingly difficult to differentiate between genuine demands by these forces on the state and outright criminality and mayhem. Post transition Nigeria is experiencing the proliferation of ethnic militia movements purportedly representing and seeking to protect their ethnic interests in a country which appears incapable of providing the basic welfare needs of its citizens. It is against the background of collective disenchantment with the Nigerian state and the resurgence of ethnic identity politics that this research interrogates the growing challenge posed by ethnic militias to the Nigerian democracy project. The central thesis is that the over centralization of power in Nigeria's federal practice and the failure of post transitional politics in genuinely addressing the National Question has resulted in the emergence of ethnic militias as a specific response to state incapacity. The short and long term threats posed by this development to Nigeria's fragile democracy are real and justify the call for a National Conference that will comprehensively address the demands of the ethnic nationalities.
