The service experience develops reflection while shedding light on and providing an added dimension to the curricular component of the study abroad course. The international education component further broadens students' perspectives by providing opportunities to compare and contrast North American and international perspectives on course content. This book focuses on conducting research on ISL which includes developing and evaluating hypotheses about ISL outcomes and measuring its impact on students, faculty, and communities. The book argues that rigorous research is essential to improving the quality of ISL's implementation and delivery and providing the evidence that will lead to wider support and adoption by the academy, funders, and partners. It is intended for both practitioners and scholars providing guidance and commentary on good practice. The volume provides a pioneering analysis of and understanding of why and under what conditions ISL is an effective pedagogy. Individual chapters discuss conceptual frameworks, research design issues, and measurement strategies related to student learning outcomes, the importance of ISL course and program design, the need for faculty development activities to familiarize faculty with the component, pedagogical strategies, the need for resources and collaboration across campus units to develop institutional capacity for ISL, and the role that community constituencies should assume as co-creators of the curriculum, co-educators in the delivery of the curriculum, and co-investigators in the evaluation of and study of ISL. The contributors demonstrate sensitivity to ethical implications of ISL, to issues of power and privilege, to the integrity of partnerships, to reflection, reciprocity, and community benefits.

Social Work and Service Learning Meryl Nadel, Virginia Majewski, Marilyn Sullivan-Cosetti, 2007. Service learning and social work education comprise an exciting yet underutilized partnership. This book represents the first comprehensive overview of this active and empowering approach to learning in social work. Both educators and practitioners will discover conceptual and practical guidance for developing productive community-based projects. Often envisioned as located at the midpoint on a continuum from volunteer work to internship, service learning combines the opportunity to serve with the opportunity to learn. It offers community agencies a chance to collaborate with academic colleagues to meet identified community needs frequently with an explicit social justice dimension. The contributors illustrate how service learning facilitates students' understanding and interacting with community members as partners, not clients. Service learning encourages students to use critical thinking skills to reflect on their work and its implications. This combination of study, action, reflection, in conjunction with course content, is highly effective. The book explores its subject from several perspectives. The first section serves as a conceptual and theoretical orientation to service learning in social work. The second section offers models that illustrate many ways of implementing service learning across the components of the social work curriculum. The final two parts of the book focus on evaluation and service learning in the broader context of civic engagement.

Service-Learning Mac Bellner, 2005-12-30 This volume is an important and timely contribution to the field for it captures the rewards and challenges of service learning from the varied perspectives of faculty dedicated to this type of teaching and at the same time illuminates strategies for campuses and non profit organizations to adopt to solidify institutional commitment Increasingly service learning is valued as a teaching and learning strategy consistent with the democratic ideals of education and to this end a better understanding of the faculty role is essential to advancing practice and improving society
