Sex And Sexuality From Repression To Expression:

Sex and Sexuality Mildred W. Weil, 1990-02-16 Looking at sexuality openly and in the general social context of our culture and viewing the intra societal influences on the individual's perception of himself makes us aware of the pain individuals encounter because of sexual repression as well as the pain caused by overindulgence and obsessive concern This book is an attempt to establish this awareness by combining theory research results and analyses which permits us to look at the newer codes in relationship to non marital premarital extra marital and marital sexuality Although half the adult population no matter what their personal practice may be believes that sexual intercourse should take place only in the marriage relationship such statistics give us only a partial picture The issues which emerge are complex and dependent on individual circumstances differences found in the norms of varied groups and the vast array of changes present in society Theory research and issues in the area of sexuality are discussed within three conceptual frameworks the family society and the individual as independent systems

Vygotsky's Sociohistorical Psychology and its Contemporary Applications

Carl Ratner, 2013-06-29 The social character of psychological phenomena has never been easy to comprehend Despite the fact that an intricate set of social relations forms our most intimate thoughts feelings and actions we believe that psychology originates inside our body in genes hormones the brain and free will Perhaps this asocial view stems from the alienated nature of most societies which makes individual activity appear to be estranged from social relations One might have thought that the emergence of scientific psychology would have disclosed the social character of activity had overlooked Unfortunately a century and a half of psychological science has failed to comprehend the elusive social character of psychological phenomena Psychological science has evidently been subjugated by the mystifying ideology of society This book aims to comprehend the social character of psychological functioning I argue that psychological functions are quintessentially social in nature and that this social character must be comprehended if psychological knowledge and practice are to advance The social nature of psychological phenomena consists in the fact that they are constructed by individuals in the process of social interaction they depend upon properties of social interaction one of their primary purposes is facilitating social interaction and they embody the specific character of historically bound social relations This viewpoint is known as sociohistorical psychology It was articulated most profoundly and comprehensively by the Russian psychologists Lev Vygotsky and Alexander Luria during the 1920s and 1930s

Creativity and Sexuality Mordechai Rotenberg,2018-02-06 Judaism openly recognizes as an integral part of human nature the enigmatic relationship between yetzer or physical desire and yetzirah or spiritual creativity Creativity and Sexuality written as a fictional dialogue clearly delineates the psychic interdependence of these two drives as well as the integration of the concepts as they are defined by both Jewish mysticism and modern psychology Mordechai Rotenberg is interested in the impact of religion on the psychology of everyday life He was prompted to write Creativity and Sexuality by the popularity of writings that explore Jewish texts on the subject of sexuality from a historical or literary point of view but that do not hesitate to include psychological evaluations based on popular secondary psychological concepts This work seeks to provide an accurate psychological analysis of sexuality and spirituality from a Jewish mystical perspective As such it both reconstructs the interdisciplinary bridge between Judaism and psychology and deconstructs some exegetical traditions The goal is to present new paradigmatic options which may help modern society struggle more efficiently with its sexuality Ultimately the author sees physical desire and spiritual creativity as a regulative continuum People learn how to spend the tremendous power of energy that the sexual yetzer produces not only on physical sex but on the spiritual yetzirah In an introduction written especially for this new edition the author explains the continuing relevance of Creativity and Sexuality and the ongoing relationship between sexual desire and a healthy spiritual self fulfillment This volume will be of interest to students of Judaism psychology mysticism and sexuality

Appel Jr., 2022-02-25 The root of human dilemmas although they always present themselves in multiple hues invariably plunges into the question of human dualism consciousness and matter There s a subtle cosmic Darwinism going on that we haven t paid attention to yet A real universal filter is at work silently decimating intelligent biological species across the Universe From our animal matrix either this subtle something that we decide to identify as consciousness will emerge or our bodily instincts will inevitably lead us to nuclear suicide The Fermi paradox suggests this possibility explicitly The human mind this highly efficient and complex biological software emerged from this same Darwinian process of violent and brutal struggle for survival So the mind also naturally tends to aggression and violence when dissociated from consciousness that energy that many decided to call pejoratively as the ghost in the machine The human world in general expresses precisely such reality created by the mind when dissociated from consciousness Hence our inclination towards indifference and aggression Our animal instincts are still highly active determining our every move So the nuclear age effectively corresponds to the turning point of intelligent species Every day we seem to take a step forward towards defcon 1 the threat of imminent nuclear destruction The existence of the doomsday clock is known only to a few Atomic weapons are not peace insurers by the certainty of mutual assured destruction M A D This is a truly insane perspective that exposes us in our ravings making it more than clear that we have deviated from our natural evolutionary course However if we implode ourselves it will only show that we never had what it takes to persevere as a conscious biological species The Universe however will lose nothing It

is it s simple and natural way of functioning The Parable of the Sower reminds us of this reality
