

# The Lower Class

- Roughly 20% of the American population.
- Characterized by unstable jobs, or being too old, young, or sick to work.
  - Disproportionately single mothers (and their children) and racial minorities.
- Jobs tend to be menial with low pay.
- These families typically earn less than \$25K per year.
- Stigmatized, ignored, and segregated by the culture.
- Low levels of education; lots of life stresses.
- Concentrated where unemployment is high:
  - 1. Inner cities.
  - 2. Rural areas.
- Tend to be socially conservative, economically liberal.

In this landmark effort to understand African American people in the New World Gunnar Myrdal provides deep insight into the contradictions of American democracy as well as a study of a people within a people The title of the book *An American Dilemma* refers to the moral contradiction of a nation torn between allegiance to its highest ideals and awareness of the base realities of racial discrimination The touchstone of this classic is the jarring discrepancy between the American creed of respect for the inalienable rights to freedom justice and opportunity for all and the pervasive violations of the dignity of blacks The appendices are a gold mine of information theory and methodology Indeed two of the appendices were issued as a separate work given their importance for systematic theory in social research The new introduction by Sissela Bok offers a remarkably intimate yet rigorously objective appraisal of Myrdal a social scientist who wanted to see himself as an analytic intellectual yet had an unbending desire to bring about change *An American Dilemma* is testimonial to the man as well as the ideas he espoused When it first appeared *An American Dilemma* was called the most penetrating and important book on contemporary American civilization by Robert S Lynd One of the best political commentaries on American life that has ever been written in *The American Political Science Review* and a book with a novelty and a courage seldom found in American discussions either of our total society or of the part which the Negro plays in it in *The American Sociological Review* It is a foundation work for all those concerned with the history and current status of race relations in the United States *Queer Studies* Bruce Henderson, 2019-09-10 Written for entry level survey courses in queer or LGBTQ Studies for students from all majors this engaging text covers a wide range of topics Early chapters consider the meaning of queer and examine identities such as trans bi and intersex Intersections between sexuality gender expression and other identities such as race ethnicity and class are also examined The book then reviews life experiences such as families friendship religion and spirituality health and politics through the lens of queerness *Queer Studies Beyond Binaries* Engages undergraduates with a narrative that applies key ideas to their own lives and experiences Questions various binaries either or pairings to help students examine their own sexual identity and gender expression Reviews foundational concepts from queer theory and queer history to create a deeper understanding of the concepts Emphasizes an intersectionality approach that demonstrates how one's identity is the product of multiple characteristics such as sexuality gender race class and disability Uses a multidisciplinary approach drawing from the social and natural sciences humanities and arts to provide a broad overview of perspectives Details an individual or an event in Spotlight on sections to highlight the experiences of queer people Provides questions for

class discussion or field activities in Issues for Investigation sections that apply the ideas covered in the chapter Allows instructors to shape the class with different foci using the stand alone chapters in Part III Features an Instructor s resource manual available to adopters with 20 PowerPoint slides for each chapter sample syllabi for a variety of courses teaching tips for using the Spotlight On and Issues for Investigation sections and the suggested readings a test bank with objective and essay questions and student aids such as keywords chapter outlines and summaries and learning objectives Designed for undergraduate courses in queer or LGBT Studies requiring no prerequisites Queer Studies Beyond Binaries also serves as an excellent supplement in courses on queer theory or history or on sexuality gender and women s studies      **Behind Ghetto**

**Walls** Michael Novak, 2017-09-08 This book is about the family lives of some 10 000 children and adults who live in an all Negro public housing project in St Louis The Pruitt Igoe project is only one of the many environments in which urban Negro Americans lived in the 1960s but the character of the family life there shares much with the family life of lower class Negroes as it has been described by other investigators in other cities and at other times in Harlem Chicago New Orleans or Washington D C This book is primarily concerned with private life as it is lived from day to day in a federally built and supported slum The questions which are treated here have to do with the kinds of interpersonal relationships that develop in nuclear families the socialization processes that operate in families as children grow up in a slum environment the informal relationships of children and adolescents and adults with each other and finally the world views the existential framework arising from the life experiences of the Pruitt Igoeans and the ways they make use of this framework to order their experiences and make sense out of them The lives of these persons are examined in terms of life cycles Each child there is born into a constricted world the world of lower class Negro existence and as he grows he is shaped and directed by that existence through the day to day experiences and relationships available to him The crucial transition from child of a family to progenitor of a new family begins in adolescence and for this reason the book pays particular attention to how each new generation of parents expresses the cultural and social structural forces that formed it and continue to constrain its behavior This book in short is about intimate personal life in a particular ghetto setting It does not analyze the larger institutional social structural and ideological forces that provide the social economic and political context in which lower class Negro life is lived These larger macro sociological forces are treated in another volume based on research in the Pruitt Igoe community However this book does draw on the large body of literature on the structural position of Negroes in American society as background for its analysis of Pruitt Igoe private life      Devotion to a Community Lefranc Guerin, 2012-02-27 The three

devoted families had the same ambitions and followed the same path They have many things in common but the best one is the devotion they have to God The devotees abandoned a several activities to observe the Gods commandments The family of Saladin Guerin Anderson Monfleury and Morris Charles had a great attachment to each other as well a great devotion to their community In the Town of Spring Hill Valley where they lived they gathered in their community to help the needy

people when it was required The three families were a prosperous group that always tried to understand the problem of each other They lay gathering their thoughts together and gathered themselves for a tremendous leap With their devotion to the community it implied to bring widely scattered things or people to one place but with no particular arrangement To gather three families in a lonely group they must have the same ambitions as well as the same devotion Saladin Anderson and Morris were the three families who had the same vision by sharing the similar location religions and other attribute The devotees lived near each other and had a one common interest Specifically Saladin Guerin was the one who devoted his life in the religious observance or prayer 100% With the real love he had for God he became the church clerk His performance had promoted him to be assistance manager

Christians versus Muslims in Modern Egypt S. S. Hasan, 2003-12-04 The Copts of Egypt are the largest Christian minority in the Middle East In recent years they have often figured in the news as victims of bloody attacks by Islamic militants Christians versus Muslims in Modern Egypt is the first study of Christian identity politics in contemporary Egypt S S Hasan begins by looking at how the Coptic generation of the 1940s and 1950s remembered recovered and imagined the ancient history of Christianity in Egypt in order to weld the Copts into a unified nation resistant to the growing encroachments of Islam She argues that this interpretation of history in which Egyptian martyrs figure prominently made possible the rebirth of the Coptic church and community in much the same way as the preservation of Hebrew and the historical memory of Jewish tribulations served the purpose of national reconstruction of the state of Israel The bulk of the book focuses on the period beginning with the consecration of Pope Shenuda in 1971 Drawing on extensive interviews with church leaders clergy and others Hasan finds that during this period the responsibilities of the church for the welfare of the Coptic community grew immeasurably Church leaders arrogated to themselves the exclusive right to the political representation of their community and reconceived their role from the narrow care of souls to the promotion of economic and cultural efflorescence of the entire Coptic community The leaders of this revival she shows have nurtured a potent and distinctive religious culture with a sense of communal pride and identity in an environment in which they were increasingly exposed to discrimination and outright hostility
