MacArthur's Coalition Peter J. Dean, 2018-04-03 From 1942 1945 the Allies war in the Southwest Pacific was effectively a bilateral coalition between the United States and Australia under the command of General Douglas MacArthur By charting the evolution of the military effectiveness of the US Australian alliance MacArthur's Coalition puts the relationship between the United States and Australia at the center of the war against Japan Drawing on new primary source material Peter J Dean has written the first substantial book length treatment of the coalition as a combined military force This expansive and ambitious book provides a fresh perspective on the Pacific War by providing a close up in depth account of operations in the Southwest Pacific from the Kokoda Trail campaign to the reconquest of the Philippines and Borneo Dean's work takes the reader deep into the key military headquarters in the Southwest Pacific and reveals the discussions debates and arguments between key commanders and staff officers during the course of planning and waging a monumental conflict Drawing upon archival records across three continents Dean brings the qualities of these senior officers to life by exploring the critical importance of personalities and leadership in overcoming cultural doctrinal and organizational divides in the largely unequal alliance Set against the practicalities of fighting a fanatical enemy in some of the most inhospitable terrain in the war his book shows how despite these divides and MacArthur's difficult personality the US Australian coalition was able to forge a highly effective and ultimately triumphant fighting machine With its unprecedented view of the joint nature of operations in the Southwest Pacific and its focus on frontline commanders and units in forging a successful fighting force MacArthur's Coalition illuminates a critical aspect of the Allied victory in World War II

Marshall and His Generals Stephen R. Taaffe, 2011-10-18 General George C Marshall chief of staff of the U S Army during World War II faced the daunting task not only of overseeing two theaters of a global conflict but also of selecting the best generals to carry out American grand strategy Marshall and His Generals is the first and only book to focus entirely on that selection process and the performances both stellar and disappointing that followed from it Stephen Taaffe chronicles and critiques the background character achievements and failures of the more than three dozen general officers chosen for top combat group commands from commanders like Dwight Eisenhower and Douglas MacArthur to some nearly forgotten Taaffe explores how and why Marshall selected the Army's commanders Among his chief criteria were character including unselfish and devoted purpose education whether at West Point Fort Leavenworth or the Army War College and striking a balance between experience and relative youth in a war that required both wisdom and great physical stamina As the war unfolded Marshall also factored into his calculations the combat leadership his generals demonstrated and the opinions of his theater commanders Taaffe brings into sharp focus the likes of Eisenhower MacArthur George Patton Omar Bradley Walter Krueger

Robert Eichelberger Courtney Hodges Lucian Truscott J Lawton Collins Alexander Sandy Patch Troy Middleton Matthew Ridgeway Mark Clark and twenty five other generals who served in the conflict He describes their leadership and decision making processes and provides miniature biographies and personality sketches of these men drawn from their personal papers official records and reflections of fellow officers Delving deeper than other studies this path breaking work produces a seamless analysis of Marshall s selection process of operational level commanders Taaffe also critiques the performance of these generals during the war and reveals the extent to which their actions served as stepping stones to advancement Ambitious in scope and filled with sharp insights Marshall and His Generals is essential reading for anyone interested in World War II and military leadership more generally The Japanese Empire Disaster Jean Sénat Fleury,2021-01-22 The book demonstrates that even if during the first period of the Shwa era 1931 1945 the real driving force to war was the Japanese military Hirohito as supreme commander gave full support to the army On multiple occasions as an emperor he sanctioned many government policies Accordingly he was responsible for the war and for the atrocities that the Japanese troops committed in Asia during the Pacific War Japan s Empire Disaster is a book of information and training a reference document that should be read as an educational tool on the history of the modernization of Japan and the war launched by Emperor Meiji and Hirohito to build Japan Empire in the Pacific and East Asia The book shares the view of the author on Hirohito s responsibility on the events that marked Japan s entry into the war that began when Japanese troops invaded Manchuria on September 19 1931 and culminated with Japan s surprise attack on the U S naval base at Pearl Harbor on December 7 1941 **Great Military Leaders** William T. Worthington,2002 Great Military Leaders A Bibliography with Vignettes The Ghost Mountain Boys James Campbell,2008-09-30 A harrowing portrait of a largely forgotten campaign that pushed one battalion to the limits of human suffering Despite their lack of jungle training the 32nd Division s Ghost Mountain Boys were assigned the most grueling mission of the entire Pacific campaign in World War II to march over the 10 000 foot Owen Stanley Mountains to protect the right flank of the Australian army during the battle for New Guinea Reminiscent of the classics like Band of Brothers and The Things They Carried The Ghost Mountain Boys is part war diary part extreme adventure tale and through letters journals and interviews part biography of a group of men who fought to survive in an environment every bit as fierce as the enemy they faced Theirs is one of the great untold stories of the war Superb Chicago Sun Times Campbell started out with history but in the end he has written a tale of survival and courage of near mythic proportions America in WWII magazine In this compelling and sprightly written account Campbell shines a long overdue light on the equally deserving heroes of the Red Arrow Division Military com **Great Warrior Leaders/thinkers** ,1994 *Why Air Forces Fail* Robin Higham,Stephen J. and Kokoda in 1942 reawakened interest in these milestones in Australia's struggle for independence. Despite the well-known exploits of Australian servicemen in a score of famous battles, Australia's contribution to the war was ultimately determined by the strategic policy makers in Canberra, Washington, and London. How competent were our politicians, military leaders, and advisers in formulating our own war strategy? How much did the performance of Australian troops on the battlefield affect our ability to influence allied strategy? The author describes the clash between Generals Rowell and Blamey in Greece. He reveals the impact of the secretary of the Department of Defence, Sir Frederick Shedden, on strategic policy making. He analyses the role of intelligence, especially signals intelligence, in allied strategy. He shows how Blamey's miscalculation in 1944 removed any chance of Australian troops joining the Americans in the Philippines. And he reveals how a British admiral challenged the authority of the Australian government. High Command presents the remarkable full story of the political battles behind the military battles.

Naval War College Review, 1993 *The War Beat, Pacific* Steven Casey, 2021-04-05. The definitive history of American war reporting in the Pacific theater of World War II from the attack on Pearl Harbor to the atomic bombings of Hiroshima and Nagasaki. After almost two years slogging with infantrymen through North Africa, Italy, and France, Ernie Pyle immediately realized he was ill-prepared for covering the Pacific War. As Pyle and other war correspondents discovered, the climate, the logistics, and the sheer scope of the Pacific theater had no parallel in the war America was fighting in Europe. From Pearl Harbor to Hiroshima and Nagasaki, *The War Beat Pacific* provides the first comprehensive account of how a group of highly courageous correspondents covered America's war against Japan: what they witnessed, what they were allowed to publish, and how their reports shaped the home front's perception of some of the most pivotal battles in American military history. In a dramatic and fast-paced narrative based on a wealth of previously untapped primary sources, Casey takes us from MacArthur's doomed defense on the Philippines and the navy's overly strict censorship policy at the time of Midway through the bloody battles on Guadalcanal, New Guinea, Tarawa, Saipan, Leyte, and Luzon, Iwo Jima, and Okinawa, detailing the cooperation as well as conflict between the media and the military as they grappled with the enduring problem of limiting a free press during a period of extreme crisis. *The War Beat Pacific* shows how foreign correspondents ran up against practical challenges and risked their lives to get stories in a theater that was far more challenging than the war against Nazi Germany, while the US government blocked news of the war against Japan and tried to focus the home front on Hitler and his atrocities.

U.S. Army Divisions of the Pacific War Stephen R. Taaffe, 2024-08-14. A new narrative and analytic history of the twenty US Army divisions that fought in the Pacific War. Despite the prevailing view that the Marine Corps bore the brunt of the fighting in the Pacific War, the men of the US Army played a decisive role in the conflict. Indeed, GIs did most of the war's heavy lifting on the ground by conducting more amphibious assaults and prosecuting more operations than the Marines. By the end of the war, there were 1.77 million US Army troops in the Pacific and Asia, compared to the USMC's 484,000. The Pacific was as much the Army's war as the fighting in the European theater.

The U S Army deployed twenty combat divisions to fight in the Pacific including famous ones such as the 1st Cavalry Division and the 25th Tropic Lightning Division Most were infantry and included Regular National Guard and draftee divisions The divisions were deployed and maneuvered by theater field army and corps commanders around the Pacific s geostrategic chessboard to battle and defeat the Japanese The Army may have wanted its divisions to be interchangeable and uniform but this proved impossible Their quality and performance depended upon their resources the geography and terrain on which they fought experience leadership and organizational culture Historians though have made little effort to examine their records in a systematic way before now In addition almost all of the Army s divisions some after admittedly rocky starts became units capable of winning their engagements Indeed not a single Army division fighting the Japanese during the American counteroffensive across the Pacific was completely destroyed in combat Whatever problems these divisions faced tended to grow out of the society that produced them not fundamental flaws in Army doctrine This is a tribute to the Army as a whole and to the twenty divisions that the Army deployed against the Japanese This new history uses a narrative approach to describe and analyze each division s history characteristics and battles during the conflict concluding with an assessment of their battlefield records taking into account the innumerable factors affecting their combat performance
