perspective examples of South Asian emigrants in Suriname Mauritius East Africa Canada and the United Kingdom are deployed in order to show that in each of these regions there are South Asian emigrants who do not fit into the Indian diaspora concept raising questions about the effectiveness of the diaspora as an academic and sociological index and presenting new and controversial insights in diaspora issues *The Diaspora Strikes Back* Juan Flores, 2010-04-02 In *The Diaspora Strikes Back* the eminent ethnic and cultural studies scholar Juan Flores flips the process on its head what happens to the home country when it is being constantly fed by emigrants returning from abroad He looks at how Nuyoricans Puerto Rican New Yorkers have transformed the home country introducing hip hop and modern New York culture to the Caribbean island While he focuses on New York and Mayaguez in Puerto Rico the model is broadly applicable Indians introducing contemporary British culture to India New York Dominicans bringing slices of New York culture back to the Dominican Republic Mexicans bringing LA culture from fast food to heavy metal back to Guadalajara and Monterrey This ongoing process is both massive and global and Flores novel account will command a significant audience across disciplines

Gabaccia, 2013-10-18 Italy's residents are a migratory people Since 1800 well over 27 million left home but over half also returned home again As cosmopolitans exiles and workers of the world they transformed their homeland and many of the countries where they worked or settled abroad But did they form a diaspora Migrants maintained firm ties to native villages cities and families Few felt much loyalty to a larger nation of Italians Rather than form a nation unbound the transnational lives of Italy's migrants kept alive international regional cultures that challenged the hegemony of national states around the world This ambitious and theoretically innovative overview examines the social cultural and economic integration of Italian migrants It explores their complex yet

distinctive identity and their relationship with their homeland taking a comprehensive approach *Diasporas and Interculturalism in Asian Performing Arts* Hae-kyung Um, 2004-11-04 A wide range of performing arts and practices of the Asian diasporas across the world are examined by scholars of Asian studies theatre studies anthropology cultural studies dance ethnology and ethnomusicology **Routledge Handbook of Diaspora Studies** Robin Cohen, Carolin Fischer, 2018-09-03 The word diaspora has leapt from its previously confined use mainly concerned with the dispersion of Jews Greeks Armenians and Africans away from their natal homelands to cover the cases of many other ethnic groups nationalities and religions But this horizontal scattering of the word to cover the mobility of many groups to many destinations has been paralleled also by vertical leaps with the word diaspora being deployed to cover more and more phenomena and serve more and more objectives of different actors With sections on debating the concept complexity home and home making connections and critiques the Routledge Handbook of Diaspora Studies is likely to remain an authoritative reference for some time Each contribution includes a targeted list of references for further reading The editors have carefully blended established scholars of diaspora with younger scholars looking at how diasporas are constructed from below The adoption of a variety of conceptual perspectives allows for generalization contrasts and comparisons between cases In this exciting and authoritative collection over 40 scholars from many countries have explored the evolving use of the concept of diaspora its possibilities as well as its limitations This Handbook will be indispensable for students undertaking essays debates and dissertations in the field *African Transnational Diasporas* D. Pasura, 2014-05-19 Pasura proposes a framework for understanding African diasporas as core epistemic dormant and silent diasporas The book explores the origin formation and performance of the Zimbabwean transnational diaspora in Britain and examines how the diaspora is constituted in the hostland and how it maintains connections with the homeland **The Palestinian Diaspora** Helena Lindholm Schulz, 2005-07-27 Schulz examines the ways in which Palestinian identity has been formed in the diaspora through constant longing for a homeland lost In so doing the author advances the debate on the relationship between diaspora and the creation of national identity Guangdong and Chinese Diaspora Yow Cheun Hoe, 2013-06-26 China's rapid economic growth has drawn attention to the Chinese diasporic communities and the multiple networks that link Chinese individuals and organizations throughout the world Ethnic Chinese have done very well economically and the role of the Chinese Diaspora in China's economic success has created a myth that their relations with China is natural and primordial and that regardless of their base outside China and generation of migration the Chinese Diaspora are inclined to participate enthusiastically in China's social and economic agendas This book seeks to dispel such a myth By focusing on Guangdong the largest ancestral and native homeland it argues that not all Chinese diasporic communities are the same in terms of mentality and orientation and that their connections to the ancestral homeland vary from one community to another Taking the two Cantonese speaking localities of Panyu and Xinyi Yow Cheun Hoe examines the hierarchy of power and politics of

these two localities in terms of their diasporic kinsfolk in Singapore and Malaysia in comparison with their counterparts in North America and Hong Kong The book reveals that particularly in China's reform era since 1978 the arguably primordial sentiment and kinship are less than crucial in determining the content and magnitude of linkages between China and the overseas Chinese Rather it suggests that since 1978 business calculation and economic rationale are some of the key motivating factors in determining the destination and degree of diasporic engagement Examining various forms of Chinese diasporic engagement with China this book will appeal to students and scholars of Chinese Diaspora Chinese culture and society Southeast Asian culture and society and ethnicity Diaspora Politics Gabriel Sheffer, 2003-04-10 This book is intended to fill in a gap in the study of modern ethno national diasporas Thus against the background of current trends globalization democratization the weakening of the nation state and massive transstate migration it examines the politics of historical modern and incipient ethno national diasporas It argues that unlike the widely accepted view ethno national diasporism and diasporas do not constitute a recent phenomenon Rather this is a perennial phenomenon whose roots were in antiquity Some of the existing diasporas were created in antiquity some during the Middle Ages and some are modern An essential aspect of this phenomenon is the endless cultural social economic and especially political struggle of these dispersed ethnic groups that permanently reside in host countries away from their homelands to maintain their distinctive identities and connections with their homelands and other dispersed groups of the same nation While describing and analyzing the diaspora phenomenon the book sheds light on theoretical questions pertaining to current ethnicity and politics

*Diaspora and Transnationalism* Rainer Bauböck, Thomas Faist, 2010 Diaspora transnationalism are widely used concepts in academic political discourses Although originally referring to quite different phenomena they increasingly overlap today Such inflation of meanings goes hand in hand with a danger of essentialising collective identities This book analyses this topic **Reading Chinese Transnationalisms** Maria N. Ng, Philip Holden, 2006-07-01 Reading Chinese Transnationalisms responds to the growing interest in transnational cultural studies by examining Chinese transnationalism from a variety of perspectives In interrogating social practices and literary and filmic texts which frequently cross national borders in imagining Chineseness the contributors to this volume also challenge received notions of Chinese transnationalism opening up new perspectives on the topic The structure of the book is clearly subdivided into sections on society literature and films for quick reference and each essay is written in accessible language without sacrificing intellectual rigor and critical relevance The international list of contributors and the wide ranging subjects they address make Reading Chinese Transnationalisms a unique work in its field This volume will appeal to all with an interest in Chinese transnationalism and in particular those who come from a variety of disciplinary backgrounds in the humanities and social science **Megatrends of World Politics** Marina M. Lebedeva, Denis A. Kuznetsov, 2022-12-19 Megatrends of World Politics identifies globalization integration and democratization as three key trends shaping the future of world politics and international relations and

demonstrates their effects in today's global processes. The authors of this book discuss the essence of these three megatrends of world politics, describing their dynamic and non-linear development and exploring how they manifest themselves. Assessing megatrends of world politics makes it possible to predict further global political development. The authors proceed from several assumptions: 1) megatrends are global; they operate everywhere around the globe, although with different intensity and in diverse forms; 2) they influence and sometimes generate a variety of other trends in today's world politics; and 3) megatrends are political. The three megatrends—globalization, integration, and democratization—are identified and justified based on these three parameters. Then the authors analyze the influence and manifestation of megatrends in various spheres of world politics, including terrorism, transregionalism, communication technologies, migration, pandemics, and subnational regions. This book will be of interest to students, scholars, and researchers of international relations and adjacent fields who are studying the trajectories of global development, globalization, integration, and democratization.

Shifting Transnational Bonding in Indian Diaspora Ruben Gowricharn, 2020-05-26. This volume examines Indian diasporic communities in various countries, including the United Kingdom, Trinidad, Portugal, Netherlands, and Fiji, among others, and presents new perspectives on the shifting nature of Indian transnationalism. The book discusses how migrant communities reinforce the diaspora and retain a group identity while at the same time maintaining a bond with their homelands. Highlights new tendencies in the configuration of Indian transnationalism, especially cultural entanglements with the host countries and the differentiation of homelands. Studies forces affecting bonding among these communities, such as global and local encounters, glocalisation, as well as economic, political, and cultural changes within the Indian state and the wider Indian diaspora. Featuring a diverse collection of essays rooted in robust fieldwork, this volume will be of great importance for students and researchers of diaspora studies, globalization and transnational migration, cultural studies, minority studies, sociology, political studies, international relations, and South Asian studies.
