Fuller,1996 Wine more than any other food or beverage is intimately associated with religious experience and celebratory rituals Nowhere is this seen more clearly than in American cultural

history From the Pilgrims at Plymouth Rock to the Franciscans and Jesuits who pioneered California's Mission Trail many American religious groups have required wine to perform their sacraments and enliven their evening meals This book tells the story of how viniculture in America was started and sustained by a broad spectrum of religious denominations In the process it offers new insights into the special relationship between wine production and consumption and the spiritual dimension of human experience Robert Fuller's historical narrative encompasses a fascinating array of groups and individuals and the author makes some provocative connections between the love of wine and the particularities of religious experience For example he speculates on the ways in which Thomas Jefferson's celebrated knowledge of wine related to his cultural sophistication and free thinking outlook on matters of religion and spirituality Elsewhere he describes how a number of nineteenth century communal groups including the Rappites the Amana colonies the Mormons and the spiritualist colony called the Brotherhood of the New Life helped to spread the religious use of wine across a vast new nation Fuller describes and analyzes the role of wine drinking in promoting community solidarity and facilitating a variety of religious experiences ranging from the warm glow of ritualized camaraderie to the ecstasy of immediate contact with otherwise hidden spiritual realms He also devotes a chapter to the rise of temperance and prohibitionist sentiments among fundamentalist Christians and their subsequent attack on wine drinking The book's concluding chapter features an insightful analysis of the ritual dimensions of contemporary wine drinking and wine culture According to Fuller the aesthetic experiences and communal affirmation that some religious groups have historically associated with the enjoyment of wine have passed into the practice of popular or unchurched religion in the United States

de Verrazzano the Italian explorer who first described the grapes of the New World was sure that they would yield excellent wines And when the English settlers found grapes growing so thickly that they covered the ground down to the very seashore they concluded that in all the world the like abundance is not to be found Thus from the very beginning the promise of America was in part the alluring promise of wine How that promise was repeatedly baffled how its realization was gradually begun and how at last it has been triumphantly fulfilled is the story told in this book It is a story that touches on nearly every section of the United States and includes the whole range of American society from the founders to the latest immigrants Germans in Pennsylvania Swiss in Georgia Minorcans in Florida Italians in Arkansas French in Kansas Chinese in California all contributed to the domestication of Bacchus in the New World So too did innumerable individuals institutions and organizations Prominent politicians obscure farmers eager amateurs sober scientists these and all the other kinds and conditions of American men and women figure in the story The history of wine in America is in many ways the history of American origins and of American enterprise in microcosm While much of that history has been lost to sight especially after Prohibition the recovery of the record has been the goal of many investigators over the years and the results are here brought together for the first time In print in its entirety for the first time A History of Wine in America is the most comprehensive account of winemaking in the United States from the Norse discovery of native grapes in 1001 A D through Prohibition and up to the present expansion of winemaking in every state

Grapes into Wine Philip M.

Wagner, 2011-04-13 As the first to write a basic book in English on winemaking from the winemaker's point of view Philip Wagner has long been considered an authority on the subject and his book American Wines and Wine Making has become a bible for small producers and home winemakers in this country Now in this completely new version of that classic Mr Wagner takes into account the many dramatic changes that in recent years have revolutionized the American wine scene With the knowledge that comes from his own experimentation Mr Wagner discusses the new successful hybrids that have now made it possible to grow wine producing grapes in far more areas of the United States than used to be considered feasible Once again he covers all the basic technical information including recent developments important to the small commercial winery and to the home producer from the choice of the right vines to the vintage itself the care of the new wines and finally the bottling of the wine red white and ros sparkling and sweet There is a new chapter on concentrates for the growing number of people who want to make wine but are not close to a source for suitable grapes or haven't the space to work with fresh materials Mr Wagner describes what concentrates are how they are made what the characteristics are of different types and what to expect There are specific instructions on procedure and on the necessary and unnecessary equipment In addition Philip Wagner's introductory chapters on the evolution of the wine grape on European winegrowing and on the contemporary scene throughout the United States provide an excellent guide for the consumer as does his concluding chapter on tasting and using wine Peppered throughout with a wealth of historical and anecdotal material as well as down to earth experience

and full of the author's appreciation of wine and winemaking as a way of life this book is not only a useful guide but delightful and rewarding reading
