European Foreign Policy Simon J. Nuttall, 2000 This study traces the development of the European Union's foreign policy making from the old governmental co operation EPC to the common foreign and security policy introduced by the Maastricht Treaty It is the first time the process had been explained from a comprehensive historical and political viewpoint The impact of the fall of communism as well as the Gulf War and the early stages of the conflict in Yugoslavia are analyzed in detail The personal roles played by Mitterrand Kohl and Bush are also vividly described **Memorylands** Sharon

Macdonald, 2013-07-18 Memorylands is an original and fascinating investigation of the nature of heritage memory and understandings of the past in Europe today It looks at how Europe has become a memoryland littered with material reminders of the past such as museums heritage sites and memorials and at how this memory phenomenon is related to the changing nature of identities especially European national and cosmopolitan In doing so it provides new insights into how memory and the past are being performed and reconfigured in Europe and with what effects Drawing especially though not exclusively on cases concepts and arguments from social and cultural anthropology Memorylands argues for a deeper and more nuanced understanding of the cultural assumptions involved in relating to the past It theorizes the various ways in which materializations of identity work and relates these to different forms of identification within Europe The book also addresses questions of methodology including discussion of historical ethnographic interdisciplinary and innovative methods Through a wide range of case studies from across Europe Sharon Macdonald argues that Europe is home to a much greater range of ways of making the past present than is usually realized and a greater range of forms of historical consciousness At the same time however she seeks to highlight what she calls the European memory complex a repertoire of prevalent patterns in forms of recollection and past presencing The examples in Memorylands are drawn from both the margins and metropolitan centres from the relatively small scale and local the national and the avant garde The book looks at pasts that are potentially identity disrupting or difficult as well as those that affirm identities or offer possibilities for transcending national identities or articulating more cosmopolitan futures Topics covered include authenticity temporalities embodiment

commodification nostalgia and Ostalgie the musealization of everyday and folk life Holocaust commemoration and tourism narratives of war the heritage of Islam transnationalism and the future of the past Memorylands is engagingly written and accessible to general readers as well as offering a new synthesis for advanced researchers in memory and heritage studies It is essential reading for those interested in identities memory material culture Europe tourism and heritage **Austrian Information** ,1990 New European Architecture 08/09 Hans Ibelings,Kirsten Hannema,2009 **Retail Depositor and Retail Investor Protection under EU Law** Constantinos Tokatlides,2017-02-10 Retail Depositor and Retail Investor Protection under EU Law offers an original perspective on EU financial law in the area of retail investor protection examining the status of protection awarded by EU law to retail depositors and retail investors in the event of financial institution failure The analysis of relevant EU law is on the basis of effectiveness and has been elaborated in two levels of comparison The first comparative approach examines relevant EU law both externally and internally externally vis vis relevant international initiatives and developments in the area of financial law as the latter affect the features and evolution of EU law and internally by examining relevant instruments of EU law with regard to each other as to their normative structure and content The second comparative approach also examines the status of retail depositors in relation to that of retail investors under EU law in the event of financial institution failure and the relevant legal consequences thereof **Modern Architecture** Frank Lloyd Wright,2008 Modern concepts concerning an organic architecture from the work of Frank Lloyd Wright on lining papers *Memorializing the Middle Classes in Medieval and Renaissance Europe* Anne Leader,2018-12-17 Offering a broad overview of memorialization practices across Europe and the Mediterranean this book examines local customs through particular case studies These essays explore complementary themes through the lens of commemorative art including social status personal and corporate identities the intersections of mercantile intellectual and religious attitudes upward and downward mobility and the cross cultural exchange **Europe Undivided** Milada Anna Vachudova,2005-02-17 Europe Undivided analyzes how an enlarging EU has facilitated a convergence toward liberal democracy among credible future members of the EU in Central and Eastern Europe It reveals how variations in domestic competition put democratizing states on different political trajectories after1989 and how the EU s leverage eventually influenced domestic politics in liberal and particularly illiberal democracies In doing so Europe Undivided illuminates the changing dynamics of the relationship between the EU and candidate states from 1989 to 2004 and challenges policymakers to manageand improve EU leverage to support democracy ethnic tolerance and economic reform in other candidates and proto candidates such as the Western Balkan states Turkey and Ukraine Albeit not by design the most powerful and successful tool of EU foreign policy has turned out to be EU enlargement and this book helps us understand why and how it works Articulating Europe Jonas Frykman,Péter Niedermüller,2003 This reprint of a collection of articles addresses the challenges that European ethnology is facing Representing a variety of localities they give new insights and perspectives to the importance of doing empirical
