How China Sees the World John M. Friend, Bradley A. Thayer, 2018-11-01 Han centrism a virulent form of Chinese nationalism asserts that the Han Chinese are superior to other peoples and have a legitimate right to advance Chinese interests at the expense of other countries Han nationalists have called for policies that will allow China to reclaim the prosperity stolen by foreign powers during the Century of Humiliation The growth of Chinese capabilities and Han centrism suggests that the United States its allies and other countries in Asia will face an increasingly assertive China one that thinks it possesses a right to dominate international politics John M Friend and Bradley A Thayer explore the roots of the growing Han nationalist group and the implications of Chinese hypernationalism for minorities within China and for international relations The deeply rooted chauvinism and social Darwinism underlying Han centrism along with China's rapid growth threaten the current stability of international politics making national and international competition and conflict over security more likely Western thinkers have yet to consider

the adverse implications of a hypernationalistic China as opposed to the policies of a pragmatic China were it to become the world's dominant state

End of an Era Carl Minzner, 2018-02-01 China's reform era is ending. Core factors that characterized it—political stability, ideological openness, and rapid economic growth—are unraveling. Since the 1990s, Beijing's leaders have firmly rejected any fundamental reform of their authoritarian one-party political system, and on the surface their efforts have been a success. But as Carl Minzner shows, a closer look at China's reform era reveals a different truth. Over the past three decades, a frozen political system has fueled both the rise of entrenched interests within the Communist Party itself and the systematic underdevelopment of institutions of governance among state and society at large. Economic cleavages have widened. Social unrest has worsened. Ideological polarization has deepened. Now, to address these looming problems, China's leaders are progressively cannibalizing institutional norms and practices that have formed the bedrock of the regime's stability in the reform era. *End of an Era* explains how China arrived at this dangerous turning point and outlines the potential outcomes that could result.

China's Digital Presence in the Asia-Pacific Michael Keane, Haiqing Yu, Elaine J. Zhao, Susan Leong, 2020-12-15 China's Digital Presence in the Asia Pacific explores China's digital presence in the Asia Pacific region. Drawing on political economy of the media industry, analysis, platform studies, and cultural policy studies, the book shows that China's commercial digital platforms are increasingly recognized outside China and can disseminate Chinese culture more effectively than government-supported media. It illustrates how these platforms are contributing to Chinese cultural influence, their perceived reputation, and obstacles in the region while pursuing a combined approach of culture industry, internet, and platform. In considering the multi-layered rise of the China argument, the book considers its growing technological status as an innovative nation through four policy approaches: culture industry, Internet, and platform. Other characterizations include intelligent and social. These characterizations show how China is rejuvenating, drawing technological knowhow from the region, and adding to its cultural and soft power. The book focuses on six locations: Hong Kong, Taiwan, Singapore, Malaysia, Australia, and New Zealand. The authors analyze Beijing's changing policies towards the governance of culture, Internet technologies, and digital platforms, as well as examining consumer perceptions of China and Chinese products in the Asia Pacific region. In using the characterizations, the authors provide a comprehensive analysis of how Chinese cultural and creative industries became digital, as well as investigating the key players and the leading platforms, including Alibaba, Tencent, ByteDance, TikTok, Baidu, iQiyi, and Meituan.

Panda Nation E. Elena Songster,2018-03-16 A logo on products ranging from chopsticks and toilet paper to cell phones and automobiles the panda is one of the most ubiquitous images in China and throughout the world Yet the panda holds little notable historical significance in China Although it has existed in the territory of present day China since the Pliocene epoch its widespread popularity there is not only recent but almost sudden In Panda Nation E Elena Songster links the emergence of the giant panda as a national symbol to the development of nature protection in the People s Republic of China The panda s transformation into a national treasure exemplifies China s efforts in the mid twentieth century to distinguish itself as a nation through government directed science and popular nationalism The story of the panda s iconic rise offers a striking reflection of China s recent and dramatic ascent as a nation in global status

Times of Creative Destruction Alexander Tzonis,Liane Lefaivre,2016-12-08 Times of Creative Destruction is about the years that followed the end of WWII one of the most seminal and dramatic epochs in human history during which extraordinary star buildings were born cities exploded and an unprecedented world of a Third Ecology emerged Never before was there such a flurry of daring mega constructions such daring spatial acrobatics star buildings by star architects attained by star developers mega constructions technological feats and flourishing spatial acrobatics But for all its exhilarating creativity this was also an era of unanticipated intractable irreversible destruction reducing the uniqueness and diversity of cultural social and ecological peaks and valleys of our world to a desert flatland environmental inequality and unhappiness This book critically discusses and reevaluates these contradictory events bringing together and commenting on a selection of shorter key texts by Tzonis and Lefaivre the product of a rare research and writing partnership The texts published between the early 1960s and the present are

significant as documents that inform about the period They are also important and timely because of their critical and influential role in the debates of this era both creative and destructive **The Politics of Chinese Media** Bingchun Meng, 2018-01-09 This book offers an analytical account of the consensus and contestations of the politics of Chinese media at both institutional and discursive levels It considers the formal politics of how the Chinese state manages political communication internally and externally in the post socialist era and examines the politics of news media focusing particularly on how journalists navigate the competing demands of the state the capital and the urban middle class readership The book also addresses the politics of entertainment media in terms of how power operates upon and within media culture and the politics of digital networks highlighting how the Internet has become the battlefield of ideological contestation while also shaping how political negotiations are conducted Bearing in mind the contemporary relevance of China's socialist revolution this text challenges both the liberal universalist view that presupposes the end of history and various versions of China exceptionalism which downplay the impact of China's integration into global capitalism China's Millions ,1903
