Health Care Economics John B. Davis, Robert McMaster, 2017-06-01 The analytical approach of standard health economics has so far failed to sufficiently account for the nature of care This has important ramifications for the analysis and valuation of care and therefore for the pattern of health and medical care provision This book sets out an alternative approach which places care at the center of an economics of health showing how essential it is that care is appropriately recognized in policy as a means of enhancing the dignity of the individual Whereas traditional health economics has tended to eschew value issues this book embraces them introducing care as a normative element at the center of theoretical analysis Drawing upon care theory from feminist works philosophy nursing and medicine and political economy the authors develop a health care economics with a moral basis in health care systems In providing deeper insights into the nature of care and caring this book seeks to redress the shortcomings of the standard approach and contribute to the development of a more person based approach to health and medical care in economics Health Care Economics will be of interest to researchers and postgraduate students in health economics heterodox economists and those interested in health and medical care

Ethnographic Inquiry and Lived Experience Wing-Chung Ho,2019-01-15 Ho addresses two fundamental theoretical questions about how best to practice ethnographic inquiries to obtain qualitative experience near and shareable accounts of human living The first question is regarding the epistemology of ethnography Ho posits that writing is epistemologically prior to the researcher s fieldwork experience in the production of ethnographic knowledge This stance is developed using the theories of hermeneutics put forward by Paul Ricoeur and Hans Georg Gadamer who both consider that once a text is produced its meaning is dissociated from the intention of the author The second question is what is the putative object that the ethnographer writes about Ho argues that lived experience *Erlebnis* offers such an ethnographic object Since the lived experience that an ethnographer experiences during fieldwork cannot be studied directly further theorizations of lived experience are necessary Ho underscores both the non discursivity and transcendence of lived experience in the lifeworld and the way power is clandestinely imbued in everyday life in shaping subjectivity and practice This theorization brings together Alfred Schutz s lifeworld theory and Michel Foucault s power knowledge nexus The result is a general theory of experience that is pertinent for ethnographic inquiries By addressing these two fundamental questions and offering novel angles from which to answer them this book offers refreshed epistemological guidelines for conducting ethnographic research for scientific reasoning More importantly this book also provides a crucial knowledge base for comprehending the current epistemological debates inherent in the production of ethnographic knowledge and furthering discussions in the field

The Heart of Justice Daniel Engster,2007-04-26 The Heart of Justice proposes a new framework of political justice based upon the practice of caring Integrating the insights of earlier care theorists with the concerns of traditional justice theorists Engster forges a new synthesis between care and justice and further argues that the institutional and policy commitments of care theory must be recognized as central to any adequate theory of justice Engster begins by offering a practice based account of caring and a theory of obligation that explains why individuals should care for others He then systematically demonstrates the implications of this account of caring for domestic politics economics international relations and culture In each of these areas he reviews the contributions of earlier care theorists and then extends their arguments to provide a more complete description of the institutions and policies of a caring society Care ethics is further put in dialogue with diverse cultural and religious traditions and used to address the challenges of multicultural justice cultural relativism and international human rights More fully than other works on care theory this book provides an overarching account of the institutions and policies of a caring society The Heart of Justice provides the first full account of a theory of justice based upon care ethics and should be of interest to anyone interested in thinking about the nature of our moral obligations and the institutions of a just society

Moral Argument, Religion, and Same-Sex Marriage Gordon A. Babst,Emily R. Gill,Jason A. Pierceson,2009-09-03 The diverse expert contributors to this volume from the fields of politics and law use moral argumentation with respect to same sex marriage gay rights in general and California s Prop 8 The arguments are advanced in terms of the nation s foundational political and legal principles extending ethical argumentation to important contemporary public policy areas such as marriage the separation of church and state and the rearing of children Several chapters also contest the perceived if not actual establishment in the law and public policy of heterosexist and religious bias that continues to work against full and meaningful inclusion of sexual minorities This bias is ironically and improperly couched in the language of American political and religious values and it misunderstands the nation s core principles or willfully miscasts them as inapplicable to many Americans and their families

Nonetheless this bias is pervasive in the nation's political discourse working to deny an important right and the recognition of equality to many citizens The main contribution of *Moral Argument Religion and Same Sex Marriage* is in its direct engagement with the political and legal arguments of the gay community's critics on their own moral and ethical terms Along the way important concepts in public discourse such as governmental neutrality the right to marry and religious freedom are presented and cast in the light of liberal democratic theory
