New Great Game In Muslim Central Asia:

The New Great Game in Muslim Central Asia Mohammed E. Ahrari, 1996 *The New Great Game in Muslim Central Asia* Mohammed E. Ahrari, James Beal, 2000-07 **The New Great Game in Muslim Central Asia** M.E. Ahrari, James Beal, National Defense University. Institute for National Strategic Studies, 1966 *The New Great Game in Muslim Central Asia* Gordon Press Publishers, 1997-06 Jihadi Groups, Nuclear Pakistan, and the New Great Game Mohammed E. Ahrari, 2001 For the United States and other nations concerned with security in South and Central Asia one of the most ominous trends has been the growing influence of Jihadist groups in Pakistan which feel obligated to wage holy war against everything that they perceive as non Islamic Their objective would be a Pakistani government similar to the Taliban regime in Afghanistan The danger this would pose to regional stability and U S interests is clear The author assesses Jihadi groups from the framework of a new Great Game for influence in Central Asia involving an array of states He argues that if this competition leads to increased violence outside states including the United States could be drawn in On the other hand if the region stabilizes it could provide solid economic and political partners for the United States A well designed American strategy Ahrari contends might help avoid crises or catastrophe SSI summary **Jihadi Groups, Nuclear Pakistan, and the New Great Game , The New Great Game In Muslim Central Asia... McNair Paper 47... U.S. Department Of Defense** National Defense University, 1998* Oil, Islam, and Conflict Robert Johnson, 2007-10-15 The author looks at the policies of the Central Asian governments that includes their attitudes to democratic reform human rights energy and economic development and how these are related to civil violence **Central Asia** Ajay Patnaik, 2016-03-31 Throughout history Central Asia has formed an important strategic link between the East and the West and been described as the great pivot in the early twentieth century This book looks at the relations between the Central Asian states and major external powers It shows how these nations have kept the fragile geopolitics of the region free of the so called New Great Game The volume evaluates the roles of major powers such as Russia United States China Iran and Turkey as well as India and its Silk Road Strategy It also compares the regional geopolitics of Central Asia with its neighbour Caucasus The study indicates how despite limited inter state cooperation the region has prevented conflicts and wars due to which these states have been able to enjoy greater strategic autonomy in their dealings with other countries The book will benefit scholars and researchers of international relations political and strategic studies area studies and Central Asian studies apart from the interested general reader **Russia, the Caucasus, and Central Asia** Rajan Menon, Yuri E. Fedorov, Ghia Nodia, East West Institute, 2016-07-01 This comprehensive exploration of the international environment examines not only traditional political military concerns but also economic ethnic and environmental issues and the role of crime terrorism the drug trade and migration in the security environment of Russia and its neighbours to the south This approach takes account of both the internal and external aspects of security problems and their interplay The participation of international authors facilitates the

consideration of each problem from all relevant points of view **Central Asia in Transition: Dilemmas of Political and Economic Development** Boris Z. Rumer, 2024-11-01 The economic political and geopolitical future of Central Asia has been subject to speculation since the region emerged from under the Soviet banner With contributions from Central Asian Russian US and Japanese experts this book gives an analysis of the issues and choices facing the region Imagining Afghanistan Nivi Manchanda, 2020-07-09 An innovative exploration of how colonial interventions in Afghanistan have been made possible through representations of the country as backward Heartlands of Eurasia Anita Sengupta, 2009-07-16 Heartlands of Eurasia explores how received metageographical knowledge informs the understanding of global processes and is subsequently transformed into geopolitical reasoning with foreign policy implications It provides a detailed examination of writings from both within the region and outside that look into the significance of Halford Mackinder s heritage in the context of a vastly changed world situation In particular it attempts to examine how policy makers and strategic thinkers have used these geopolitical concepts as justification for their policy in the region Finally it attempts an analysis of the extent to which this policy thinking was translated into practice While the study looks into how the vision of the pivotal significance of a vast expanse of land finds its echoes in contemporary narratives it also underlines the very creative ways in which Mackinder s ideas have been reinterpreted in keeping with the changing global dynamics Making use of the way in which the region has been traditionally defined and the way in which the people defined themselves the study brings into focus a debate on the usefulness of region or area based studies that are located in geographical imaginations Anita Sengupta uses this connection to examine the following issues geopolitical imaginations and their relevance in identifying areas in the present context the intersection between how areas are defined from an outsider perspective and how people define themselves the extent to which these definitions have influenced policy and the possibility or feasibility of the development of alternative geostrategic discourses Mackinder himself did not specify the geographical area identified first as the pivot and later the heartland but his ideas were focused on the closed heartland of Euro Asia an area that was unassailable by sea power This study therefore centers its debates around the Eurasian space in general though the focus is on the Central Asian region and Uzbekistan in particular The book is ideal for specialists working on the Eurasian region graduate students interested in geopolitics as well as Eurasian and Central Asian studies and undergraduates studying political science and international relations **Russia and China** Michal Lubina, 2017-10-23 This book depicts the sophisticated relationship between Russia and China as a pragmatic one a political marriage of convenience Yet at the same time the relationship is stable and will remain so After all bilateral relations are usually based on pragmatic interests and the pursuit of these interests is the very essence of foreign policy And as often happens in life the most long lasting marriages are those based on convenience The highly complex complicated ambiguous and yet indeed successful relationship between Russia and China throughout the past 25 years is difficult to grasp theoretically Russian and Chinese elites are hard core realists in their

foreign policies and the neorealist school in international relations seems to be the most adequate one to research Sino Russian relations Realistically throughout this period China achieved a multidimensional advantage over Russia Yet simultaneously Russia China relations do not follow the patterns of power politics Beijing knows its limits and does not go into extremes Rather China successfully seeks to build a longterm stable relationship based on Chinese terms where both sides gain albeit China gains a little more Russia in this agenda does not necessary lose just gains a little less out of this asymmetric deal Thus a new model of bilateral relations emerges which may be called by paraphrasing the slogan of Chinese diplomacy as asymmetric win win formula This model is a kind of back to the past a contemporary equivalent of the first model of Russia China relations the modus vivendi from the 17th century achieved after the Nerchinsk treaty **Rus, Caucasus, C.as: 21st Cent Sec Env** , Intervention Narratives Purnima Bose,2020-01-17 Intervention Narratives examines the contradictory cultural representations of the US intervention in Afghanistan that help to justify an imperial foreign policy These narratives involve projecting Afghans as brave anti communist warriors who suffered the consequences of American disengagement with the region following the end of the Cold War as victimized women who can be empowered through enterprise as innocent dogs who need to be saved by US soldiers and as terrorists who deserve punishment for 9 11 Given that much of public political life now involves affect rather than knowledge feelings rather than facts familiar recurring tropes of heroism terrorism entrepreneurship and canine love make the war easier to comprehend and elicit sympathy for US military forces An indictment of US policy Bose demonstrates that contemporary imperialism operates on an ideologically diverse cultural terrain to enlist support for the war across the political spectrum Constructive Competition in the Caspian Sea Region Agha Bayramov,2022-05-19 The Caspian Sea region has hitherto largely been investigated from a New Great Game perspective that depicts the region as a geopolitical battleground between regional and external great powers where tensions have been exacerbated by the sea s rich natural resources strategic location and legal disagreements over its status This book by contrast portrays a new image of the region which still acknowledges the difficulties and problematic starting situation of power politics there It however seeks to show that there are ways forward by identifying mechanisms and means to transform the New Great Game into processes of functional co operation Drawing on theoretical insights from a functionalist framework this book examines three intertwined case studies namely the Baku Tbilisi Ceyhan pipeline BTC the Southern Gas Corridor SGC and the Caspian Environmental Program CEP It shows that lessons learned from environmental co operation have influenced the discussion over the uncertain legal status of the sea which culminated in the signing in 2018 of the Convention on the legal status of the Caspian Sea This book analyzes the three phases of the BTC and the SGC projects the planning of the pipeline its construction and its use none of which have been adequately addressed yet This book illustrates the increasing role of actors beyond and besides the states in the Caspian Sea region such as transnational corporations non governmental organizations and intergovernment organizations Indian Defence Review (Jul-Sep 2018)

Islam in Central Asia and the Caucasus Since the Fall of the Soviet Union Bayram Balci, 2018 Provides a sophisticated account of both the internal dynamics and external influences in the evolution of Islam in the region *Identity and Politics in Central Asia and the Caucasus* Mohammed Ayoob, Murad Ismayilov, 2015-02-20 The multicultural region of Central Eurasia is living through its early post independence years and as such serves as an ideal case to study and analyse theories of identity and foreign policy in a non European context Looking to re introduce identity as a multidimensional factor informing state behaviour this book analyses the experiences of the different Central Eurasian states in their post independence pursuits The book is structured into two broadly defined sections with the first half examining the different ways in which the combination of domestic regional international and trans national forces worked to advance one national identity over the others in the states that comprise the region of post Soviet Central Eurasia In the second half chapters analyse the many ways in which identity once shaped affected foreign policy behaviours of the regional states as well as the overall security dynamics in the region The book also looks at the ways in which identity by doing so enjoys an intricate mutually constitutive relationship with the strategic context in which it bears its effects on the state and the region Finally given the special role Russia has historically played in defining the evolutionary trajectory of the regional states the book discusses the ways in which Russia itself and its post cold war policies towards its former colonies have been conditioned by factors associated with Russia's evolving post Soviet identity Placing the region firmly within existing theories of identity and state practices the book will be of interest to
