New Harmony As Seen By Participants And Travelers:

Heaven On Earth Joshua Muravchik, 2003-11-25 Socialism was man's most ambitious attempt to supplant religion with a doctrine claiming to ground itself in science. Indeed, no religion ever spread so far so fast. Yet while socialism had established itself as a fact of life by the beginning of the 20th century, it did not create societies of abundance or give birth to the New Man. Each failure inspired new searches for the path to the promised land: revolution, communes, social democracy, Communism, Fascism, Third World socialism. None worked, and some exacted staggering human tolls. Then, after two hundred years of wishful thinking and fitful governance, socialism suddenly imploded in a fin de siècle drama of falling walls and collapsing regimes. In *Heaven on Earth*, Joshua Muravchik traces this fiery trajectory through sketches of the thinkers and leaders who developed the theory, led it to power, and presided over its collapse. We see such dreamers and doers as the French revolutionary Gracchus Babeuf, whose Conspiracy of Equals were the first to try to outlaw private property; Robert Owen, who hoped to plant a model socialist utopia in the United States; Friedrich Engels, who created the cult of Karl Marx and scientific socialism; Benito Mussolini, self-proclaimed socialist heretic and inventor of Fascism; Clement Attlee, who rejected the fanatics and set out to build socialism democratically in Britain; Julius Nyerere, who merged social democracy and communism in the hope of making Tanzania a model for the developing world; and Mikhail Gorbachev, Deng Xiaoping, and Tony Blair, who became socialism's inadvertent undertakers. Muravchik's accomplishment in *Heaven on Earth* is to tell a story filled with character and event while, at the same time, giving us an epic chronicle of a movement that tried to turn the world upside down and for a time succeeded. Dating Buildings and Landscapes with Tree-Ring Analysis Darrin L.

Rubino, Christopher Baas, 2019-05-13 This book presents guidance, theory, methodologies, and case studies for analyzing tree rings to accurately date and interpret historic buildings and landscapes. Written by two long-time practitioners in the field of dendrochronology, the research is grounded in the fieldwork data of approximately 200 structures and landscapes. By scientifically analyzing the tree rings of historic timbers, preservationists can obtain valuable information about construction dates, interpret the evolution of landscapes and buildings over time, identify species and provenance, and gain insight into the species matrix of local forests. Authors Darrin L. Rubino and Christopher Baas demonstrate through full-color illustrated case studies and methodologies how this information can be used to interpret the history of buildings and landscapes and assist preservation decision making. Over 1,000 samples obtained from more than 40 buildings, including high-style houses, vernacular log houses, and timber frame barns, are reported. This book will be particularly relevant for students, instructors, and professional readers interested in historic preservation, cultural landscapes, museum studies, archaeology, and dendrochronology globally. **Term Paper Resource Guide to Nineteenth-Century U.S. History** Kathleen W.

Two Hundred Years of American Communes Yaacov Oved, 2017-09-08 The United States is the only modern nation in which communes have continuously existed for the past two hundred years This definitive history of communes in America examines the major factors that have supported the existence and growth of communes throughout American history The most impressive survey of the communal experience since the works of Noyes and Nordhoff it is informed by a deep respect for the human subjects and organizational forms of American communes The findings in the analytical chapters are of considerably theoretical import beyond the historical narrative Oved details the founding growth development and sometimes failure of alternative societies from 1735 to 1939 Icaria Ephrata Oneida Shaker religious secular and socialist communes Extensive reference material cited will assure this work a special place in the archives of the literature on communes

For All the People John Curl, 2012-07-01 Seeking to reclaim a history that has remained largely ignored by most historians this dramatic and stirring account examines each of the definitive American cooperative movements for social change farmer union consumer and communalist that have been all but erased from collective memory Focusing far beyond one particular era organization leader or form of cooperation *For All the People* documents the multigenerational struggle of the American working people for social justice While the economic system was in its formative years generation after generation of American working people challenged it by organizing visionary social movements aimed at liberating themselves from what they called wage slavery Workers substituted a system based on cooperative work and constructed parallel institutions that would supersede the institutions of the wage system With an expansive sweep and breathtaking detail this scholarly yet eminently readable chronicle follows the American worker from the colonial workshop to the modern mass assembly line from the family farm to

the corporate hierarchy ultimately painting a vivid panorama of those who built the United States and those who will shape its future John Curl with over forty years of experience as both an active member and scholar of cooperatives masterfully melds theory practice knowledge and analysis to present the definitive history from below of cooperative America This second edition contains a new introduction by Ishmael Reed a new author s preface discussing cooperatives in the Great Recession of 2008 and their future in the 21st century and a new chapter on the role co ops played in the Food Revolution of the 1970s
