New History Of Sierra Leone:

A New History of Sierra Leone Joe A. D. Alie, 1985 *A New History of Sierra Leone* Joe A. D. Alie, 1990 **Free Slaves, Freetown, and the Sierra Leonean Civil War** Joseph Kaifala, 2016-11-22 This book is a historical narrative covering various periods in Sierra Leone's history from the fifteenth century to the end of its civil war in 2002. It entails the history of Sierra Leone from its days as a slave harbor through to its founding as a home for free slaves and toward its political independence and civil war. In 1462 the country was discovered by a Portuguese explorer Pedro de Sintra who named it Serra Lyoa. Lion Mountains Sierra Leone later became a lucrative hub for the Transatlantic Slave Trade. At the end of slavery in England, Freetown was selected as a home for the Black Poor, free slaves in England after the Somerset ruling. The Black Poor were joined by the Nova Scotians, American slaves who supported or fought with the British during the American Revolution. The Maroons, rebellious slaves from Jamaica, arrived in 1800. The Recaptives, freed in enforcement of British antislavery laws, were also taken to Freetown. Freetown became a British colony in 1808 and Sierra Leone obtained political independence from Britain in 1961. The development of the country was derailed by the death of its first Prime Minister, Sir Milton Margai, and thirty years after independence the country collapsed into a brutal civil war.

The Cambridge Modern History, *Sierra Leone* David John Harris, 2014 A new political history of the former British colony in West Africa, best known for its diamonds and recent violent civil war, this covers 225 years of history and fills a gap in African studies.

THE DECLINE AND FALL OF THE ATHENS OF WEST AFRICA Akibo Robinson, 2023-07-17 The country owed its name to the Portuguese explorer Pedro da Cintra, who was the first European to sight and map the Freetown Harbour. The original Portuguese name, Serra Lyoa Lion Mountains, describes the range of hills that surrounds the harbour. The capital, Freetown, commands one of the world's largest natural harbours. The country is located on the coast of West Africa, bounded on the North and East by Guinea, on the East by Liberia, and on the West by the Atlantic Ocean. It has many miles of beautiful sandy beaches. The backbone of the economy is agriculture, but it is rich in minerals: diamonds, gold, bauxite, and rutile. The book traces the rich pre-colonial history of a people whose main occupations then were agriculture and trade. Communal life was highly regulated by chiefs who presided over their subjects. These societies were governed by what is now called customary laws. The book also debunks the thinking that Pedro da Cintra discovered Sierra Leone; he was not even the first European to set foot in Sierra Leone. It traces exhaustively the exploitative rule of the British Colonial Administration until its independence on 27th April 1961. Sierra Leone is credited as being the Athens of West Africa. How this came about is explained at length. How can a small country so far removed from Athens be credited as such? The primary reason was for its learning. The first University in sub-Saharan Africa was established in Sierra Leone and it attracted students from all over the continent. Woven into this academic fabric is the politico-socio-economic development from the founding of the state up to the present. It traces the turbulent times the country has been through: coups and counter-coups, declaration of a one-party state, a

brutal 11 year civil war and the bastardisation of the constitution by various regimes since independence up to the present

History, Memory, and State-Sponsored Violence Berber Bevernage, 2013-02-14 Modern historiography embraces the notion that time is irreversible implying that the past should be imagined as something absent or distant Victims of historical injustice however in contrast often claim that the past got stuck in the present and that it retains a haunting presence History Memory and State Sponsored Violence is centered around the provocative thesis that the way one deals with historical injustice and the ethics of history is strongly dependent on the way one conceives of historical time that the concept of time traditionally used by historians is structurally more compatible with the perpetrators than the victims point of view Demonstrating that the claim of victims about the continuing presence of the past should be taken seriously instead of being treated as merely metaphorical Berber Bevernage argues that a genuine understanding of the irrevocable past demands a radical break with modern historical discourse and the concept of time By embedding a profound

philosophical reflection on the themes of historical time and historical discourse in a concrete series of case studies this project transcends the traditional divide between empirical historiography on the one hand and the so called theoretical approaches to history on the other It also breaks with the conventional analytical philosophy of history that has been dominant during the last decades raising a series of long neglected big questions about the historical condition questions about historical time the unity of history and the ontological status of present and past programmatically pleading for a new historical ethics
