Mann,2022-11-10 Marking the 125th anniversary of the birth of Roberto Gerhard this work views the composer s life and oeuvre through the lens of the Spanish Civil War exile and cultural translation Through these different threads a new and more nuanced understanding of Gerhard and the political and cultural milieu that influenced his work emerges **New Images from Spain** ,1980

Interconnecting Translation Studies and Imagology Luc van Doorslaer,Peter Flynn,Joep Leerssen,2016-02-25 Isn t translation all about saying exactly the same thing in another language Aren t national images totally outdated in this era of globalization Most people might agree but this book amply illustrates how persistent and multifaceted clich s on translation and nation can be Time and again translating involves making transfer choices and these choices are never neutral Though

globalization has seemingly all but erased national ideologies and cultural borders such ideologies and borders continue to play a determining role in conflicts identity politics and cultural profiles The place where transfer choices and forms of national and cultural representation come together is also the place where Translation Studies and Imagology meet This book offers a wealth of chapters showing how decisive selection and transfer processes can be in representing national images both self images and images of the other s It shows also how intensely the two disciplines can work together and mutually benefit from shared data and methodologies

The Last Good Land Eugenio Suárez-Galbán, 2011-01-01 Books studying the presence of Spain in American literature and the possible influence of Spain and its literature on American authors are still rare In 1955 appeared a pioneer work in this field Stanley T Williams *The Spanish Background of American Literature* But that book went no further than W D Howells *Familiar Spanish Travels* published in 1913 *The Last Good Land* covers most of the twentieth century including such groups as the Lost Generation and African American writers and exiles It also considers then recent revolution in Spanish cultural and historical thought introduced by Am rico Castro which several American writers discussed in this volume may be said to have anticipated Recent studies have expanded on Williams volumes but in the majority of cases these works limit their scope to a single period the nineteenth century the Spanish Civil War a movement predominantly Romanticism or authors known for their interest in Spain Irving Hemingway The result is often a lack of continuum or the exclusion of such authors as Saul Bellow William Gaddis or Richard Wright Within American literature itself *The Last Good Land* contains revisions of traditional interpretations of certain writers including Hemingway The variety of authors treated both in respect to ethnicity and gender guarantees a varied and global view of Spanish culture by American writers

Postmodern Spain Antonio Sánchez, 2007 *Postmodern Spain* examines the cultural transformation experienced by Spanish society during the late 1980s and 1990s By looking at specific aspects of culture the representation of the human subject the past and the transformation of the city this book critically re assesses the validity of postmodernism in Spain Focusing on the novels written by Juan Goytisolo during this period this book examines the representation and development of the human subject and its identification with the marginalized other s It further analyses various representations of the Spanish Civil War challenging the prevalent view of post Franco Spain as suffering from amnesia and thereby vindicates postmodern historical representations as a valid dialogue with the past The third chapter examines Barcelona s urban redevelopment analysing the transformation effected in some of its popular sites as a postmodern re formulation of the city as a fluid flexible public space Finally it brings its previous findings to bear on an analysis of the Barcelona 1992 Olympic Games It argues that these celebrations constituted a performance of Spain s new cultural identity designed for global national and local consumption Thus these cultural celebrations corroborated the emergence of postmodernism as a cultural dominant which has exceeded modern and pre modern cultural practices while paradoxically containing and enhancing both

Painting and the Turn to Cultural Modernity in Spain Andrew Ginger, 2007 Cultural modernity has habitually been defined as a focus on the means of representation themselves as opposed to art that imitates external reality or expresses its maker s inner life The crucial moment is usually considered the emergence of Edouard Manet in mid nineteenth century France and the features of French developments have been seen as defining terms in the theory of modernity However recent art and cultural history have often spoken of plural modernities distinct from the pattern set in France For the first time this study in cultural history explores how Spanish culture took a radical turn toward the medium of representation itself in the 1850s and early 1860s It argues that this happened in a way that is critically at odds with many fundamental theoretical suppositions about modernity

Constructing Spain Nathan Richardson, 2012 Does fiction do more than just represent space Can our experiences with fictional storytelling be in themselves spatial In *Constructing Spain The Reimagination of Space and Place in Fiction and Film* Nathan Richardson explores relations between cultural representation and spatial transformation across fifty years of Spanish culture Beginning in 1953 the year Spanish space was officially reopened to Western thought and capital and culminating in 2003 the year of Aznar s unpopular involvement of his country in the second Iraq War Richardson traces in popular and critically acclaimed fiction and film an evolution in Spanish storytelling that while initially representative in nature increasingly engages its audience in spatial practices that go beyond mere perception or conception of local material geographies In original readings of films by Luis Berlanga Luis Bu uel Alex de la Iglesia Alejandro Amen bar and Julio Medem and novels by Juan Goytisolo Antonio Mu oz Molina and Javier Mar as Richardson shows this formal evolution as a necessary response to developments restorations and transformations of local landscapes that resulted during these years from various human migrations tourist invasions urban development plans resurgent nationalisms and finally globalization As these changes occur Richardson traces a shift in the works studied from mere representation of spatial change toward actual engagement with shifting physical and social geographies as they inch ever closer toward the production of an actual spatial experience for their audiences In the final chapters of this book

Richardson offers in depth and highly original readings of the storytelling projects of Medem and Mar as in particular showing how these two artists invite readers to not only reconceive hegemonic notions of space and place but to practice alternative notions of being in place In these final readings Constructing Spain points to the newest developments in contemporary Spanish narrative and film a rise of new grammars of creation to challenge the ongoing capital driven creative destruction of globalized Spanish geography

Encyclopedia of the Atlantic World, 1400-1900 David Head, 2017-11-16 A first of its kind reference resource traces the interactions among four Atlantic facing continents Europe Africa and the Americas including the Caribbean between 1400 and 1900 Until recently the age of exploration and empire building was researched and taught within imperial and national boundaries The histories of Europe Africa North America and South America were told largely as independent stories with the development of individual places within each continent further separated from each other The indigenous populations of places colonized by Europeans fit into the history even more uneasily often mentioned only in passing

Encyclopedia of the Atlantic World 1400 1900 synthesizes a generation of historical scholarship on the events on four continents providing readers an invaluable introduction to the major people places events movements objects concepts and commodities of the Atlantic world as it developed during a key period in history when the world first started to shrink The entries discuss specific topics with an eye toward showing how individual items people and events were connected to the larger Atlantic world This accessibly written reference book brings together topics usually treated separately and discretely alleviating the need for extra legwork when researching and it draws from the latest research to make a vast body of scholarship about seemingly far flung places available to readers new to the field

Fictions of the Feminine in the Nineteenth-Century Spanish Press Lou Charnon-Deutsch, 2010-11-01 How was the female body perceived in the popular culture of late nineteenth century Spain Using a wide array of images from popular magazines of the day Lou Charnon Deutsch finds that women were typically presented in ways that were reassuring to the emerging bourgeois culture Charnon Deutsch organizes the 190 images reproduced in this book into six broad categories or fictions of the feminine she reads women s bodies as a romantic symbol of beauty or evil as a privileged link with the natural order as a font of male inspiration as a mouthpiece of bourgeois mores as a focalized point of male fear and desire and as an eroticized expression of Spanish exoticism and political ambitions These imaginary visions of femininity Charnon Deutsch argues were a response to and also helped to create gendered stereotypes by suggesting ideal feminine behavior and poses Further they comprised a reassuring between male cultural medium that provided graphic validation of women s docile body for a culture enthralled with femininity Integrating the fields of literature and cultural studies Charnon

Deutsch's approach to this subject is unique. Many of the images collected here are available for the first time and they represent only a fraction of the two thousand images Charnon Deutsch collected during her research. This book will appeal to students of Spanish cultural studies and gender studies as well as to art historians.

Art and Identity in Spain, 1833-1956 Claudia Hopkins, 2024-08-08

Richly illustrated, this is the first study in English to explore the longevity of Orientalist art in Spain over a period of 120 years. It highlights how artists in Spain shaped perceptions of Al Andalus, Iberia under Islam 711-1492, and northern Morocco from Spain's liberal revolution of the 1830s to the end of the Protectorate of Morocco in 1956. Combining art history with a cultural studies approach and using exemplary case studies, Hopkins foregrounds the diverse issues that underpin Orientalist expression: reflections on history and the nation, cultural nationalism, gender and sexuality, aesthetics, and art commerce, colonialism, and racial thinking. In the process, the book challenges overfamiliar understandings of Western Orientalism. Beyond Fortuny and Sorolla, many unfamiliar artists and exhibitions are introduced, amongst them Villaamil whose nostalgic landscapes evoked the loss of Andalusian culture, Becquer who celebrated Spanish Moroccan peace making through the lens of Velázquez, the Symbolist Rusiñol whose images of the Alhambra are infused with melancholy, Morcillo whose extraordinary camp images opened a new space for male subjectivity, Tapir and Bertuchi who dedicated their lives to Morocco, and the Moroccan Sarghini who participated in the state-funded Painters of Africa exhibitions in Franco's Madrid, an annual exhibition that served the colonial concept of a Hispano Moroccan brotherhood under the dictatorship. This book traces the shifting impulses and meanings of Orientalist expression in Spain. It makes an original intervention in the field of Spanish art studies and contributes new material to the ongoing debates about Western Orientalism.
