**New Irish Grammar** Christian Brothers,196?    New Irish grammar ,1910    New Irish Grammar Congregation of the Christian brothers of Ireland,1977    Gaodhal ,1901    Irish Nouns Andrew Carnie,2008-08-21 This book presents the first comprehensive reference on noun declensions in Modern Irish Whereas traditional descriptions of noun inflection are notoriously complex and filled with exceptions and irregularities this reference guide provides a systematic and straightforward characterization of nominal paradigms which also captures important generalizations about the inflection of nouns Andrew Carnie proposes ten declension classes instead of the traditional five and separates off seven major types of plural formation He provides fully inflected paradigms for 1200 nouns and a reference list of 10 000 Irish nouns annotated with their new declension class their plural type and the form of the genitive singular and common case nominative plural The book also includes parallel information on the inflection of adjectives and prepositions This unique reference tool will be invaluable not only to language researchers and authors but to teachers and students of the language whether they are native speakers or beginners    The Celtic Languages in Contact Hildegard L. C. Tristram,2007    *Broadening the Horizon of Linguistic Politeness* Robin T. Lakoff,Sachiko Ide,2005-10-27 This collection of 19 papers celebrates the coming of age of the field of politeness studies now in its 30th year It begins with an investigation of the meaning of politeness especially linguistic politeness and presents a short history of the field of linguistic politeness studies showing how such studies go beyond the boundaries of conventional linguistic work incorporating as they do non language insights The emphasis of the volume is on non Western languages and the ways linguistic politeness is achieved with them Many if not most studies have focused on Western languages but the languages highlighted here show new and different aspects of the phenomena The purpose of linguistic politeness is to aid in successful communication throughout the world and this volume offers a balance of geographical distribution not found elsewhere including Japanese Thai and Chinese as well as Greek Swedish and Spanish It covers such theoretical topics as face wakimae social levels gender related differences in language usage directness and indirectness and intercultural perspectives    Reflexivization Leonard M. Faltz,2016-11-10 This title first published in 1985 is the result of a cross linguistic comparative study of reflexives with a major role played by syntactic conditions on reflexivization rules The basic definitions outlined in the book lead to a discussion of morphological types discussions about syntax and speculations on the historical origins and destinies of the various kinds of reflexives This title will be of interest to students of language and linguistics    Agency and Impersonality Mutsumi Yamamoto,2006-01-01 In this monograph the author probes the fundamental nature of the concept of agency and its importance to human language and cognition Whereas previous studies focused on grammatical manifestations this original work addresses such issues as the strong relationship between agency and responsibility a philosophical interpretation of the concept of agency and a variety of epistemic attitudes towards agency that strongly influence our view of the world Different cultures and languages process

and express agency differently To illustrate the co relation between the linguistic expressions of agency and cultural stereotypes that lurk behind individual natural languages the author analyses Japanese and English parallel corpora It is shown that English tends to highlight agency in expressing actions and events whereas Japanese largely obfuscates agency through impersonalising potential agents Through the case studies on these languages this book sheds light on the close connection between language thought and culture and contributes to the resurging interest in linguistic relativity

*Melancholy Accidents* Carolyn Conley,1999-01-01 While most scholarly attention on violence in post famine Ireland has focused on political crimes this book examines non political violence which made up the vast majority of incidents in that period Ireland s overall crime rate was below that of England and Wales but the proportion of violent offenses to non violent ones was significantly higher in Ireland In *Melancholy Accidents* Carolyn Conley decries the commonly held belief that recreational and domestic violence was generally the result of understandable emotions Conley demonstrates that the meaning of violence in post famine Ireland was complex personal and often deeply traditional and idiosyncratic This unique book will be valuable to a wide variety of scholars including those who study women s history European history and social problems

*An Introduction to the Languages of the World* Anatole Lyovin,Brett Kessler,William Ronald Leben,2017 The only textbook of its kind *An Introduction to the Languages of the World* is designed to introduce beginning linguistics students who now typically start their study with little background in languages to the variety of the languages of the world

*North American Gaels* Natasha Sumner,Aidan Doyle,2020-11-18 A mere 150 years ago Scottish Gaelic was the third most widely spoken language in Canada and Irish was spoken by hundreds of thousands of people in the United States A new awareness of the large North American Gaelic diaspora long overlooked by historians folklorists and literary scholars has emerged in recent decades *North American Gaels* representing the first tandem exploration of these related migrant ethnic groups examines the myriad ways Gaelic speaking immigrants from marginalized societies have negotiated cultural spaces for themselves in their new homeland In the macaronic verses of a Newfoundland fisherman the pointed addresses of an Ontario essayist the compositions of a Montana miner and lively exchanges in newspapers from Cape Breton to Boston to New York these groups proclaim their presence in vibrant traditional modes fluently adapted to suit North American climes Through careful investigations of this diasporic Gaelic narrative and its context from the mid eighteenth century to the twenty first the book treats such overarching themes as the sociolinguistics of minority languages connection with one s former home and the tension between the desire for modernity and the enduring influence of tradition Staking a claim for Gaelic studies on this continent *North American Gaels* shines new light on the ways Irish and Scottish Gaels have left an enduring mark through speech story and song

*The Linguistics of Temperature* Maria Koptjevskaja-Tamm,2015-02-11 The volume is the first comprehensive typological study of the conceptualisation of temperature in languages as reflected in their systems of central temperature terms hot cold to freeze etc The key issues addressed here include questions such as how

languages categorize the temperature domain and what other uses the temperature expressions may have e.g. when metaphorically referring to emotions warm words. The volume contains studies of more than 50 genetically areally and typologically diverse languages and is unique in considering cross linguistic patterns defined both by lexical and grammatical information. The detailed descriptions of the linguistic and extra linguistic facts will serve as an important step in teasing apart the role of the different factors in how we speak about temperature neurophysiology cognition environment social cultural practices genetic relations among languages and linguistic contact. The book is a significant contribution to semantic typology and will be of interest for linguists psychologists anthropologists and philosophers. Opening Windows on Texts and Discourses of the Past Janne Skaiffari, Matti Peikola, Ruth Carroll, Risto Hiltunen, Brita Wårvik, 2005-03-24. This volume presents a variety of pragmatic and discourse analytical approaches to a wide range of linguistic data and historical texts including data from English French Irish Latin and Spanish. This diversity of research questions and methods is a feature of the field of historical pragmatics which by its very nature has to take into account the multiplicity of historical contexts and the infinite variety of human interaction. This is highlighted in the book's introduction by means of the metaphor of opening windows. Each chapter is a window affording a different view of the linguistic and textual landscape. Some of these windows were opened by historical linguists who have acquired discourse perspectives some by pragmaticians with historical interests and others by literary scholars drawing from linguistic pragmatics. Contributors include L. J. Brinton A. H. Jucker F. Salager Meyer I. Taavitsainen B. Wehr L. Wright and sixteen others. *A Catalogue of Books, Arranged in Classes* Bernard Quaritch, 1864. **The Monthly Magazine**, 1817. **The Library of John Quinn** John Quinn, 1923. *Adverbial Subordination* Bernd Kortmann, 2012-08-07. No detailed description available for Adverbial Subordination. *Formal Approaches to Celtic Linguistics* Andrew Cairnie, 2011-05-25.
