The Regime Change Consensus Joseph Stieb, 2021-07-08 Why did the United States invade Iraq setting off a chain of events that profoundly changed the Middle East and the US global position The Regime Change Consensus offers a compelling look at how the United States pivoted from a policy of containment to regime change in Iraq after September 11 2001 Starting with the Persian Gulf War the book traces how a coalition of political actors argued with increasing success that the totalitarian nature of Saddam Hussein's regime and the untrustworthy behavior of the international coalition behind sanctions meant that containment was a doomed policy By the end of the 1990s a consensus belief emerged that only regime change and democratization could fully address the Iraqi threat Through careful examination Joseph Stieb expands our understanding of the origins of the Iraq War while also explaining why so many politicians and policymakers rejected containment after 9 11 and embraced regime change **Historical Dictionary of Human Rights** Jacques

Fomerand, 2014-02-18 This dictionary has more than 1000 cross referenced entries on terminology conventions treaties intergovernmental organizations in the United Nations family or regional bodies and the constantly expanding universe of non governmental organizations as well as some of the pioneers and defenders of human rights **Genocide** Graham Charles Kinloch, Raj P. Mohan, 2005 Twenty authors analyze factors behind genocidal situations worldwide with detailed case studies and an evaluation of attempts to prevent genocide and of the implications for human rights policies with a particular concern to develop new and practical insights Provided by publisher *Civilian Protection in Armed Conflicts* Robert Schütte, 2014-10-29 The study analyzes three themes first the evolution of the concept of civilians in the course of human history and secondly the situation and victimization of civilians in armed conflict since 1990 and third how the international community since the end of the Cold War to protect civilians has monitored by the mandating robust UN peacekeeping missions The United Nations Mission in the Congo functions as a case study **Reporting Genocide** David

Patrick,2017-12-13 The Western world's responses to genocide have been slow unwieldy and sometimes unfit for purpose So argues David Patrick in this essential new contribution to the aid and intervention debate While the UK and US have historically been committed to the ideals of human rights freedom and equality their actual material reactions are more usually dictated by geopolitical noise pre conceived ideas of worth and the media attention spans of individual elected leaders Utilizing a wide ranging quantitative analysis of media reporting across the globe Patrick argues that an over reliance on the Holocaust as the framing device we use to try and come to terms with such horrors can lead to slow responses misinterpretation and category errors in both Rwanda and Bosnia much energy was expended trying to ascertain whether these regions qualified for genocide status The Reporting of Genocide demonstrates how such tragedies are reduced to stereotypes in the media framed in terms of innocent victims and brutal oppressors which can over simplify the situation on the ground This in turn can lead to mixed and inadequate responses from governments Reporting on Genocide also seeks to address how responses to genocides across the globe can be improved and will be essential reading for policy makers and for scholars of genocide and the media

Genocide: A Thematic Approach Thomas Earl Porter, John Cox, 2025-04-08 The purpose of this volume is not simply to compile yet another wearying chronicle of the horrors that have been committed by our fellow human beings Most students who register for a course on Genocide assume that it will focus perhaps exclusively on the Holocaust the case with which they are most familiar Many of them have read Elie Wiesel's eloquent masterpiece *Night* in secondary school and some may have read *The Diary of Anne Frank* A few students might even know that a genocide occurred in Rwanda or Darfur Like most people however they equate genocide simply with mass killing and assume that genocide must by definition entail millions of deaths Raphael Lemkin who coined the word genocide meaning literally to kill a people originally defined it a colonial crime of destroying the national patterns of the oppressed and imposing the national patterns of the oppressors This was a process Lemkin said deliberately intending to destroy a people's culture that could sometimes but not necessarily always result in mass murder Students need to know that after World War II the great powers undermined and co-opted the process of writing the 1948 Genocide Convention at the UN because these nations did not want their own colonial crimes oppression of minorities and destructions of cultures to be included in the definition Instead they simply used the Holocaust as a template and succeeded in distorting what Lemkin originally meant by genocide the murder of a people by destroying their social and cultural connections

Hybrid and Internationalised Criminal Tribunals Sarah Williams, 2012-04-02 In recent years a number of criminal tribunals have been established to investigate prosecute and try individuals accused of serious violations of international humanitarian law and international human rights law These tribunals have been described as hybrid or internationalised tribunals as their structure and applicable law consist of both international and national elements Six such tribunals are currently in operation the Special Court for Sierra Leone the Extraordinary Chambers in the Courts of Cambodia the International Judges and Prosecutors Programme in Kosovo the War Crimes Chamber for Bosnia and Herzegovina the Iraqi High Tribunal and the Special Tribunal for Lebanon The Special Panels for Serious Crimes in East Timor suspended operation in May 2005 although there continues to be some international involvement in investigation and prosecution of serious crimes Suggestions have also been made that this model of tribunal would be appropriate for the prosecution of atrocities committed in among others Burundi the Sudan the Democratic Republic of Congo Kenya and Liberia as well as for a wider range of international crimes most recently piracy The key aims of this book are to place the model of hybrid and internationalised tribunals in the context of other mechanisms to try international crimes to examine the increasing demand for the establishment of hybrid and internationalised judicial institutions and the factors driving such demand to define the category of hybrid and

internationalised tribunals by examining the key features of the existing and proposed hybrid or internationalised tribunals as well as the features of those institutions with international elements that are generally excluded from this category to determine the legal and jurisdictional bases of existing hybrid and internationalised tribunals to analyse how the legal and jurisdictional basis of a tribunal affects other issues such as the applicable law the application of amnesties and immunities and the relationship of the tribunal with the host state third states national courts and other international criminal tribunals The book concentrates on the definitional legal and jurisdictional aspects of hybrid and internationalised criminal tribunals as this has been the subject of some confusion in arguments before the tribunals and in the judgments of the tribunals In its concluding section the book examines the future role of internationalised and hybrid criminal tribunals particularly in light of the establishment of the ICC and the potential use of such tribunals in other contexts It also assesses how hybrid and internationalised tribunals fit into a multi layered framework of international criminal law and transitional justice
