Nouvelles lettres de Berlioz Hector Berlioz, 1954 Berlioz D. Kern Holoman, 1989 A captivating and sumptuously illustrated biography Berlioz is not only a complete account of the Romantic era composer but also an acute analysis of his compositions and a description of his work as a conductor and critic 139 halftones 3 maps 160 musical examples **New Letters of Berlioz, 1830-1868. With Introduction, Notes and English Translation by Jacques Barzun. (Nouvelles Lettres de Berlioz, Etc.) theoretical approaches from historical musicology urban sociology and sound studies to shed light on newly surfaced archival material Fanfare for a City argues that urbanism was a driving force in how nineteenth century music was produced performed and policed *Hector Berlioz, Les Troyens* Ian Kemp,1988 This is a series of studies of individual operas written for the opera goer or record collector as well as the student or scholar Each volume has three main concerns historical analytical and interpretative There is a detailed description of the genesis of each work the collaboration between librettist and composer and the first performance and subsequent stage history A full synopsis considers the opera as a structure of musical and dramatic effects and there is also a musical analysis of a section of the score The analysis like the history shades naturally into interpretation by a careful combination of new essays and excerpts from classic statements the editors of the handbooks show how critical writing about the opera like the production and performance can direct or distort appreciation of its structural elements A final section of documents gives a select bibliography a discography and guides to other sources Each book is published in both hard covers and as a paperback [Catalog of Copyright Entries](#) Library of Congress. Everist, 2021-01-29 The history of music is most often written as a sequence of composers and works But a richer understanding of the music of the past may be obtained by also considering the afterlives of a composer's works Genealogies of Music and Memory asks how the stage works of Christoph Willibald Gluck 1714-87 were cultivated in nineteenth century Paris and concludes that although the composer was not represented formally on the stage until 1859 his music was known from a wide range of musical and literary environments Received opinion has Hector Berlioz as the sole guardian of the Gluckian flame from the 1820s onwards and responsible together with the soprano Pauline Viardot for the revival of the composer's Orfeo in 1859 The picture is much clarified by looking at the concert performances of Gluck during the first two thirds of the nineteenth century and the ways in which they were received and the literary discourses they engendered Coupled to questions of music publication pedagogy and the institutional status of the composer such a study reveals a wide range of individual agents active in the promotion of Gluck's music for the Parisian stage The revival of Orfeo is contextualised among other attempts at reviving Gluck's works in the 1860s and the role of Berlioz Viardot and a host of others re-examined Catalogue May and May (Firm), 1972
