Genome Project Timothy F. Murphy,Marc A. Lappé,2024-07-26 The Human Genome Project is an expensive ambitious and controversial attempt to locate and map every one of the approximately 100 000 genes in the human body If it works and we are able for instance to identify markers for genetic diseases long before they develop who will have the right to obtain such information What will be the consequences for health care health insurance employability and research priorities And more broadly how will attitudes toward human differences be affected morally and socially by the setting of a genetic standard The

compatibility of individual rights and genetic fairness is challenged by the technological possibilities of the future making it difficult to create an agenda for a just genetics Beginning with an account of the utopian dreams and authoritarian tendencies of historical eugenics movements this book's nine essays probe the potential social uses and abuses of detailed genetic information Lucid and wide ranging these contributions will interest bioethicists legal scholars and policy makers Essays The Genome Project and the Meaning of Difference Timothy F Murphy Eugenics and the Human Genome Project Is the Past Prologue Daniel J Kevles Handle with Care Race Class and Genetics Arthur L Caplan Public Choices and Private Choices Legal Regulation of Genetic Testing Lori B Andrews Rules for Gene Banks Protecting Privacy in the Genetics Age George J Annas Use of Genetic Information by Private Insurers Robert J Pokorski The Genome Project Individual Differences and Just Health Care Norman Daniels Just Genetics A Problem Agenda Leonard M Fleck Justice and the Limitations of Genetic Knowledge Marc A Lapp This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1994 **Issues in Reproductive Technology** Helen B.

Holmes,1994-08 A remarkable collection of scholarly essays philosophical discussions and ethical arguments concerning reproductive choices Choice It seems as if every week there is a new case involving reproductive technologies that raises provocative often painful questions What policies should be followed by centers that preserve human embryos Are such innovations as Norplant improvements over established methods of contraception Should RU 486 be available in the U S Is prenatal diagnosis an ethically acceptable step to limiting the number of disabled people These are just some of the vital questions explored in this timely work which offers incisive analysis of the plethora of issues raised by advances in reproductive medicine The book's major section cover abortion contraception cryopreservation of gametes and embryos surrogate motherhood and psychosocial issues of in vitro fertilization In each section introductory essays by recognized authorities such as Elizabeth Bartholet and Andrea L Bonnicksen are followed by critical articles by professionals in such fields as women's health medicine biology sociology politics and philosophy In assessing a technology the authors present well argued analyses of problems created by that technology including views from advocates and practitioners that raise attendant ethical and practical issues *Reproductive Laws for the 1990s* Sherrill Cohen,Nadine Taub,2013-12-01 The Project on Reproductive Laws for the 1990s began in 1985 with the realization that reports of scientific developments and new technologies were stimulating debates and discussions among bioethicists and policymakers and that women had little part in those discussions either as participants or as a group with interests to be considered With the help of a planning grant from the Rutgers University Institute for Research on Women the Women's Rights Litigation Clinic at Rutgers University Law School Newark held a planning meeting that June attended by approximately 20 theorists and activists in the area of

reproductive rights Project purposes methods and general shape took form at the meeting Two goals have characterized the Project s work since then first to generate discussion debate and where possible consensus among those committed to reproductive autonomy and gender equality as to how best to respond to the questions raised by re ported advances in reproductive and neonatal technology and new modes of reproduction and second to ensure that those shaping reproductive law and policy appreciate the ramifications of these developments for gender equality In meeting this twofold agenda the Project focused on six areas time limits on abortion prenatal screening fetus as patient reproductive hazards in the workplace interference with reproductive choice and alternative modes of reproduction The Project identified individuals to take responsibility for drafting model legislation and position papers in the six areas for the drafters see the Appendix
